
The Subordinated Sex

A History of Attitudes Toward Women

Vern L. Bullough, Brenda Shelton, Sarah Slavin

REVISED EDITION

Subordinated Sex Histof Attitudes

Ulrike Wiethaus

Subordinated Sex Histof Attitudes:

The Subordinated Sex Vern L. Bullough, Brenda Shelton, Sarah Slavin, 1988-10-01 The Subordinated Sex traces the enduring powerful legacy of male attitudes toward women their sexuality and their roles as wives and mothers Traditionally the creators and chroniclers of opinion men have until recently written a history that reflects only their own convictions and impressions a history rarely punctuated by a female voice and founded on an almost universal belief in women s inferiority Acclaimed as a pioneering study when first published in 1973 Vern Bullough s work has since established itself as a standard in historical literature on women Updated and revised with Sarah Slavin and Brenda Shelton The Subordinated Sex is a vast survey ranging from prehistoric to contemporary times examining a diversity of cultures and taking into account writings from a great variety of sources From a consideration of Babylonian legal codes to Victorian prescriptive medical pamphlets medieval clerical treatises to Islamic erotic poetry Bullough and his coauthors recount not only how men have portrayed women but also how they have justified their subordination of the opposite sex In recent years women have successfully challenged males self designated role as gatekeepers of written records and have found within the past a more complete view of how women lived what they thought and what they achieved By focusing however not on women s history but on the history of men s attitudes toward their female companions The Subordinated Sex reveals more than any other single work the conditions that sparked the feminist movement and the reasons it must inspire a change in the lives of men as well as women

The Subordinated Sex Vern L. Bullough, 2004 **Amatory Pleasures** Julie Peakman, 2016-10-06 Encompassing the long 18th century Amatory Pleasures examines a broad and enticing variety of topics in the history of sexuality in Georgian times It includes discussion of sexual perversion criminal conversation erotic gardens gentlemen s homosocial societies flagellation pornography writings of courtesans and the world of female friendship revealing the secret or hidden meanings circulating between mainstream and covert activities of the 18th century Julie Peakman draws connections between these pieces and situates them within current debates and examines how Georgian sexual activity was integrated from low life and high places from brothels to palaces Aimed at anyone interested in gender history of sexuality sex literature and 18th century history Amatory Pleasures is an invaluable collection of the work of a key scholar in the field **Sex and the Ancient City** Andreas Serafim, George Kazantzidis, Kyriakos Demetriou, 2022-05-09 This volume aims to revisit further explore and tease out the textual but also non textual sources in an attempt to reconstruct a clearer picture of a particular aspect of sexuality i e sexual practices in Greco Roman antiquity Sexual practices refers to a part of the overarching notion of sexuality specifically the acts of sexual intercourse the erogenous capacities and genital functions of male and female body and any other physical or biological actions that define one s sexual identity or orientation This volume aims to approach not simply the acts of sexual intercourse themselves but also their legal social political religious medical cultural moral and interdisciplinary e g emotional performative perspectives as manifested in a range of both textual and non textual evidence i e architecture iconography

