Subjectivities Regenia Gagnier, 1991 The thesis of this text is that whereas bourgeois subjectivity resembles the central and developing self of such novels as *David Copperfield* working class subjectivity consists of an attention to working environment and community that diminishes concern with self

Performing the Victorian Sharon Aronofsky Weltman, 2007 *Performing the Victorian* John Ruskin and Identity in Theater Science and Education by Sharon Aronofsky Weltman is the first book to examine Ruskin's writing on theater In works as celebrated as *Modern Painters* and obscure as *Love's Meinie* Ruskin uses his voracious attendance at the theater to illustrate points about social justice aesthetic practice and epistemology Opera Shakespeare pantomime French comedies juggling acts and dance prompt his fascination with performed identities that cross boundaries of gender race nation and species These theatrical examples also reveal the primacy of performance to his understanding of science and education In addition to Ruskin on theater *Performing the Victorian* interprets recent theater portraying Ruskin *The Invention of Love* *The Countess* the opera *Modern Painters* as merely a Victorian prude or pedophile against which contemporary culture defines itself These theatrical depictions may be compared to concurrent plays about Ruskin's friend and student Oscar Wilde *Gross Indecency* *The Three Trials of Oscar Wilde* *The Judas Kiss* Like Ruskin Wilde is misrepresented on the fin de millennial stage in his case anachronistically as an icon of homosexual identity These recent characterizations offer a set of static identity labels that constrain contemporary audiences more rigidly than the mercurial selves conjured in the prose of either Ruskin or Wilde

Literature and Medicine in Nineteenth-Century Britain Janis McLarren Caldwell, 2004-11-18 Although we have come to regard clinical and romantic as oppositional terms romantic literature and clinical medicine were fed by the same cultural configurations In the pre-Darwinian nineteenth century writers and doctors developed an interpretive method that negotiated between literary and scientific knowledge of the natural world Literary writers produced potent myths that juxtaposed the natural and the supernatural often disturbing the conventional dualist hierarchy of spirit over flesh Clinicians developed the two part history and physical examination weighing the patient's narrative against the evidence of the body Examining fiction by Mary Shelley Carlyle the Brontës and George Eliot alongside biomedical lectures textbooks and articles Janis McLarren Caldwell demonstrates the similar ways of reading employed by nineteenth century doctors and imaginative writers and reveals the complexities and creative exchanges of the relationship between literature and medicine

God and Progress Joshua Bennett, 2019-03-07 Exploring the rich relationship between historical thought and religious debate in Victorian culture God and Progress offers a unique and authoritative account of intellectual change in nineteenth century Britain The volume recovers a twofold process in which the growth of progressive ideas of history transformed British Protestant traditions as religious debate in turn profoundly shaped Victorian ideas of history It adopts a remarkably wide contextual perspective embracing believers and unbelievers Anglicans and nonconformists and writers from different parts of the British Isles fully situating British debates in relation to their European and especially German Idealist surroundings The Victorian intellectual mainstream came to terms with religious diversity changing ethical sensibilities and new kinds of knowledge by encouraging providential spiritualized and developmental understandings of human time A secular counter culture simultaneously disturbed this complex consensus grounding progress in appeals to scientific advances and the retreat of metaphysics God and Progress thus explores the ways in which divisions within British liberalism were fundamentally related to differences over the past present and future of religion It also demonstrates that religious debate powered the process by which historicism acquired cultural authority in Victorian national life and later began to lose it The study reconstructs the ways in which theological dynamics often relegated to the margins of nineteenth century British intellectual history effectively forged its leading patterns

