# THE SUBJECT OF MODERNITY

ANTHONY 2. CASCARDI

# **Subject Of Modernity**

Artur Mrowczynski-Van Allen, Teresa Obolevitch, Pawel Rojek

#### **Subject Of Modernity:**

The Subject of Modernity Anthony J. Cascardi, 1992-03-19 The question of modernity has provoked a vigorous debate in the work of thinkers from Hegel to Habermas Anthony J Cascardi offers an historical account of the origins and transformations of the rational subject of self as it is represented in Descartes Cervantes Pascal Hobbes and the Don Juan Subjects of modernity Saurabh Dube, 2017-01-20 This electronic version has been made available under a Creative Commons BY NC ND open access license This book thinks through modernity and its representations by exploring critical considerations of time and space Drawing on anthropology history and social theory it investigates the oppositions and enchantments the contradictions and contentions and the identities and ambivalences spawned under modernity Crucially it understands these antinomies not as errors but as constitutive elements of modern worlds. The book questions routine portrayals of homogeneous time and antinomian blueprints of cultural space while acknowledging the production of time and space by social subjects Instead of assuming a straightforward singular trajectory for the phenomena it views modernity as involving checkered contingent and contended processes of meaning and power which have found heterogeneous historical elaborations over the past five centuries Bringing together past and present theory and narrative it sows the historical ethnographic and methodological deep into its critical procedures offering an innovative understanding of cultural identities and imaginatively exploring the relationship between history and anthropology **Enchantments of Modernity** Saurabh Dube, 2020-08-11 The notion of modernity hinges on a break with the past such as superstitions medieval worlds and hierarchical traditions It follows that modernity suggests the disenchantment of the world yet the processes of modernity also create their own enchantments in the mapping and making of the modern world Straddling a range of disciplines and perspectives the essays in this edited volume eschew programmatic solutions focusing instead in new ways on subjects of slavery and memory global transformations and vernacular and vernacular modernity imperial imperatives and nationalist knowledge cosmopolitan politics and liberal democracy and governmental effects and everyday affects It is in these ways that the volume attempts to unravel the enchantments of modernity in order to approach anew modernity's constitutive terms formative limits and particular possibilities Forms of Modernity Rachel Lynn Schmidt, 2011-01-01 It's a critical clich that Cervantes Don Quixote is the first modern novel but this distinction raises two fundamental questions First how does one define a novel And second what is the relationship between this genre and understandings of modernity In Forms of Modernity Rachel Schmidt examines how seminal theorists and philosophers have wrestled with the status of Cervantes masterpiece as an exemplary novel in turn contributing to the emergence of key concepts within genre theory Schmidt's discussion covers the views of well known thinkers such as Friedrich Schlegel Jos Ortega y Gasset and Mikhail Bakhtin but also the pivotal contributions of philosophers such as Hermann Cohen and Miguel de Unamuno These theorists examinations of Cervantes's fictional knight errant character point to an ever shifting boundary between the real and the virtual Drawing

from both intellectual and literary history Forms of Modernity richly explores the development of the categories and theories that we use today to analyze and understand novels Bevond Modernity Artur Mrowczynski-Van Allen, Teresa Obolevitch, Pawel Rojek, 2016-10-11 Post secularism is the fundamental evidence of the end of modernity Modernity as sleeping reason in Francisco Goya's painting realizes that although it thought that it was awake it was producing monsters We try to analyze post secular philosophy from the point of view of Russian religious thought We believe that such philosophers as Vladimir Soloviev Pavel Florensky Sergey Bulgakov Nikolai Berdyaev Georges Florovsky and Semen Frank may be helpful for understanding and overcoming post secular order Their unique views on the relations between religion and philosophy science and social life are apparently missing in the current Western debates It seems to us that Russian religious philosophy becomes surprisingly up to date and attractive in the contemporary world We hope that the present volume will be a significant step forward in the inclusion of the heritage of Russian religious philosophy in contemporary Gender and Modernity in Spanish Literature Elizabeth Smith Rousselle, 2014-10-02 Using each chapter to juxtapose works by one female and one male Spanish writer Gender and Modernity in Spanish Literature 1789 1920 explores the concept of Spanish modernity Issues explored include the changing roles of women the male hysteric and the mother and Late Modern Subjectivity and its Discontents Kieran Keohane, Anders Petersen, Bert van den Bergh, 2017-03-16 This book analyses three of the most prevalent illnesses of late modernity anxiety depression and Alzheimer's disease in terms of their relation to cultural pathologies of the social body Usually these conditions are interpreted clinically in terms of individualized symptoms and responded to discretely as though for the most part unrelated to each other However these diseases also have a social and cultural profile that transcends their particular symptomologies and etiologies Anxiety depression and Alzheimer's are diseases related to disorders of the collective esprit de corps of contemporary society Multidisciplinary in approach the book addresses questions of how these conditions are manifest at both the individual and collective levels in relation to hegemonic biomedical and psychologistic understandings Rejecting such reductive diagnoses the authors argue that anxiety depression and Alzheimer's disease as well as other contemporary epidemics are to be analysed in the light of individual and collective experiences of profound and radical changes in our civilization A diagnosis of our times Late Modern Subjectivity and its Discontents will appeal to a broad range of scholars with interests in health and illness the sociology of medicine and contemporary life Kristeva and the Political Cecilia Sjöholm, 2005 Julia Kristeva is one of the most influential French thinkers of the twentieth century and is best known for her work in linguistics Even though her work has been very influential the political implications of her writings have so far been neglected Kristeva and the Political is the first book to explore the relation of Kristeva s work to the political and casts new light on her work connecting her to recent developments in literary theory political theory and cultural studies In particular it shows how Kristeva's account of the unconscious and psychoanalysis generally widens the notion of the political Each