epigraphy etc The insights taken from the contributions to this volume would enable researchers across a range of disciplines e g sex gender studies comparative literature psychology and cognitive neuroscience to use theoretical perspectives methodologies and conceptual tools to frame the sprawling examination of aspects of sexuality in broad terms or sexual practices in particular The Cambridge World History: Volume 7, Production, Destruction and Connection, 1750-Present, Part 2, Shared Transformations? J. R. McNeill, Kenneth Pomeranz, 2015-04-16 Since 1750 the world has become ever more connected with processes of production and destruction no longer limited by land or water based modes of transport and communication Volume 7 of the Cambridge World History series divided into two books offers a variety of angles of vision on the increasingly interconnected history of humankind The second book questions the extent to which the transformations of the modern world have been shared focusing on social developments such as urbanization migration and changes in family and sexuality cultural connections through religion science music and sport ligaments of globalization including rubber drugs and the automobile and moments of particular importance from the Atlantic Revolutions to 1989 Cross Dressing, Sex, and Gender Vern L. Bullough, Bonnie Bullough, 1993 Not only surveys cross dressing and gender impersonation throughout history and in a variety of cultures but examines the medical biological psychological and sociological findings that have been presented in modern scientific literature **Perilous Chastity** Laurinda S. Dixon, 2019-01-24 Bearing such titles as The Doctor's Visit or The Lovesick Maiden certain seventeenth century Dutch paintings are familiar to museum browsers an attractive young woman well dressed but pale and listless reclines in a chair languishes in bed or falls to the floor in a faint Weathered crones or impish boys leer suggestively in the background These paintings traditionally have been viewed as commentary on quack doctors or unmarried pregnant women The first book to examine images of women and illness in the light of medical history Perilous Chastity reveals a surprising new interpretation In an engaging analysis enhanced by abundant illustrations including eight pages of color plates Laurinda S Dixon shows how paintings reflect changing medical theories concerning women While she illuminates a tradition stretching from antiquity to the present she concentrates on art from the thirteenth through the eighteenth centuries and particularly on paintings from seventeenth century Leiden Dixon suggests how the assumptions of a predominantly male medical establishment have influenced prevailing notions of women's social place She traces the evolution of the belief that women's illnesses were caused by hysteria so named in ancient Greece after the notion that the uterus had a tendency to wander in the body All women were considered prone to hysteria strong emotions idleness intellectual activity or unladylike pursuits could cause it but it was most commonly diagnosed among celibates Analyzing paintings of women's sickrooms by Jan Steen Dirck Hals Gabriel Metsu Jacob Ochtervelt Godfried Schalcken Samuel van Hoogstraten and Franz van Mieris Dixon perceives metaphoric identifications of the womb as the source of illness She also documents changing fashions in cures for hysteria and discusses allusions to the debilitating effects of women's passions not only in paintings but also in madrigals by John Dowland and Henry Purcell In conclusion Dixon

argues that her study has strong ramifications of attitudes towards women and illness today She takes up images in twentieth century culture as well and calls attention to a resurgence of female hysteria after World War II **Women and Learning: Oxford Bibliographies Online Research Guide** Oxford University Press,2010-06-01 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related This ebook is a static version of an article from Oxford Bibliographies Online Renaissance and Reformation a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com **Advancing Sexual Health for the Christian Client** Beverly Dale,Rachel Keller,2019-03-04 Advancing Sexual Health for the Christian Client is an essential toolkit for professionals working at the intersection of Christian belief and sexual health In this book Beverly Dale and Rachel Keller deconstruct potentially harmful Christian beliefs around sexuality to support clients stuck in sexual guilt shame and fear Combining the experience of an ordained Christian clergy with a certified sexologist this guide promotes a new approach to sex and faith for therapists which will help their clients to reconcile a belief in God's love with sexual knowledge and fulfilment Grounded in historical and cultural contexts and drawing from both academic research and scriptural exegesis the authors offer practical clinical applications and interventions to enable clients to re examine their sexual beliefs in a way that encourages sexual healing By understanding the goals of a sex positive body positive Christianity professionals can find a common language with the person of faith and build an effective therapeutic relationship This book will be a key point of reference for any sex therapist educator or student looking to integrate faith based concepts into their approach

Women's Secrets Helen Rodnite Lemay,Albertus,Albert le Grand (saint).),1992-01-01 Women's Secrets provides the first modern translation of the notorious treatise *De secretis mulierum* popular throughout the late middle ages and into modern times The Secrets deals with human reproduction and was written to instruct celibate medieval monks on the facts of life and some of the ways of the universe However the book had a much more far reaching influence Lemay shows how its message that women were evil lascivious creatures built on the misogyny of the work's Aristotelian sources and laid the groundwork for serious persecution of women Both the content of the treatise and the reputation of its author erroneously believed to be Albertus Magnus inspired a few medieval scholars to compose lengthy commentaries on the text substantial selections from which are included providing further evidence of how medieval men interpreted science and viewed the female body