widely read author of the late twentieth century Catherine Cookson published more than 100 books including *The Fifteen Streets* *The Black Velvet Gown* and *Katie Mulholland Set in England's industrial northeast* her novels depict the social economic and emotional hardships of that area In the first essay collection devoted to Cookson the contributors examine what Cookson's memoirs and historical fiction mean to readers including how her fans contribute to her position in the cultural imaginary constructions of gender class and English and Irish identity in her work the importance of place in her novels Cookson's place in the heritage industry and television adaptations of Cookson's works Cookson's work tackled topics that were still taboo in the early post World War II era such as domestic abuse rape and incest This collection places Cookson in historical context and shows how skillful she was at pushing generic boundaries *Anti-Sport Sentiments in Literature* John Bale, 2007-11-05 This book draws on literature specifically on the writings of selected novelists and poets to widen an existing anti sport discourse to include hitherto excluded voices from the world of literature The book commences with a review of exiting pro and anti sport discourses and then proceeds to examine in turn the written works of five eminent authors excavating from their writings their anti sports rhetorics These writers are Lewis Carroll Charles Dodgson Charles Hamilton Sorley Jerome K Jerome John Betjeman and Alan Sillitoe In its conclusion the book draws together the broad themes discussed in the preceding chapters Innovative in its approach to sport and literature and remarkable for its not having been previously explored in any depth this book will be of interest to readers from both social sciences and humanities backgrounds *The Creativity Hoax* George Morgan, Pariece Nelligan, 2018-01-22 Politicians educators and business leaders often tell young people they will need to develop their creative skills to be ready for the new economy Vast numbers of school leavers enrol in courses in media communications creative and performing arts yet few will ever achieve the creative careers they aspire to The big cities are filled with performers designers producers and writers who cannot make a living from their art craft They are told their creative skills are transferable but there is little available work outside retail service and hospitality jobs Actors can use their skills selling phone plans insurance or advertising space from call centres but usually do so reluctantly Most people in the creative industries work as low paid employees or freelancers or as unpaid interns They put up with exploitation so that they can do what they love The Creativity Hoax argues that in this individualistic and competitive environment creative aspirants from poor and minority backgrounds are most vulnerable and precarious Although governments in the West stress the importance of culture and knowledge in economic renewal few invest in the support and infrastructure that would allow creative aspirants to make best use of their skills **Life Writing and Victorian Culture** David Amigoni, 2017-09-29 In this collection of interdisciplinary essays experts from Britain and the United States in the fields of nineteenth century literature and social and cultural history explore new directions in the field of Victorian life writing Chapters examine a varied yet interrelated range of genres from the biography and autobiography to the relatively neglected diary collective biography and obituary Reflecting the rich research being conducted in this area the

contributors link life writing to the formation of gendered and class based identities the politics of the Victorian family and the broader professional political colonial and literary structures in which social and kinship relations were implicated A wide variety of Victorian works are considered from the diary of the Radical Samuel Bamford to the diary of the homosexual George Ives from autobiographies of professional men to collective biographies of eminent women Embracing figures as diverse as Gandhi Wilde and Bradlaugh the collection explores the way in which narratives contested one another in a society that devoted an abundance of cultural energy to writing about and reading of lives      *Youth of Darkest England* Troy Boone,2005-08-29 This book examines the representation of English working class children the youthful inhabitants of the poor urban neighborhoods that a number of writers dubbed darkest England in Victorian and Edwardian imperialist literature In particular Boone focuses on how the writings for and about youth undertook an ideological project to enlist working class children into the British imperial enterprise demonstrating convincingly that the British working class youth resisted a nationalist identification process that tended to eradicate or obfuscate class differences      **The Revolutionary 'I'** A. Nichols,1998-07-07 In the winter of 1798 99 shut up in the freezing German town of Goslar William Wordsworth began producing a series of lyrical fragments that appeared first in letters written to Coleridge and emerged eventually as source texts for *The Prelude* These lyrics are revolutionary because they construct a new version of the autobiographical I *The Revolutionary I* explores the numerous voices of the poetic speaker Wordsworth and their relationship to the historical figure who shared the same name      *Poverty and Sickness in Modern Europe* Andreas Gestrinch,Elizabeth Hurren,Steven King,2012-06-28 This book provides a genuinely pan European analysis of pauper narratives focusing on the experiences of the sick poor in England France Germany Ireland Luxembourg Scotland Spain Sweden Switzerland and Wales The contributions highlight the value of pauper narratives for exploring the agency rhetoric and experiences of the poor and sick poor significantly enhancing our understanding of the ways in which national and regional welfare systems operated By foregrounding the particular experiences and strategies of the sick poor this volume helps to establish and understand the central sentiments of the relief system and the core experiences of those under its care What emerges is a demonstration that how a relief system treated its sick poor and how those sick poor were able to navigate the system tells us more about welfare history than analysis of any other group      *Creativity and Conflict.
