Styles Of Urban Policing:

Styles of Urban Policing Jeffrey Slovak, 1988-09 Using data from 42 sizable American cities on their environments and police organizational structures the book documents the importance of organizational structure on police action by predicting arrest rates for 2 types of serious criminal offenses It applies this research perspective to neighborhoods in analyses of policing styles in three cities Elyria Ohio Columbia S C and Newark N J The study examines the kinds of data on police action available from a police dispatch log as well as particular information recording processes used in the three sites Two key indicators of police style are the rate of police aggressiveness and the degree to which local police work is legalistic watchmanlike or service oriented These measures are used to analyze variations in policing styles across both neighborhoods and cities providing support to the theory that organization rather than environment determines local policing styles This view receives additional support from indepth analyses of social demographic and economic characteristics of the three sites Tables references and index

The CQ Press Guide to Urban Politics and Policy in the United States Christine Kelleher Palus, Richardson Dilworth, 2016-02-11 The CQ Press Guide to Urban Politics and Policy in the United States will bring the CQ Press reference guide approach to topics in urban politics and policy in the United States If the old adage that all politics is local is even partially true then cities are important centers

for political activity and for the delivery of public goods and services U S cities are diverse in terms of their political and economic development demographic makeup governance structures and public policies Yet there are some durable patterns across American cities too Despite differences in governance and or geographic size most cities face similar challenges in the management of public finances the administration of public safety and education And all U S cities have a similar legal status within the federal system This reference guide will help students understand how American cities from old to new have developed over time Part I how the various city governance structures allocate power across city officials and agencies Part II how civic and social forces interact with the organs of city government and organize to win control over these organs and or their policy outputs Part III and what patterns of public goods and services cities produce for their residents Part IV The thematic and narrative structure allows students to dip into a topic in urban politics for deeper historical and comparative context than would be possible in either an A to Z encyclopedia entry or in an urban studies course text FEATURES

Approximately 40 chapters organized in major thematic parts in one volume available in both print and electronic formats Front matter includes an Introduction by the Editors along with biographical backgrounds about the Editors and the Contributing Authors Back matter includes a compilation of relevant topical data or tabular presentation of major historical developments population grown size of city budgets etc or historical figures e g mayors a bibliographic essay and a detailed index Sidebars are provided throughout and chapters conclude with References Further Readings and Cross References to related chapters as links in the e version This Guide is a valuable reference on the topics in urban politics and policy in the United States The thematic and narrative structure allows researchers to dip into a topic in urban politics for a deeper historical and comparative context than would be possible in either an A to Z encyclopedia entry or in an urban studies course text **Measurement and Analysis of Crime and Justice, Vol. 4, Criminal Justice 2000, (July 2000) ,2000**

Contemporary Research on Police Organizations George W. Burruss,Matthew J. Giblin,Joseph A. Schafer,2019-12-18

Much research on policing focuses on individual officer decision making in the field but officers are positioned within organizations Organizational characteristics including structures policies management training culture traditions and the environmental context affect individual officer behavior and attitudes Recent high profile controversies surrounding policing have generated interest in examining what factors may have led to current crises In this book contributors discuss how police department priorities are made how departments respond to sexual assault complaints how forensic scientists deal with job stress and satisfaction how police use gun crime incident reviews for problem solving and information sharing how police officers view the use of body worn cameras given their perceptions of organizational justice and how officers view their work culture The purpose of this book is to give policy makers and scholars some guidance on the interplay between the individual and the organization By understanding this dynamic police administrators should be able to better devise reform efforts This book was originally published as a special issue of the Journal of Crime and Justice **Criminal Justice Theory** Edward

Criminal Justice Theory Edward R. Maguire, David E. Duffee, 2008-03-25 Criminal Justice Theory is the first comprehensive volume on the theoretical foundations of criminal justice The authors argue that theory in criminal justice is currently underdeveloped and inconsistently applied especially in comparison to the role of theory in the study of crime itself In the diverse range of essays included here the authors and contributors integrate examples from the study of criminal justice systems judicial decision making courtroom communities and correctional systems building the argument that students of criminal justice must not evaluate their discipline solely on the basis of the effectiveness of specific measures in reducing the crime rate Rather if they hope to improve the system they must acquire a systematic knowledge of the causes behind the structures policies and practices of criminal justice

