## **Stylistic Theory And Practice In The Younger Pliny:**

**Stylistic Theory and Practice in the Younger Pliny** Federico Gamberini, 1983      **Tenue est mendacium** Klaus Lennartz, Javier Martínez, 2022-04-07 Many new and fruitful avenues of investigation open up when scholars consider forgery as a creative act rather than a crime We invited authors to contribute work without imposing any restrictions beyond a willingness to consider new approaches to the subject of ancient fakes forgeries and questions of authenticity The result is this volume in which our aim is to display some of the many possibilities available to scholarship The exposure of fraud and the pursuit of truth may still be valid scholarly goals but they implicitly demand that we confront the status of any text as a focal point for matters of belief and conviction Recent approaches to forgery have begun to ask new questions some intended purely for the sake of debate Ought we to consider any author to have some inherent authenticity that precludes the possibility of a forger's successful parody If every fake text has a real context what can be learned about the cultural circumstances which give rise to forgeries If every real text can potentially engender a parallel history of fakes what can this alternative narrative teach us What epistemological prejudices can lead us to swear a fake is genuine or dismiss the real thing as inauthentic Following Splendide Mendax and Animo Decipiendi this is the latest installment of an ongoing inquiry conducted by scholars in numerous countries into how the ancient world its literature and culture its history and art appears when viewed through the lens of fakes and forgeries sincerities and authenticities genuine signatures and pseudepigrapha How does scholarship tell the truth if evidence doesn't But fabula docet The falsum does not simply make the great annoying stone before the door of the truth otherwise this here would really be a council of antiquarians and paleographers The falsum makes a delicate fine tissue It allows the verum to shine through in nuances and reliefs that were less noticeable without its counterpart really tied at the head And treated differentiated it becomes even itself perlucidum shines out with hidden values

Letters and Communities Paola Ceccarelli, Lutz Doering, Thorsten Fögen, Ingo Gildenhard, 2018-08-16 The writing of letters often evokes associations of a single author and a single addressee who share in the exchange of intimate thoughts across distances of space and time This model underwrites such iconic notions as the letter representing an image of the soul of the author or constituting one half of a dialogue However justified this conception of letter writing may be in particular instances it tends to marginalize a range of issues that were central to epistolary communication in the ancient world and have yet to receive sustained and systematic investigation In particular it overlooks the fact that letters frequently presuppose and were designed to reinforce communities or indeed to constitute them in the first place This volume explores the interrelation of letters and communities in the ancient world examining how epistolary communication aided in the construction and cultivation of group identities and communities whether social political religious ethnic or philosophical A theoretically informed Introduction establishes the interface of epistolary discourse and group formation as a vital but hitherto neglected area of research and is followed by thirteen case studies offering multi disciplinary perspectives from four key cultural configurations Greece Rome Judaism and Christianity The first part opens the volume with two chapters on the theory and practice of epistolary communication that focus on ancient epistolary theory and the unavoidable presence of a letter carrier who introduces a communal aspect into any correspondence while the second comprises five chapters that explore configurations of power and epistolary communication in the Greek and Roman worlds from the archaic period to the end of the Hellenistic age Five chapters on letters and communities in Ancient Judaism and Early Christianity follow in the third part before the volume concludes with an envoi examining the trans historical or indeed timeless philosophical community Seneca the Younger construes in his *Letters to Lucilius*

*Clemency & Cruelty in the Roman World* Melissa Barden Dowling, 2006

Explores the formation of clemency as a human and social value in the Roman Empire *Suetonius the Biographer* Tristan Power, Roy K. Gibson, 2014 The biographer Suetonius is one of the most fascinating writers of ancient Rome but he is rarely afforded serious critical attention This volume of new essays focuses on the various aspects of Suetonius work from his lost writing on Roman courtesans to his imperial portraits of the Caesars Beginning with an introduction that assesses the originality of Suetonius as a writer and situates the essays within the context of debates and controversies over his biographical form the collection addresses the issues surrounding his style themes and early influence on literature in three parts The first part discusses formal features of Suetonian biography such as his literary techniques manners of citation and quotation and devices of allusion and closure The middle section is devoted to readings of the individual Lives treating several topics from Suetonius decision to begin his collection with Julius Caesar to fictional elements in his death scene of the emperor Caligula to the theme of solitude in his Life of Domitian The last part examines the ways in which Suetonius transgresses the boundaries of ancient biography by looking at his influence on epistolographers antiquarians commentators and later biographers This volume is essential reading for anyone who wants to know why Suetonius Lives are such a unique and powerful medium for the stories of ancient Rome and how they became the primary model for later biography **The Loaded Table : Representations of Food in Roman Literature** Emily Gowers, 1993-01-21 This book offers a novel and unconventional approach to Roman culture through food or rather food as it is represented in literature Food is not generally thought of as the noblest of literary subjects and this view is a legacy from the Romans so it is curious that Roman writers chose so persistently to depict their society at the dinner table Why this was so and what effect the inclusion of food had on the status of the literary texts that described it are among the questions discussed here The book also addresses problems that arise when a material subject is translated into words and contains fresh interpretations of Latin texts that have been unjustly undervalued comedy satire epigrams letters and iambics While often regarded as something trivial and gross food was in fact one of the most suggestive images for Roman civilization *Reading Sidonius' Epistles* M. P. Hanaghan, 2019-02-14 Sidonius Apollinaris letters offer a vivid series of glimpses into an otherwise sparsely documented period His rich anecdotes feature the events characters and moments that defined his life ranging from the treason trial of Arvandus to the Visigothic raiding of Clermont from the corrupt and vile Seronatus to the holy widow Eutropia and the day to day incidents that confronted a Gallo Roman poet aristocrat and bishop as the Late Roman West transitioned into the barbarian successor kingdoms Like any good storyteller Sidonius exploited a wide array of narratological tools manipulating temporality for dramatic effect sketching his heroes and villains in vivid detail and recreating witty dialogue in a collection that is highly organised and carefully strategised This book provides a fuller understanding of his contribution to Latin literature as a careful arranger of his self image a perceptive exploiter of narrative dynamics and an influential figure in Late Antique Gaul *Politeness and Politics in Cicero's Letters* Jon Hall, 2009-05-06 Politeness and Politics in Cicero's Letters

examines the political and personal negotiations that Cicero undertakes in the letters exchanged with other powerful men of the Late Roman Republic such as Caesar Pompey and Mark Antony Drawing upon sociolinguistic theories of politeness the book explores the distinctive conventions of epistolary courtesy that shaped formal interaction among men of the Roman elite
