Substance And Illusion In The Christian Fathers

Substance And Illusion In The Christian Fathers:

Substance and Illusion in the Christian Fathers Christopher Stead, 1985-01 *The Trinitarian Theology of Basil of Caesarea* Stephen M. Hildebrand, 2007 Basil of Caesarea the Great has drawn the admiration of many for centuries He was a father of eastern coenobitic monasticism though Benedict of Nursia revered him as well an author of orthodox Trinitarian theology and eloquent defender of the Spirit a model of social virtue and concern for the poor and an erudite preacher and able bishop This book explores Basil's Trinitarian thought as the meeting place of the worlds within which he lived that of ancient Greek culture and learning and that of Christian faith lived in the liturgy and expressed in the Scripture His work as a bishop theologian and preacher was in large part an effort to make these two worlds one Basil showed that Christianity had the strength and power to take to itself whatever was good among the Greeks ennobling their culture with the name of Christ and yet remaining true to itself He did this not standing outside of Greek culture but within it God Basil developed a precise Trinitarian vocabulary which he thought effectively refuted two basic errors in thinking about God the denial of the divinity of the Son and the Spirit and the denial of their true and real distinction from the Father He maintained that the right thinking about God is more than just the right use of words it is also the right interpretation of the Word the Scriptures This book also then seeks to explain the scriptural foundations of Basil's Trinitarian theology which themselves testify to his artful synthesis of Greek culture and Christian truth

Philosophy in Christian Antiquity Christopher Stead, 1994-11-24 Christianity began as a little known Jewish sect but rose within 300 years to dominate the civilised world It owed its rise in part to inspired moral leadership but also to its success in assimilating criticising and developing the philosophies of the day which offered rationally approved life styles and moral directives Without abandoning their allegiance to their founder and to Holy Scripture Christians could therefore present their faith as a new philosophy This book which is written for non specialist readers provides a concise conspectus of the emergence of philosophy among the Greeks an account of its continuance in early Christian times and its influence on early Christian thought especially in formulating the doctrines of the Trinity and the Incarnation and finally a brief critical assessment of the philosophy of St Augustine arguably the greatest philosopher of the first millennium

Christian Faith and Greek Philosophy in Late Antiquity, 2015-12-22 This volume is a collection of thirteen essays offered in dedication to Professor C G Stead on his 80th birthday Their theme is the philosophy underlying the presentation of Christian teaching in Late Antiquity The essays deal with individual theologians Augustine Ambrose Dionysius the Areopagite Gregory of Nyssa with ideological background Christian and Roman universalism and with the discussion of particular texts A bibliography and brief appreciation of Professor Stead's contribution to Patristic studies are included

Exploring Kenotic Christology C. Stephen Evans, 2006 This collection of essays by a team of Christian philosophers theologians and biblical scholars explores the viability of a kenotic account of the incarnation Such an account is inspired by Paul's lyrical claims in Philippians 2:6-11 that Christ Jesus though God in nature emptied himself or made

himself nothing by becoming human The biblical support for such a view can be found throughout the four gospels and the book of Hebrews as well as in other places A kenotic account takes seriously the possibility that Christ in becoming incarnate temporarily divested himself of such properties as omnipotence omniscience and omnipresence Several of the contributors argue that this view is fully orthodox and that it has great strengths in giving us a picture of a God who is willing to become completely vulnerable for the sake of human beings and one that is completely consistent with the very human portrait of Jesus in the New Testament The proponents of kenotic Christology argue that the philosophical accounts of God's nature that have led to rejection of this theory ought themselves to be subjected to criticism in light of the biblical data Some essays test the theory by raising critical questions and arguing that traditional accounts of the incarnation can achieve the goals of kenotic theories as well as kenotic theories can The book also explores the implications of a kenotic view of the incarnation for philosophical theology in general and the doctrine of the Trinity in particular and it concludes with essays that examine the validity of the ideal of kenosis for women and a challenge to traditional Christology to take a kenotic theory seriously

