Stumbling Toward Justice Lee Hoinacki, 2010-11 Hoinacki's underlying assumption is that a narrative relating one's personal experience may introduce the reader to a wider and more incisive understanding than that provided by the investigative and reporting methods of the social and natural sciences Jacket

The Challenges of Ivan Illich Lee Hoinacki, Carl Mitcham, 2012-02-01 This unique collection examines the man Utne Reader has called the greatest social critic of the twentieth century The essays all by people Illich has influenced personally discuss how his life and thought have affected conceptualization study and practice of psychotherapy notions about education ideas concerning the historical development of the text perceptions of technology as well as other topics All of Illich's books are discussed and his ideas on education theology technology anarchism and society are examined in relationship to those of Ren Girard Karl Polanyi Emmanuel Levinas and Jacques Ellul Illich's previously unpublished paper offering a new view of conspiracy in European history is included

Dying Is Not Death Lee Hoinacki, 2007-01-01 *Dying Is Not Death* examines from a traditional humanistic position the act of dying The author views death as a universal experience that can and perhaps should force us to explore various technological intrusions upon it Each chapter is an independent narrative and some chapters tell stories of those struggling to die when confronted with the medical system's technological artifacts Recounting different persons' experiences of death Lee Hoinacki suggests that the medical system's conventional approaches to dying and death can distort our preparation for this most important experience Borrowing from Jacques Ellul and Ivan Illich Hoinacki acknowledges technology as an all embracing system with powerful symbolic effects on the human condition and argues to a conflict between faith and technology Indeed with Ellul he holds that in order to criticize technology one must find some place outside the technological milieu that would act as a kind of Archimedean lever One must somehow get to the Beyond to judge where one stands in the world

Faith Seeking Conviviality Samuel E. Ewell III, 2019-12-30 *Faith Seeking Conviviality* traces the journey of a U S missionary into Brazil and beyond seeking to be faithfully present while also questioning the default settings of good intentions Taking Ivan Illich as the primary theological guide on that journey *Faith Seeking Conviviality* narrates the discovery of a renewed imagination for Christian mission that arises as a response to two persistent questions First given the colonial history of Christian missionary expansion on what basis do we go on fulfilling the Great Commission Matt 28:16-20 as Christ's disciples A second question intimately related to the first is What makes it possible to embody a distinctively Christian presence that is missionary without being manipulative In doing theology with and after Ivan Illich *Faith Seeking Conviviality* does not offer a pull off the shelf model for mission but rather a framework for embodying the incarnational logic of mission that entails a convivial turn

delinking missionary discipleship from the lure of techniques and institutional dependence in order to receive and to share the peace of Christ relationally

A Prodigal Saint Nadieszda Kizenko, 2000 Rarely are we privileged to see the making of a saint but it is just what this book gives us for John of Kronstadt 1829-1908 a major figure in the religious life of Late Imperial Russia So popular was Father John during his years of ministry that Kronstadt became a pilgrimage site replete with peddlers selling souvenir photographs postcards and commemorative mugs A Prodigal Saint follows Father John's development from activist priest to venerated spiritual leader and after his death to his elevation to sainthood in 1990 We see both the inner life of an aspiring saint and the symbiotic relationship between a living icon and his followers Father John represented a fundamentally new type of religious behavior and a new standard of sanctity in Late Imperial Russia He ministered to the poor of Kronstadt creating shelters and employment programs and participating in the temperance movement In the process he acquired a reputation for prayerful intercession that soon spread beyond Kronstadt When he was asked to minister to the dying Alexander III in 1894 his fame became international as he attracted correspondents from the United States and Europe In his later years he allied himself increasingly with the radical right which has had momentous implications for the Russian Orthodox Church in the twentieth century Kizenko draws upon rich and virtually unknown documents from the Russian archives including Father John's diaries thousands of letters he received from his followers and the police reports on the sect that formed around him John's diaries are a truly unique source for they document the making of a modern saint his struggles with doubt his ascetic practices and his growing realization that others saw him as a saint Kizenko explores the extent to which Father John collaborated in the formation of his own cult and how he himself was influenced by the expectations and desires of his audience In the final chapter she follows Father John's posthumous reputation and the struggles over how to use that reputation in Russia the Soviet Union and throughout the world A Prodigal Saint is published in collaboration with the Harriman Institute at Columbia University as part of its Studies of the Harriman Institute series It is a pioneering study that contributes to our understanding of lived religion saints cults and modern Russian history
