Sublime Object Of Ideology:

The Sublime Object of Ideology Slavoj Žižek, 2009-01-05 Slavoj Žižek the maverick philosopher author of over 30 books acclaimed as the Elvis of cultural theory and today's most controversial public intellectual His work traverses the fields of philosophy psychoanalysis theology history and political theory taking in film popular culture literature and jokes all to provide acute analyses of the complexities of contemporary ideology as well as a serious and sophisticated philosophy His recent films *The Pervert's Guide to the Cinema* and *Interrogation* reveal a theorist at the peak of his powers and a skilled communicator Now Verso is making his classic titles each of which stand as a core of his ever expanding life's work available as new editions Each is beautifully re packaged including new introductions from Žižek himself Simply put they are the essential texts for understanding Žižek's thought and thus cornerstones of contemporary philosophy *The Sublime Object of Ideology* Slavoj Žižek's first book is a provocative and original work looking at the question of human agency in a postmodern world In a thrilling tour de force that made his name he explores the ideological fantasies of wholeness and exclusion which make up human society

The Sublime Object of Ideology Slavoj Žižek, 1989 In this provocative and original work Slavoj Žižek takes a look at the question of human agency in a postmodern world From the sinking of the Titanic to Hitchcock's *Rear Window* from the operas of Wagner to science fiction from *Alien* to the Jewish Joke the author's acute analyses explore the ideological fantasies of wholeness and exclusion which make up human society Žižek takes issue with analysts of the postmodern condition from Habermas to Sloterdijk showing that the idea of a post ideological world ignores the fact that even if we do not take things seriously we are still doing them Rejecting postmodernism's unified world of surfaces he traces a line of thought from Hegel to Althusser and Lacan in which the human subject is split divided by a deep antagonism which determines social reality and through which ideology operates Linking key psychoanalytical and philosophical concepts to social phenomena such as totalitarianism and racism the book explores the political significance of these fantasies of control In so doing *The Sublime Object of Ideology* represents a powerful contribution to a psychoanalytical theory of ideology as well as offering persuasive interpretations of a number of contemporary cultural formations

Žižek's The Sublime Object of Ideology Rafael Winkler, 2024-05-30 First published in 1989 *The Sublime Object of Ideology* was Žižek's breakthrough work and is still regarded by many as his masterpiece It was an iconoclastic reinvention of ideology critique that introduced the English speaking world to Žižek's scorching brand of cultural and philosophical commentary and the multifaceted ways in which he explained it Tying together concepts from aesthetics psychoanalytic theory cultural studies and the philosophy of belief it changed the face of contemporary commentary and remains the underpinning of much of his subsequent thinking This compelling guide introduces all of the influential thinkers and foundational concepts which Žižek draws on to create this seminal work Grounding the text's many and varied references in the work of Peter Sloterdijk Saul Kripke Walter Benjamin Jacques Lacan

Jacques Derrida Immanuel Kant and G W F Hegel amongst others helps students who are encountering this mercurial writer for the first time to understand the philosophical context of his early explorations Each of i ek s key arguments are unpacked and laid out alongside an invaluable account of how The Sublime Object of Ideology impacted the critical terrain on which it landed *Lacan* Slavoj Žižek, 2006-04-17 The giant of Ljubljana marshals some of the greatest thinkers of our age in support of a dazzling re evaluation of Jacques Lacan The Plague of Fantasies Slavoj Žižek, 1997 Slavoj Žižek is without doubt one of the most stimulating and vibrant thinkers of our time and his idiosyncratic blend of Lacan and Hegel is always sparkling with insight and studded with amusing stories anecdotes and jokes In The Plague of Fantasies Žižek approaches another enormous subject with characteristic brio and provocativeness The current epoch is plagued by fantasies there is an ever intensifying antagonism between the process of ever greater abstraction of our lives whether in the form of digitalization or market relations and the deluge of pseudo concrete images which surround us Traditional critical thought would have sought to trace the roots of abstract notions in concrete social reality but today the correct procedure is the inverse from pseudo concrete imagery to the abstract process which structures our lives Ranging in his examples from national differences in toilet design to cybersex and from intellectuals responses to the Bosnian war to Robert Schumann s music Žižek explores the relations between fantasy and ideology the way in which fantasy animates enjoyment while protecting against its excesses the associations of the notion of fetishism with fantasized seduction and the ways in which digitalization and cyberspace affect the status of subjectivity To the already initiated The Plague of Fantasies will be a welcome reminder of why they enjoy Žižek s writing so much For new readers it will be the beginning of a long and meaningful relationship For They Know Not what They Do Slavoj Žižek, 2002 With the disintegration of state socialism we are witnessing this eruption of enjoyment in the re emergence of aggressive nationalism and racism With the lid of repression lifted the desires that have emerged are from from democratic To explain this apparent paradox says Slavoj Žižek socialist critical thought must turn to psychoanalysis For They Know Not What They Do seeks to understand the status of enjoyment within ideological discourse from Hegel through Lacan to these political and ideological deadlocks The author s own enjoyment of popular culture makes this an engaging and lucid exposition in which Hegel joins hands with Rossellini Marx with Hitchcock Lacan with Frankenstein high theory with Hollywood melodrama **The Subject of Liberation** Charles Wells, 2014-07-31 Demonstrates how Žižek used Lacanian psychoanalysis theory to support a radical leftist political project *Everything You Always Wanted to Know about Literature but Were Afraid to Ask Žižek* Russell Sbriglia, 2017-02-27 Challenging the widely held assumption that Slavoj i ek s work is far more germane to film and cultural studies than to literary studies this volume demonstrates the importance of i ek to literary criticism and theory The contributors show how i ek s practice of reading theory and literature through one another allows him to critique complicate and advance the understanding of Lacanian psychoanalysis and German Idealism thereby urging a rethinking of historicity and universality His methodology has

