years have unfolded years that have been shaped and characterized by the War on Terror the Patriot Act the Wars in Afghanistan and Iraq 7 7 Abu Ghraib and Guant namo Bay these texts have been commemorative and heroic have attempted to work through collective and individual traumas and have struggled with trying to represent the terrorist other Many of these earlier domestic heroic and traumatic works have so often been read as limitations in narrative This collection however challenges the language of limitation and provides re readings of earlier work but also traces the emergence of a new paradigm for discussing the artistic responses to 9 11 one that frames these narratives as dialogic self conscious and self reflexive interventions in the responses to the attacks the initial representations of the attacks and the ever shifting social and geopolitical continuities of the 9 11 decade These texts widen the conversation about the lasting impacts of 9 11 and incorporate strands of discussion on American exceptionalism and imperialism torture and otherness whilst still remaining invested in the personal and collective traumas of the attacks The authors included here ask crucial questions about the way 9 11 is being historicized will it for example be read as a moment of rupture or epoch Will it inevitably be attached to the War on Terror or the Wars in Iraq and Afghanistan As they trace the emergent patterns of reflexivity politicization and dissent the contributions here are also implicitly invested in asking how far they extend **The New Europe** Robert