Book jacket **Colin Gunton and the Failure of Augustine** Bradley G Green, 2012-01-26 The British systematic theologian Colin Gunton argued that Augustine bequeathed to the West a theological tradition with serious deficiencies According to Gunton Augustine's particular construal of the doctrine of God led to fundamental errors and problems in grasping the relationship between creation and redemption and in rightfully construing a truly Christian ontology In *Colin Gunton and the Failure of Augustine* Bradley G Green's close reading of Augustine challenges Gunton's understanding Gunton argued that Augustine's supposed emphasis of the one over the many severed any meaningful link between creation and redemption contra the theological insights of Irenaeus and furthermore that because of Augustine's supposed emphasis on the timeless essence of God at the expense of the three real persons he failed to forge a truly Christian ontology effectively losing the insights of the Cappadocian Fathers For all of Gunton's many insights Green argues that on the contrary Augustine did not sever the link between creation and redemption but rather affirmed that the created order is a means of genuine knowledge of God that the created order is indeed the only means by which redemption is accomplished that the cross of Christ is the only means by which we can see God and that the created order is fundamentally oriented toward a telos redemption Concerning ontology Augustine's teaching on the *imago Dei* and the prominent role that relationship plays in Augustine's doctrines of man and God provides the kind of relational Christian ontology that Gunton sought In short Green argues Augustine could have provided Gunton key theological resources in countering the modernity he so rightfully challenged

'Virgins of God': The Making of Asceticism in Late Antiquity Susanna Elm, 1994-09-15 Many of the institutions fundamental to the role of men and women in society today were formed in late antiquity This path breaking study offers a comprehensive look at how Christian women of this time initiated alternative ascetic ways of living both with and without men The author studies how these practices were institutionalized and why later they were either

eliminated or transformed by a new Christian Roman elite of men we now think of as the founding fathers of monasticism. Situated in a period that witnessed the genesis of institutions fundamental to this day, this path-breaking study offers a comprehensive look at how ancient Christian women initiated ascetic ways of living and how these practices were then institutionalized. Using the organization of female asceticism in Asia Minor and Egypt as a lever, the author demonstrates that in direct contrast to later conceptions, asceticism began primarily as an urban movement. Crucially, it also originated with men and women living together, varying the model of the family. The book then traces how in the course of the fourth century these early organizational forms underwent a transformation. Concurrent with the doctrinal struggles to redefine the Trinity and with the formation of a new Christian elite, men such as Basil of Caesarea changed the institutional configuration of ascetic life. In common, they emphasized the segregation of the sexes and the supremacy of the rural over urban models. At the same time, ascetics became clerics who increasingly used female saints as symbols for the role of the new ecclesiastical elite. Earlier, more varied models of ascetic life were either silenced or condemned as heretical, and those who had been in fact their reformers became known as the founding fathers of monasticism.

Church and Faith in the Patristic Tradition Gerald Bonner, 2024-10-28. The articles in this volume complement and continue work brought together on the author's previous collection *God's Decree and Man's Destiny*. The first part, focusing on Augustine, is largely devoted to the Pelagian controversy but also includes an examination of Augustine's concept of deification and other aspects of his theology. The following essays deal with early Christianity in Britain and in particular with the work of St Cuthbert and Bede and the patristic traditions on which they drew, while the final ones present reflections on the history of the Church in Late Antiquity.

Athanasius of Alexandria David M. Gwynn, 2012-02-17. Athanasius of Alexandria (c. 295–373) is one of the greatest and most controversial figures of early Christian history. His life spanned the period of fundamental change for the Roman Empire and the Christian Church that followed the conversion of Constantine the Great, the first Christian Roman emperor. A bishop and theologian, an ascetic and a pastoral father, Athanasius played a central role in shaping Christianity in these crucial formative years. As bishop of Alexandria (328–73), he fought to unite the divided Egyptian Church and inspired admiration and opposition alike from fellow bishops and the emperor Constantine and his successors. Athanasius attended the first ecumenical Council of Nicaea, summoned by Constantine in 325, and as a theologian would be remembered as the defender of the original Nicene Creed against the Arian heresy. He was also a champion of the ascetic movement that transformed Christianity, a patron of monks and virgins, and the author of numerous ascetic works, including the famous *Life of Antony*. All these elements played their part in Athanasius' vocation as a pastoral father responsible for the physical and spiritual wellbeing of his congregations. This book offers the first study in English to draw together these diverse yet inseparable roles that defined Athanasius' life and the influence that he exerted on subsequent Christian tradition. The presentation is accessible to both specialists and non-specialists and is illuminated throughout by extensive quotation from Athanasius' many writings, for it is through his own