chapter introduces a fundamental theme in Kristeva's work highlighting a specific period of development in her thought and drawing on texts from the 1960s through to the 1990s Themes addressed include Kristeva's theory of discourse the theory of the subject the notion of alterity feminism and marginality and her theory known as the politics of meaning Kristeva and the Political also shows how Kristeva's notions of the political draw on a rich array of thinkers and writers from Freud Melanie Visions of Japanese Modernity Aaron Gerow, 2010-05-14 Japan has Klein and Lacan to Proust and Marguerite Duras done marvelous things with cinema giving the world the likes of Kurosawa Mizoguchi and Ozu But cinema did not arrive in Japan fully formed at the end of the nineteenth century nor was it simply adopted into an ages old culture Aaron Gerow explores the processes by which film was defined transformed and adapted during its first three decades in Japan He focuses in particular on how one trend in criticism the Pure Film Movement changed not only the way films were made but also how they were conceived Looking closely at the work of critics theorists intellectuals benshi artists educators police and censors Gerow finds that this trend established a way of thinking about cinema that would reign in Japan for much of the twentieth Philosophical Papers Calvin O. Schrag, 1994-03-08 Philosophical Papers is useful for readers interested in the story of twentieth century continental philosophy The book leads the reader throughout the shifts and turns in the often serpentine development of the philosophical perspectives within continental thought that have now become the legacy of our time The author carries on a conversation which at times congeals into a confrontation with the principal proponents of the various philosophical persuasions They include Husserl Heidegger Sartre Merleau Ponty Levi Strauss Foucault Ricoeur Gadamer Habermas Derrida Deleuze and Lyotard Insofar as three nineteenth century philosophers in particular Marx Kierkegaard and Nietzsche figured so decisively in the shaping of twentieth century continental thought they too become part of the wider story being told The concluding essays in the volume display the most recent efforts of the author to come to grips with the consequences of rationality between the universal claims of reason in modernity and the particular heterogeneous and local narratives of power and desire in postmodernity The location of rationality betwixt and between the modern and the postmodern provides a space for a dynamics of transversal rationality oriented toward a convergence without coincidence both in the life of thought and the life of action Legal Barbarians Daniel Bonilla Maldonado, 2021-09-09 In this novel and unorthodox historical analysis of modern comparative law Daniel Bonilla Maldonado explores the connections between modern comparative law and the identity of the modern legal subject Narratives created by modern comparative law shed light on the role played by law in the construction of modern individual and collective identities This study first examines the relationship between identity law and narrative Second it explores the moments of emergence and transformation of this area of law instrumental comparative studies comparative legislative studies and comparative law as an autonomous discipline Finally it analyzes the theoretical perspectives that question the narrative created by modern comparative law Third World Approaches to International Law postcolonial studies of law and critical

