Companion Reader on Violence Against Women Claire M. Renzetti, Jeffrey L. Edleson, Raquel Kennedy Bergen, 2011-04-26 An invaluable companion to the Sourcebook on Violence Against Women Second Edition Designed to advance knowledge about violence against women and to serve as an inspiration

to those studying or working in the field this companion reader's 20 original articles focus first on theoretical and methodological issues then on types of violence against women and finally on prevention and direct intervention. Readers will find a wide range of articles that draw attention to the global dimensions of violence against women and the importance of taking into account political, economic and cultural differences across diverse groups of people. While the book's articles are designed as companion pieces to the chapters in the Second Edition of the Sourcebook, this reader may also be used as a stand-alone text by those researching specific topics such as diversity issues, conducting trainings or teaching advanced courses such as international social work.

The Globalization of Hate Jennifer Scheppe, Mark Austin Walters, 2016-05-25

The Globalization of Hate Internationalizing Hate Crime is the first book to examine the impact of globalization on our understanding of hate speech and hate crime. Bringing together internationally acclaimed scholars with researchers, policy makers and practitioners from across the world, it critically scrutinises the concept of hate crime as a global phenomenon, seeking to examine whether hate crime can or should be conceptualised within an international framework and if so, how this might be achieved. Beginning with the global dynamics of hate, the contributions analyse whether hate crime can be defined globally, whether universal principles can be applied to the phenomenon, how hatred is spread and how it impacts upon our global society. The middle portion of the book moves beyond the broader questions of globalisation to jurisdictional examples of how globalization impacts upon our understanding of and also our responses to hate crime. The chapters explore in greater detail what is happening around the world and how the international concepts of hate crime are being operationalised locally, drawing out the themes of globalization and internationalization that are relevant to hate crime as evidenced by a number of jurisdictions from Europe, the US, Asia and Africa. The final part of the book concludes with an examination of the different ways in which hate speech and hate crime is being combatted globally. International law, internet regulation and the use of restorative practices are evaluated as methods of addressing hate-based conflict, with the discussions drawn from existing frameworks as well as exploring normative standards for future international efforts. Taken together, these innovative and insightful contributions offer a timely investigation into the effects of hate crime, offering an interdisciplinary approach to tackling what is now a global issue. It will be of interest to scholars and students of criminology, sociology and criminal justice, as well as criminal justice practitioners, police officers and policy makers.

Sex, Sexuality, Law, and (In)justice Henry Fradella, Jennifer Sumner, 2016-02-26

Sex, Sexuality, Law and In Justice covers a wide range of legal issues associated with sexuality, gender, reproduction and identity. These are critical and sensitive issues that law enforcement and other criminal justice professionals need to understand. The book synthesizes the literature across a wide breadth of perspectives, exposing students to law, psychology, criminal justice, sociology, philosophy, history and where relevant, biology, to critically examine the social control of sex, gender and sexuality across history. Specific federal and state case law and statutes are integrated throughout the book, but the text moves beyond

the intersection between law and sexuality to focus just as much on social science as it does on law This book will be useful in teaching courses in a range of disciplines especially criminology and criminal justice history political science sociology women and gender studies and law Addicted to Incarceration Travis C. Pratt, 2018-10-24 In Addicted to Incarceration author Travis C Pratt uses an evidence based approach to explore the consequences of what he terms America s addiction to incarceration Highlighting the scope of the issue the nature of the political discussions surrounding criminal justice policy in general and corrections policy in particular and the complex social cost of incarceration this book takes an incisive look at the approach to corrections in the United States The Second Edition demonstrates that the United States addiction to incarceration has been fueled by American citizens opinions about crime and punishment the use of incarceration as a means of social control and perhaps most important by policies legitimized by faulty information Analyzing crime policies as they relate to crime rates and society s ability to both lower the crime rate and address the role of incarceration in preventing future crime this book shows students how ineffective the rush to incarcerate has been in the past and offers recommendations and insights to navigate this significant problem going forward Revitalizing Victimization Theory Travis C. Pratt, Jillian J. Turanovic, 2021-04-09 Revitalizing Victimization Theory Revisions Applications and New Directions revises some of the major perspectives in victimization theory applies theoretical perspectives to the victimization of vulnerable populations and carves out new theoretical territory that is clearly needed but has yet to be developed With the exception of a handful of isolated works in the mid twentieth century theory and research on victimization did not come into its own until the late 1970s with the articulation of lifestyle and routine activity theories Research conducted within this tradition continues to be an important part of the overall criminological enterprise and a large body of empirical knowledge has been generated Nevertheless theoretical advances in the study of victimization have largely stalled within the field of criminology Indeed little in the way of new theoretical headway has been made in well over a decade This is an ideal time to revitalize victimization theory and this volume does just that It is an ambitious project that will hopefully reignite the kinds of theoretical discussions that once held the attention of the field The work included here will shape the future of victimization theory and research in years to come This volume should be of interest to a wide range of criminologists and have the potential to be used in graduate seminars and upper level undergraduate courses