Masculine Domination Pierre Bourdieu, 2001 Translation from the French of *La domination masculine* **A Cultural History of Childhood and Family in the Middle Ages** Louise J. Wilkinson, 2012-03-01 The Middle Ages 800 1400 were a rich and vibrant period in the history of European culture society and intellectual thought Emerging state powers economic expansion and contraction the growing influence of the Christian Church and demographic change all influenced the ideals and realities of childhood and family life Movements for Church reform brought the spiritual and moral concerns of the laity into sharper focus profoundly shaping attitudes towards gender and sexuality and how these might be applied to family roles At the same time the growth of trade the spread of literacy and learning shifting patterns of settlement and the process of urbanization transformed childhood This volume explores the ideas and practices which underpinned contemporary perceptions of childhood in the medieval West and illuminates the enduring importance of the family as a dynamic economic political and social unit A Cultural History of Childhood and Family in the Middle Ages presents essays on family relationships community economy geography and the environment education life cycle the state faith and religion health and science and world contexts **The Legend of Good Women** Carolyn P. Collette, 2006 Essays re examining the Legend of Good Women placing it in its cultural and historical context **The Handbook of Media and Mass Communication Theory** Robert S. Fortner, P. Mark Fackler, 2014-03-10 The Handbook of Media and Mass Communication Theory presents a comprehensive collection of original essays that focus on all aspects of current and classic theories and practices relating to media and mass communication Focuses on all aspects of current and classic theories and practices relating to media and mass communication Includes essays from a variety of global contexts from Asia and the Middle East to the Americas Gives niche theories new life in several essays that use them to illuminate their application in specific contexts Features coverage of a wide variety of theoretical perspectives Pays close attention to the use of theory in understanding new communication contexts such as social media 2 Volumes **The Lenses of Gender** Sandra L. Bem, 1993-01-01 On gender and sexual inequality *Industrialization and Political Activism: 1861 to 1899* Elizabeth Purdy, 2020-02-01 Written in engaging and accessible prose by experts in the field this reference introduces readers to the hidden history of women in America from 1861 to 1899 bringing their achievements to light and helping them gain the recognition they deserve Chapters include Arts and Literature Business Education Entertainment Family Health Politics Science and Medicine Society *Women's Lives in Medieval Europe* Emilie Amt, 2013-09-13 Praise for the first edition It is difficult to imagine another book in which one could find all this diverse material and no doubt Amt's collection in its richness and in its genuine clarity and simplicity will take prominent place in our expanded diversified medieval curriculum a curriculum that takes class gender and ethnicity as central to an understanding of world cultural history The Medieval Review Long considered to be a definitive and truly groundbreaking collection of sources *Women's Lives in Medieval Europe* uniquely presents the everyday lives and experiences of women in the Middle Ages This indispensable text has now been thoroughly updated and expanded to reflect

new research and includes previously unavailable source material This new edition includes expanded sections on marriage and sexuality and on peasant women and townswomen as well as a new section on women and the law There are brief introductions both to the period and to the individual documents study questions to accompany each reading a glossary of terms and a fully updated bibliography Working within a multi cultural framework the book focuses not just on the Christian majority but also present material about women in minority groups in Europe such as Jews Muslims and those considered to be heretics Incorporating both the laws regulations and religious texts that shaped the way women lived their lives and personal narratives by and about medieval women the book is unique in examining women s lives through the lens of daily activities and in doing so as far as possible through the voices of women themselves **A Colonial Woman's Bookshelf**

Kevin J. Hayes, 2016-02-05 A Colonial Woman s Bookshelf represents a significant contribution to the study of the intellectual life of women in British North America Kevin J Hayes studies the books these women read and the reasons why they read them As Hayes notes recent studies on the literary tastes of early American women have concentrated on the post revolutionary period when several women novelists emerged Yet he observes women were reading long before they began writing and publishing novels and in fact mounting evidence now suggests that literacy rates among colonial women were much higher than previously supposed To reconstruct what might have filled a typical colonial woman s bookshelf Hayes has mined such sources as wills and estate inventories surviving volumes inscribed by women public and private library catalogs sales ledgers borrowing records from subscription libraries and contemporary biographical sketches of notable colonial women Hayes identifies several categories of reading material These range from devotional works and conduct books to midwifery guides and cookery books from novels and travel books to science books In his concluding chapter he describes the tensions that were developing near the end of the colonial period between the emerging cult of domesticity and the appetite for learning many women displayed With its meticulous research and rich detail A Colonial Woman s Bookshelf makes a valuable contribution to our understanding of the complexities of life in seventeenth and eighteenth century America

Maps of Flesh and Light Ulrike Wiethaus, 1993-10-01 This work offers interdisciplinary perspectives by women scholars on the diverse cultural contributions of medieval women mystics *The Wandering Womb* Lana Thompson, 2012-05-02 A provocative tour through religious medical and social history The Wandering Womb pinpoints the humorous outrageous and hair raising beliefs practices and longstanding falsehoods about women which have permeated human culture Illustrations