comparative law For lawyers and legal scholars this study brings a nuanced understanding of the connections between the theory of modern comparative law and contemporary practical legal and political issues The Art of Shrinking Heads Dany-Robert Dufour, 2008 After the hell of the Nazis and the terror of Communism it is possible that a new catastrophe has appeared on the horizon this time it is neoliberalism that wants to create its own new man For two centuries Kant's critical subject and Freud's neurotic subject provided us with philosophical templates for modernity but today modern capitalism is systematically destroying these two subjects and replacing them with something new The two subjects of modernity both presupposed some reference to a higher value or power like Reason which provided a symbolic guarantor but neoliberalism by emphasizing the exchange of commodities in the marketplace destroys all transcendental references of this kind Now human beings no longer look beyond themselves and no longer have to agree about symbolic values they only have to get on with the circulation and consumption of goods Deprived of his faculty of judgement and urged to enjoy himself without restraint the new man of neoliberalism takes centre stage in the era of global capitalism. In this biting critique of our contemporary condition Dufour shows that the radical transformation of the subject brought about by neoliberalism what he calls the art of shrinking heads contains a new kind of violence which has far reaching consequences for our ways of living Michel Foucault: A Research Companion Sverre Raffnsøe, Morten S Thaning, Marius together Gudmand-Hoyer, 2016-08-31 Michel Foucault continues to be hugely influential His diagnoses challenge us to rethink crucial phenomena such as madness discipline the human sciences the state neoliberalism sexuality and subject formation Based on his work in its entirety and with special emphasis on his many recently published lecture series this book provides an updated comprehensive and original account of his thought By reading Foucault as a philosopher it offers an extensive systematic assessment and discussion of his unique conception of philosophical practice and brings a unifying trajectory in his work to light Relational Sociology Pierpaolo Donati, 2010-07-12 Much of our concept of society has been defined by sociology s dual focuses individuals and groups In this eagerly awaited book Donati shifts focus to the relationships between people and explains this new relational sociology in detail **Intermittency** Andrew Gibson, 2011-12-15 Explores the concept of historical intermittency in 5 recent French philosophers Andrew Gibson engages with five recent and contemporary French philosophers Badiou Jambet Lardreau Francoise Proust and Ranciere who each produce a post Hegelian philosophy of history founded on an assertion of the intermittency of historical value Gibson explores this anti schematics of historical reason and its implication for politics ethics and aesthetics in a wide range of modern intellectual contexts finding its necessary complement and most powerful expression in a wealth of modern art chiefly modern literature The result is a sustained reflection on the possible character of a contemporary philosophy of history and an important contribution to our knowledge of contemporary French philosophy Subjectivity and Identity Peter V. Zima, 2015 Subjectivity and Identity is a philosophical and interdisciplinary study that critically evaluates critically the most important

philosophical sociological psychological and literary debates on subjectivity and the subject Starting from a history of the concept of the subject from modernity to postmodernity from Descartes and Kant to Adorno and Lyotard Peter V Zima distinguishes between individual collective mythical and other subjects Most texts on subjectivity and the subject present the topic from the point of view of a single discipline philosophy sociology psychology or the Embracing Alienation Todd Mcgowan, 2024-04-09 The left views alienation as something to be resisted or overcome but could it actually form the basis of our emancipation In Embracing Alienation Todd McGowan offers a completely different take on alienation claiming that the effort to overcome it is not a radical response to the current state of things but a failure to see the constitutive power of alienation for all of us Instead of trying to overcome alienation and accede to an unalienated existence it argues we should instead redeem alienation as an existential and political program Engaging with Shakespeare's great tragedies contemporary films such as Don t Worry Darling and even what occurs on a public bus as well as thinkers such as Descartes Hegel and Marx McGowan provides a concrete elaboration of how alienation frees people from their situation Relying on the tradition of dialectical thought and psychoanalytic theory Embracing Alienation reveals a new way of conceiving how we measure From Cosmopolitanism to Human Rights Olivier de progress or even if progress should be the aim at all Frouville, 2022-01-13 This book explores a democratic theory of international law Characterised by a back and forth between theory and practice it explores the question from two perspectives a theoretical level which reflects and criticizes the categories words and concepts through which international law is understood and a more applied level focussing on cosmopolitan building sites or the practical features of the law such as the role of civil society in international organisations or reform of the UN Security Council Though written for an academic audience it will have a more general appeal and be of interest to all those concerned with how international governance is developing **Latin American Philosophy** Eduardo Mendieta, 2003-02-06 The essays in this book make it elegantly clear that there is a vigorous and rigorous Latin American philosophy and that others dismiss it at their peril Mario S enz The ten essays in this lively anthology move beyond a purely historical consideration of Latin American philosophy to cover recent developments in political and social philosophy as well as innovations in the reception of key philosophical figures from the European Continental tradition Topics such as indigenous philosophy multiculturalism the philosophy of race democracy postmodernity the role of women and the position of Latin America and Latin Americans in a global age are explored by notable philosophers from the region An introduction by Eduardo Mendieta examines recent trends and points to the social political economic and cultural conditions that have inspired the discipline Latin American Philosophy brings English speaking readers up to date with recent scholarship and points to promising new directions Queering Digital India Rohit K. Dasgupta, 2017-11-22 Combines development theory with practice through a case study of the West African community of Tostan