Crime Prevention in the Urban Community Koichi Miyazawa, Setsuo Miyazawa, 2023-09-20 One of today's most pressing issues in criminology and crime prevention is the problem of crime in our cities and towns and its prevention The topic of crime prevention in the Urban Community was discussed at the 47th International Course of the International Society for Criminology ISC held at Chuo University Tokyo It was the very first time such an ISC meeting was held in Asia and this meant that finally a relatively large number of Japanese and other Asian participants were able to express their views on criminal policy and crime prevention in urban centres all over the world Crime in urban communities is not an exclusively Western phenomenon but it is also a considerable problem in other parts of the world This makes an interchange of ideas between Western Eastern and Third World criminologists particularly important General characteristics of the urban communities that suffer from a high crime rate are ethnic and racial tensions a mix of old housing areas and new business districts a prevailing sense of anonymity slums and juvenile delinquency The existence of these general characteristics besides mutual differences makes cooperation in the crime prevention sphere definitely worth the effort

Organizational Structure in American Police Agencies Edward R. Maguire, 2012-02-01 Although most large police organizations perform the same tasks there is tremendous variation in how individual organizations are structured To account for this variation author Edward R Maguire develops a new theory that attributes the formal structures of large municipal police agencies to the contexts in which they are embedded This theory finds that the relevant features of an organization s context are its size age technology and environment Using a database representing nearly four hundred of the nation s largest municipal police agencies Maguire develops empirical measures of police organizations and their contexts and then uses these measures in a series of structural equation models designed to test the theory Ultimately police organizations are shown to be like other types of organizations in many ways but are also shown to be unique in a number of respects *The Canadian Criminal Justice System* Nick Larsen, 1995 The administration of justice is an area of social policy that defies attempts to achieve a balance between order and the protection of the public and respect for individual rights The media contain daily accounts of the failure of the criminal justice system to repress crime It is within this social and legal context that this work is situated In addition to including a range of articles in the standard areas of policing courts and corrections recent articles deal with such controversial issues as aboriginal justice the recruitment of visible minorities by Canadian police forces and the role of women in the Canadian criminal justice system The collection concludes with a critical

assessment of the retributive model that currently serves as the philosophical underpinnings of the Canadian criminal justice system *Handbook of Issues in Criminal Justice Reform in the United States* Elizabeth Jeglic, Cynthia Calkins, 2021-12-04 This handbook provides a holistic and comprehensive examination of issues related to criminal justice reform in the United States from a multidisciplinary perspective Divided into five key domains of reform in the criminal justice system it analyzes Policing Policy and sentencing Reentry Treatment Alternatives to incarceration Each section provides a history and overview of the domain within the criminal justice system followed by chapters discussing issues integral to reform The volume emphasizes decreasing incarceration and minimizing racial ethnic and economic inequalities Each section ends with tangible recommendations based on evidence based approaches for reform Of interest to researchers scholars activists and policy makers this unique volume offers a pathway for the future of criminal justice reform in the United States Criminal Justice 2000, 2000 Contesting Crimmigration in Post-hukou China Tian Ma, 2022-08-11 This book focuses on the criminalization trend and process regarding the internal migration in contemporary China from the perspective Law in Action In Chinese society today internal migrants are commonly perceived as criminals Crimmigration a global term that communicated the convergence of the criminal legal system and the immigration enforcement system manifest itself in China s hukou based also known as the household registration system criminal legal system How hukou has been constructed into the concept of Crimmigration in China strikes at the core of the ultimate questions of this book who is being criminalized how does the political economic cultural institution known as hukou shape the criminal justice process and how has the role of hukou changed over time in the ever changing process Drawing on interviews with police prosecutors criminal lawyers judges prison staff and migrant leaders in Yangtze River Delta China this book reflects on a historical development on hukou and its function in social control Each chapter contributes to an extended analysis of pragmatic aspects of decision making moments in the criminal justice system This book will appeal to criminology researchers and students with in interest in law politics migration and citizenship in contemporary China *Harm and Disorder in the Urban Space* Nina Peršak, Anna Di Ronco, 2021-05-15 Bringing together an international group of authors this book addresses the important issues lying at the intersection between urban space on the one hand and incivilities and urban harm on the other Progressive urbanisation not only influences people s living conditions their well being and health but may also generate social conflict and consequently fuel disorder and crime Rooted in interdisciplinary scholarship this book considers a range of urban issues focussing specifically on their sensory emotive power and structural dimensions The visual audio and olfactory components that offend or harm are inspected including how urban social control agencies respond to violations of imposed sensory regimes Emotive dimensions examined include the consideration of people emotions and sensibilities in the perception of incivilities in the shaping of social control to deviant phenomena and their role in activating or suppressing people s resistance towards otherwise harmful everyday practices Power and structural dimensions examine the agents who decide and define what anti
