Life and Death in the Roman Suburb Allison L. C. Emmerson,2020-05-24 Defined by borders both physical and conceptual the Roman city stood apart as a concentration of life and activity that was legally economically and ritually divided from its rural surroundings Death was a key area of control and tombs were relegated outside city walls from the Republican period through Late Antiquity Given this separation an unexpected phenomenon marked the Augustan and early Imperial periods Roman cities developed suburbs built up areas beyond their boundaries where the living and the dead came together in densely urban environments Life and Death in the Roman Suburb examines these districts drawing on the archaeological remains of cities across Italy to understand the character of Roman suburbs and to illuminate the factors that led to their rise and decline focusing especially on the tombs of the dead Whereas work on Roman cities has tended to pass over funerary material and research on death has concentrated on issues seen as separate from urbanism Emmerson introduces a new paradigm considering tombs within their suburban surroundings of shops houses workshops garbage dumps extramural sanctuaries and major entertainment buildings in order to trace the many roles they played within living cities Her investigations show how tombs were not passive memorials but active spaces that facilitated and furthered the social and economic life of the city where relationships between the living and the dead were an enduring aspect of urban life

Questioning Assumptions and Challenging Perceptions Connie L. Schaffer, Meg White, Corine Meredith Brown, 2016-01-15 For a moment consider you don't know what you don't know What individuals know about urban schools is often based on assumptions and perceptions It is important for individuals to examine these assumptions and perceptions of urban schools and the students who attend them While many textbooks support how teachers should teach students in urban settings this book asserts individuals can be effective teachers in these settings only if they first develop an understanding urban schools and the students who attend them As readers progress through the chapters they will realize they don't know what they don't know Within a framework of cognitive dissonance readers will continuously examine and reexamine their personal beliefs and perceptions Readers will also investigate new information and varied perspectives related to urban schools When readers finish this book they will be on their way to becoming effective teachers in urban environments

A Thousand Screenplays Sabine Chalvon-Demersay, 1999-05 In 1991 French public television held an amateur screenwriting contest When Sabine Chalvon-Demersay a French sociologist examined the roughly 1 000 entries she had hoped to analyze their differences What she

found however surprised her Although the entrants covered nearly every social demographic their screenplays presented similar characters in similar situations confronting similar problems The time of crisis presented by the amateur writers was not one of war famine or disease it was the millennial dilemma of representation In a world plagued by alienation individualization and a lack of mobility how can members of a society combat their declining senses of self Although the contestants wrote about life in France their concerns and struggles have a distinctly universal ring A lucid witty writer Chalvon Demersay offers a clear if still developing photograph of the contemporary imagination

Homeland Insecurity

Louis A. Cainkar, 2009-07-02 In the aftermath of 9 11 many Arab and Muslim Americans came under intense scrutiny by federal and local authorities as well as their own neighbors on the chance that they might know support or actually be terrorists As Louise Cainkar observes even U S born Arabs and Muslims were portrayed as outsiders an image that was amplified in the months after the attacks She argues that 9 11 did not create anti Arab and anti Muslim suspicion rather their socially constructed images and social and political exclusion long before these attacks created an environment in which misunderstanding and hostility could thrive and the government could defend its use of profiling Combining analysis and ethnography Homeland Insecurity provides an intimate view of what it means to be an Arab or a Muslim in a country set on edge by the worst terrorist attack in its history Focusing on the metropolitan Chicago area Cainkar conducted more than a hundred research interviews and five in depth oral histories In this the most comprehensive ethnographic study of the post 9 11 period for American Arabs and Muslims native born and immigrant Palestinians Egyptians Lebanese Iraqis Yemenis Sudanese Jordanians and others speak candidly about their lives as well as their experiences with government public mistrust discrimination and harassment after 9 11 The book reveals that Arab Muslims were more likely to be attacked in certain spatial contexts than others and that Muslim women wearing the hijab were more vulnerable to assault than men as their head scarves were interpreted by some as a rejection of American culture Even as the 9 11 Commission never found any evidence that members of Arab or Muslim American communities were involved in the attacks respondents discuss their feelings of insecurity a heightened sense of physical vulnerability and exclusion from the guarantees of citizenship afforded other Americans Yet the vast majority of those interviewed for Homeland Insecurity report feeling optimistic about the future of Arab and Muslim life in the United States Most of the respondents talked about their increased interest in the teachings of Islam whether to counter anti Muslim slurs or to better educate themselves Governmental and popular hostility proved to be a springboard for heightened social and civic engagement Immigrant organizations religious leaders civil rights advocates community organizers and others defended Arabs and Muslims and built networks with their organizations Local roundtables between Arab and Muslim leaders law enforcement and homeland security agencies developed better understanding of Arab and Muslim communities These post 9 11 changes have given way to stronger ties and greater inclusion in American social and political life Will the United States extend its values of freedom and inclusion beyond the politics of us and them stirred

up after 9 11 The answer is still not clear Homeland Insecurity is keenly observed and adds Arab and Muslim American voices to this still unfolding period in American history