implications for analyzing literature across historical periods nationalities and genres and can enrich theoretical frameworks ranging from aesthetics semiotics and psychoanalysis to feminism historicism postcolonialism and ecocriticism The contributors also offer i ekian interpretations of a wide variety of texts including Geoffrey Chaucer s Troilus and Criseyde Shakespeare s The Merchant of Venice Samuel Beckett s Not I and William Burroughs s Nova Trilogy The collection includes an essay by i ek on subjectivity in Shakespeare and Beckett Everything You Always Wanted to Know about Literature but Were Afraid to Ask i ek affirms i ek s value to literary studies while offering a rigorous model of i ekian criticism Contributors Shawn Alfrey Daniel Beaumont Geoff Boucher Andrew Hageman Jamil Khader Anna Kornbluh Todd McGowan Paul Megna Russell Sbriglia Louis Paul Willis Slavoj i ek

Discourse Theory and Political Analysis David R. Howarth,Aletta J. Norval,Yannis Stavrakakis,2000-11-18 How can recent developments in post structuralist post Marxist and psychoanalytical theory actually inform ongoing empirical research What are the appropriate methods and research strategies for conducting research in discourse theory and analysis How can concepts such as hegemony identity the imaginary dislocation and empty signifiers illuminate key aspects of contemporary society and politics This pathbreaking and multi focal book contains a clear introductory statement of the theoretical approach used and concludes with an assessment of the future directions of discourse theory in the social sciences

The Political Unconscious of Architecture Nadir Lahiji,2011 Thirty years have passed since eminent cultural and literary critic Fredric Jameson wrote his classic work The Political Unconscious Narrative as a Socially Symbolic Act in which he insisted that there is nothing that is not social and historical indeed that everything is in the last analysis political Bringing together a team of leading scholars this book critically examines the important contribution made by this eminent cultural and literary critic and breaks new ground in architectural criticism offering insights into the interrelationships between politics culture space and architecture Fredric Jameson himself provides an afterword

The Rhetorical Surface of Democracy Scott Welsh,2012-10-18 Citizens political theorists and politicians alike insist that political or partisan motives get in the way of real democracy Real democracy we are convinced is embodied by an ability to form collective judgments in the interest of the whole The Rhetorical Surface of Democracy How Deliberative Ideals Undermine Democratic Politics by Scott Welsh argues instead that it is our easy rejection of political motives individual interests and the rhetorical pursuit of power that poses the greatest danger to democracy Our rejection of politics understood as a rhetorical contest for power is dangerous because democracy ultimately rests upon the perceived public legitimacy of public political challenges to authority and the subsequent reconstitution of authority amid the impossibility of collective judgment Hence rather than searching for allegedly more authentic democracy rooted in the pursuit of ever illusive collective judgments we must find ways to come to terms with the persistence of rhetorical political contests for power as the essence of democracy itself Welsh argues that the impossibility of any kind of public judgment is the fact that democracy must face Given the impossibility of public judgment rhetorical competitions for political power are not merely poor

