Transforming Social Action into Social Change Shana Cohen, 2017-05-25 Cohen offers a new framework for analyzing social projects and local social activism Rather than look at how single projects are designed and managed to evaluate their impact the approach calls for analyzing fields of social action policy and politics institutional behavior social networks among policymakers and practitioners and availability of funding and other resources Combined they affect the conceptualization of a social problem and the design and practice of social intervention More broadly through circumscribing the range of thinking about social problems they delimit possibilities to generate social change Analyzing fields also allows for linking macro level trends in areas like policy to decision making within individual organizations and the effectiveness of projects at instigating the desired transformation in individual and collective behavior Working together policymakers individual activists nonprofit organizations and staff in public institutions like schools and hospitals can critique and alter fields to challenge more effectively social problems This collaboration in turn affects how social policies are designed and ultimately the politics of social change

Social Action Seumas Miller, 2001-11-26 Social action is central to social thought This centrality reflects the overwhelming causal significance of action for social life the centrality of action to any account of social phenomena and the fact that conventions and normativity are features of human activity This book provides philosophical analyses of fundamental categories of human social action including cooperative action conventional action social norm governed action and the actions of the occupants of organizational roles A distinctive feature of the book is that it applies these theories of social action categories to some important moral issues that arise in social contexts such as the collective responsibility for environmental pollution humanitarian intervention and dealing with the rights of minority groups Avoiding both the excessively atomistic individualism of rational choice theorists and implausible collectivist assumptions this important book will be widely read by philosophers of the social sciences political scientists and sociologists

Alfred Schutz's Sociological Aspect of Literature Lester Embree, 1997-12-31 The main text in the present volume has been constructed out of passages found scattered about in thirty five years of Alfred Schutz's writings and it has been constructed by following a page of notes for a lecture that he gave in 1955 under the title Sociological Aspect of Literature The result can be considered the substance of Schutz's contribution to the theory of literature More detail about how this construction has been performed is offered in the Editor's Introduction The complementary essays are by scholars from Germany Japan and the United States from several generations and from the disciplines of anthropology philosophy and sociology These researchers were invited to reflect in their own perspectives on the main text and in relation to matters referred to within and beyond it Draft versions of most of these complementary essays were presented for critical discussion

in a research symposium held at the Graduate Faculty of Political and Social Science of the New School for Social Research on April 28-29, 1995 under the sponsorship of The Center for Advanced Research in Phenomenology Inc. Florida Atlantic University. The Department of Philosophy of The Graduate Faculty of the New School Richard 1 Bernstein Chair and Evelyn and George Schutz the philosopher's children. Revised versions of these presentations and also several essays subsequently recruited are offered to begin yet another stage in the history of scholarship on Schutz and the phenomenological research inspired by him. Northwestern University Press is thanked for permission to quote extensively from Alfred Schutz *The Phenomenology of the Social World* trans Social Action, 2011 **Grassroots Social Action** Charles V. Willie, Steven Ridini, David Willard, 2008 Willie and his colleagues analyze social action from the bottom up. The focus is on how people outside the traditional circuits of authority exercise power and how their actions relate to bureaucratic social action from the top down. All told the contributors offer a critical **The Explanation of Social Action** John Levi Martin, 2021-06-15 This thought provoking and ambitious book is a sustained critique of the conventional understanding of what it means to explain something in the social sciences. This paperback edition includes a new preface in which Martin connects *The Explanation of Social Action* to deep neural networks that are important to the study of artificial intelligence and to the development of computational social science *Roma, Gypsies, Travellers* Jean-Pierre Liégeois, 1994-01-01 This book provides an understanding of Gypsies and Travellers by introducing the reader to the richness of their culture and lifestyle *AGED IN URBAN FAMILIES: A Case-Study of the Aged in Goan and Punjabi Families in Mumbai* Vatika Sibal, 2024-09-10 In our journey of life we pass through different stages and undergo varying relationships with members of our family, relatives and community at large. As a child our relationships and experiences with parents are different from what we have during our adolescence and as married persons. All these experiences have an impact on our life Library of Congress Subject Headings Library of Congress. Cataloging Policy and Support Office, 2004 Kingdom Theology G. Carlton Moore, 2024-06-18 What this book argues for in today's twenty-first century church was a hallmark doctrine of old school Presbyterianism of the nineteenth century: the doctrine of the spirituality of the church. Which eschatological approach one uses will affect one's understanding of the nature and practice of missions. Mission creep, the expansion of the church's original objective, is a real concern for the contemporary church and how one understands eschatology affects one's focus on missions. The mission of the church is narrow (Matt 28:18-20) and the calling of individual believers is broad (Rom 12:1-2). If we fail to make this crucial distinction the church's mission will lose its biblical emphasis. And if the church's mission is lost then the authority structure instantiated in the offices and officers of the church devolves into illegitimacy because the church is no longer advancing the kingdom ends she was mandated to do by King Jesus. If the institutional church fails to do this we will be relinquishing and abdicating and abandoning our most singular and particular and peculiar kingdom of God: vocation, the harvesting, gathering and perfecting of the saints **Emotions through Literature** Mariano

Longo,2019-07-23 Engaging with the wide sociological literature on emotions this book explores the social representation of emotions their management and their effects by making reference to creative sources With a specific focus on literary narrative including the works of figures such as Dante Austen Manzoni Tolstoy and Kundera the author draws out the capacity of literary works to describe and represent both the external aspects of social relations and the inner motivations of the involved actors An interdisciplinary study that combines sociology narratology philosophy historical analysis and literary criticism Emotions through Literature invites us to re think the role of emotions in sociological analysis employing literary narratives to give plausible intellectual responses to the double nature of emotions their being both individual and social

Disintegrating Empire Elise Franklin,2024-10 Disintegrating Empire examines the entangled histories of three threads of decolonization the French welfare state family migration from Algeria and the French social workers who mediated between the state and their Algerian clients After World War II social work teams midlevel bureaucrats and government ministries stitched specialized social services for Algerians into the structure of the midcentury welfare state Once the Algerian Revolution began in 1954 many successive administrations and eventually two independent states France and Algeria continuously tailored welfare to support social aid services for Algerian families migrating across the Mediterranean Disintegrating Empire reveals the belated collapse of specialized services more than a decade after Algerian independence The welfare state s story Elise Franklin argues was not one merely of rise and fall but of winnowing services to deserving clients Defunding social services long associated with the neoliberal turn in the 1980s and beyond has a much longer history defined by exacting controls on colonial citizens and migrants of newly independent countries Disintegrating Empire explores the dynamic conflicting and often messy nature of these relationships which show how Algerian family migration prompted by decolonization ultimately exposed the limits of the French welfare state