words that we may best approach this remarkable man **Studies in Later Greek Philosophy and Gnosticism** Jaap Mansfeld,2024-12-11 It is a curious fact that many of the sources for the Presocratic and Stoic philosophers are early Christian authors similarly one can even find an echo of Parmenides in a Gnostic treatise from Nag Hammadi Such writers were often dependent for their knowledge on a whole chain of previous interpretations and traditions and it is these with which Professor Mansfeld is here largely concerned He has tried to discover what in an earlier writer Plato and Aristotle of course as well as the Early Greeks was of interest to a later one notably the Middle Platonists These articles demonstrate the value of such an approach showing how a familiarity with the later history of an idea say in a Gnostic text can contribute to the understanding of the idea itself or how the study of the selection of ideas used by Philo for instance not only sheds light on his own projects but also helps explain why some motifs survived and not others and why philosophical thought took the directions it did **Soul and Intellect** H.J. Blumenthal,2024-12-11 This book presents a series of Dr Blumenthal's studies on the history of Neoplatonism from its founder Plotinus to the end of Classical Antiquity relating especially to the Neoplatonists' doctrines about the soul The work falls into two parts The first deals with Plotinus and considers the soul both as part of the structure of the universe and in its capacity as the basis of the individual's vital and cognitive functions The second part is concerned with the later history of Neoplatonism including its end Its main focus is the investigation of how Neoplatonic psychology was modified and developed by later philosophers in particular the commentators on Aristotle and used as the starting point for their Platonizing interpretations of his philosophy Christ in Christian Tradition Aloys Grillmeier,Theresia Hainthaler,1995-01-01 Examines the development of Christology and the concept of Christ and His presence through the late eighth century **Servetus, Swedenborg and the Nature of God** Andrew M.T. Dibb,2005-04-19 The Trinity was defined at the Council of Nicaea and the relationship of the human and divine natures of Christ was defined at Chalcedon Very few questioned the Church's depictions of the nature of God Two such mavericks Michael Servetus 1509-1553 and Emanuel Swedenborg 1688-1772 in spite of their Christian educations rejected the Church's creedal understanding of God and the Trinity Although they lived in two different ages the Reformation and Enlightenment and there is no evidence that Swedenborg ever read or even knew of Servetus the two men came to remarkably similar conclusions about the nature of God Each scholar stated that the Trinity does not rest in three Persons but rather takes form in the single person of Jesus Christ the visible God Servetus was a superb scholar in his day He mastered the Church Fathers and possessed an encyclopedic knowledge of the Bible Servetus tragically perished in the flames at Geneva because of his beliefs Swedenborg likewise was a well known and respected scholar philosopher and anatomist He dedicated the last thirty years of his life to biblical research producing a series of some thirty volumes in English of theological writings His work influenced many of the great thinkers and artists of the nineteenth century and continues to be read and studied in many parts of the world today **The Unknown God** Deirdre Carabine,2015-01-26 This book contains a careful thorough and

where necessary skeptical as regards doubtful evidence especially in the case of Plato and the Old Academy of the beginnings in European thought of the negative or apophatic way of thinking and its relations to more positive or kataphatic ways of thinking about God One of its greatest strengths perhaps the greatest is that the author makes clear that none of the persons concerned Hellenic Jewish or Christian was engaged in the pursuit of a philosophical abstraction or the heaping of rhetorical superlatives on God They were rather concerned to present the origin of the universe as an intimately present living reality which infinitely transcends our thought and speech This combined with careful attention to the varieties of negative theology and its relations with positive and the particular difficulties experienced by the members of the various traditions involved makes the book the best introduction to the negative theology available

