Social And Political Contexts Of Family:

Sourcebook of Family Theories and Methods Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 1993-03-31 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production *The Family in Christian Social and Political Thought* Brent Waters, 2007-07-19 An alternative voice in the culture wars over family values Brent Waters proposes a normative account of the family's role in social and political ordering that draws upon a spectrum of theological and philosophical resources He contends that when families are properly ordered they are oriented toward broader spheres of human association *Global Social Work in a Political Context* Ferguson, Iain, Ioakimidis, Vasilios, Michael Lavalette, 2018-01-10 How is social work shaped by global issues and international problems and how should it address them Taking a radical perspective this book reveals what we can learn from different approaches from across the globe

Exploring Family Relationships With Other Social Contexts Ross D. Parke, Sheppard G. Kellam, 2013-07-04 In the 1990s it is no longer news that families do not operate independently from other social organizations and institutions Instead it is generally recognized that families are embedded in a complex set of relationships with other institutions and contexts outside the family In spite of this recognition a great deal remains to be discovered about the ways in which families are influenced by these outside agencies or how families influence the functioning of children and adults in these extra familial settings school work day care or peer group contexts Moreover little is known about the nature of the processes that account for this mutual influence between families and other societal institutions and settings The goal of this volume is to present examples from a series of ongoing research programs that are beginning to provide some tentative answers to these questions The result of a summer workshop characterized by lively exchanges not only between speakers and the audience but among participants in small group discussions as well this volume attempts to communicate some of the dynamism and excitement that was evident at the conference In the final analysis this book should stimulate further theoretical and empirical advances in understanding how families relate to other contexts

Family Support: Prevention, Early Intervention and Early Help Nick Frost, Shaheen Abbott, Tracey Race, 2015-11-12 Family Support introduces and explores the state of the art in preventative social work with

children and young people Drawing on contemporary thinking and research the book aims to make a contribution to current debates about how we can best support families in need Underpinning the book is an analysis of how family support is changing having moved from prevention through to contemporary debates about family support early intervention and early help The authors draw on their own practice experiences to ensure the discussion remains highly relevant to everyday realities The book consists of three parts Part I examines the history and context of family support Part II outlines a number of practice approaches to family support and Part III suggests how family support work can be further developed The book provides think points and case studies to support the reader in reflecting on the material presented and how this can be best applied as well as including a guide to useful resources Family Support will be a welcome companion for anyone involved in child welfare and safeguarding services including students at undergraduate and post graduate level practitioners policy makers and academics