substitutes for an allegedly more authentic democratic practice but constitute the essence of democracy itself The Rhetorical Surface of Democracy is an iconoclastic investigation of the democratic process and public discourse **Zizek: A Guide for the Perplexed** Sean Sheehan,2012-03-22 An up to date guide to the key ideas and writings of one of the most widely read Cultural Theorists working today **Architecture or Revolution** Nadir Lahiji,2020-09-22 By linking building theory to the emancipatory project of critique advanced by radical thinkers in our time this work investigates the key conceptual and historical elements that culminate in an emancipatory theory of building entitled Toward a philosophy of shelter Taking Marx as its only resource this work proceeds with the conviction that our era is contemporaneous to Marx s historical era This means not judging the validity of Marx from the perspective of the historical situation but rather demonstrating the validity of a Marxian perspective for a singular historical situation as ours This work will therefore translate this perspective into seeing the situation of architecture through the eyes of Marx All those concerned with the predicament in our current condition in which architecture must play a major social role in upholding the universal value of what Alain Badiou calls generic humanity will take an interest in this work In particular architects critics scholars and students inside the field of architecture who would be seeking the application of this universal value to a new theory of building will be a welcoming audience for this work **Analyzing Adventure Time** Paul A. Thomas,2023-07-20 In 2010 Cartoon Network debuted a new animated series called Adventure Time and within just a few short years the show became both a pop culture phenomenon and a critical darling But despite all the admiration not many works of scholarship have assessed the show through a critical lens This anthology is an attempt to fill this scholarly oversight and spark a wider conversation about the show s deeper themes Across 15 scholarly essays this book s contributors study Adventure Time from a variety of angles proving just how insightful the series really is From a consideration of BMO s queer identity to a psychoanalytic reading of Lemongrab and an examination of how anime has impacted the show the topics explored in this anthology are diverse and unique and are likely to appeal to scholars and fans alike **The Reception of Paul the Apostle in the Works of Slavoj Žižek** Ole Jakob Løland,2018-06-20 This is the first book devoted entirely to exploring i ek s peculiar kind of Paulinism It seeks to provide a full map of the Marxist philosopher s interpretations of Paul and critically engage with it As one of several radical leftists of European critical thought i ek embraces the legacy of an ancient apostle in fascinating ways This work considers i ek s philosophical and political readings of Paul through the lens of reception history and argues that through this recent philosophical turn to Paul notions of the historical and philosophical are reproduced and negotiated anew **Adventures of the Symbolic** Warren Breckman,2013-06-18 Warren Breckman critically revisits thrilling experiments in the aftermath of Marxism **Violence in Medieval Society** Richard W. Kaeuper,2000 Studies of ways in which the rapidly evolving society of medieval Europe developed social legal and practical responses to public and private violence **How Slavoj Became Zizek** Eliran Bar-El,2025-05-06 An engrossing account of the meteoric rise of contemporary philosophy s most contentious

and prolific intellectual This revised edition corrects several erroneous and insufficient references in the first edition of this book Slovenian philosopher bad boy Slavoj Žižek is one of the most famous intellectuals of our time publishing at a breakneck speed and lecturing around the world With his unmistakable speaking style and set of mannerisms that have made him ripe material for internet humor and meme culture he is recognizable to a wide spectrum of fans and detractors But how did an intellectual from a small Eastern European country come to such popular notoriety In *How Slavoj Became Žižek* sociologist Eliran Bar El plumbs the emergence popularization and development of the phenomenon called Žižek Beginning with Žižek's early years as a thinker and political figure in Slovenian civil society Bar El traces Žižek's rise from Marxist philosopher to political candidate to eventual intellectual celebrity as Žižek perfected his unique performative style and a rhetorical arsenal of Hegelacaneses Following 9/11 Žižek's career as a global op ed writer and TV commentator married his rhetoric with global events such as the war on terror the financial crisis of 2008 and the Arab Spring of 2011 Yet at the same time this mainstream popularity as well as a series of politically incorrect views almost entirely estranged the Slovenian from the normal workings of academia Ultimately this account shows how Žižek has harnessed the power of the digital era in his own self fashioning as a public intellectual

Sloterdijk Now Stuart Elden, 2013-08-26 Peter Sloterdijk is one of the most challenging and contentious thinkers currently working within the European tradition This is the first collection devoted to his work for English language audiences and will act as an introduction to his work set an agenda for engagement with his ideas and relate his writings to a range of political theoretical and practical contexts Since his philosophical bestseller *Critique of Cynical Reason* 1983 Sloterdijk has exercised an important influence over German and other European thought and recently interest in his diverse oeuvre has grown considerably The past few years have seen a number of his books translated into English with many more to come The book seeks to do justice to the breadth of Sloterdijk's work throughout his career orientated around the central topics of cynicism resentment the posthuman space and world art and literature language social science and his role as a public intellectual Contributors include Babette Babich Sjoerd van Tuinen Eduardo Mendieta Marie Eve Morin Efrain Kristol Wieland Hoban Nigel Thrift Jean Pierre Couture and Sloterdijk himself An explicitly interdisciplinary project *Sloterdijk Now* is a crucial introduction to the work of this central thinker in its complexity variety and notoriety It is set to spark debate amongst students and scholars across the humanities and social sciences