Trinitarian Personhood Bill Ury, 2002-02-01 The concept of the person is a crucial yet elusive component in the development of Western thought Few concepts are as replete with definitional difficulty Equally important is the application of a proper definition to all major Christian doctrinal commonplaces This work recognizing the insufficiency of modern theology to offer a cogent concept of person proposes a thorough historical and theological evaluation of Trinitarian personhood presented in three critical paradigm shifts by which one can measure the development of the idea of true personhood presented The three watershed eras of discernment of divine personhood presented are seen here as first the Cappadocian position of the mutual indwelling perichoresis of the divine persons is contrasted with Augustine s view of the place of relations in defining divine persons Second the ideas of Richard of St Victor whose *caritas consummata* and its relational implications met the nemesis of the Thomistic category of subsistent relations And last as an example of this important discussion in modernity the German Heribert M hlen s dynamic phenomenological approach to Triune personhood is offered as a means of countering the implicit modalisms of Barth and Rahner If the personhood of God is in essence Being in Another then Christianity must apply that ontology to all sectors of reality to be fully Christian

Arius Rowan Williams, 2002-01-24 Arius is widely considered to be Rowan Williams s magnum opus Long out of print and never before available in paperback it has been newly revised This expanded and updated edition marks a major publishing event Arianism has been called the archetypal Christian heresy because it denies the divinity of

Christ In his masterly examination of Arianism Rowan Williams argues that Arius himself was actually a dedicated theological conservative whose concern was to defend the free and personal character of the Christian God His heresy grew out of an attempt to unite traditional biblical language with radical philosophical ideas and techniques and was from the start involved with issues of authority in the church Thus the crisis of the early fourth century was not only about the doctrine of God but also about the relations between emperors bishops and charismatic teachers in the church s decision making In the course of his discussion Williams raises the vital wider questions of how heresy is defined and how certain kinds of traditionalism transform themselves into heresy Augmented with a new appendix in which Williams interacts with significant scholarship since 1987 this book provides fascinating reading for anyone interested in church history and the development of Christian doctrine

The Nicene Faith John Behr, N this sequel to *The Way to Nicaea* Fr John Behr turns his attention to the fourth century the era in which Christian theology was formulated as the Nicene faith the common heritage of most Christians to this day Engaging the best of modern scholarship Behr provides a series of original comprehensive and insightful sketches of theology of the key protagonists of the Nicene faith presenting a powerful vision of Christian theology centered upon Christ and his Passion

The Search for the Christian Doctrine of God Richard Patrick Crosland Hanson, R. P. Hanson, 2005-01-01 First published in 1988 *The Search for the Christian Doctrine of God* is still considered by many scholars to be the finest work on the Arian Controversy Examining scholarly works on the Controversy and many original texts Professor Hanson provides a clear understanding of how the traditional and historic doctrine of God as the Holy Trinity reached its most mature and enduring form The author is not primarily concerned to defend the orthodox position itself but rather to discover and examine the formation of that orthodoxy The history of the events the Councils the interventions of the Emperor the rivalries of sees the behaviour of bishops the varying fortunes of the different schools of thought and their leaders is interwoven with the progression of thought and doctrine during the sixty years of the Controversy Professor Hanson sees the problem of the reconciliation of two concepts which were both part of the very fabric of Christianity monotheism and the worship of Jesus Christ as divine

Reason, Faith and Otherness in Neoplatonic and Early Christian Thought Kevin Corrigan, 2024-10-28 This book brings together a selection of Kevin Corrigan s works published over the course of some 27 years Its predominant theme is the encounter with otherness in ancient medieval and modern thought and it ranges in scope from the Presocratics through Plato Aristotle Plotinus and the late ancient period on the one hand and early Christian thought especially Gregory of Nyssa Augustine and much later Aquinas on the other Among the key questions examined are the relation between faith and reason the nature of creation and insight being and existence literature philosophy and the invention of the novel personal human and divine identity the problem of evil particularly here in Dostoevsky s adaptation of a Platonic perspective the character of ideas themselves women saints in the early Church love of God and love of neighbor the development of Christian Trinitarian thinking the strange notion of philosophy as prayer and
