Suburban Nightmares Larry Hancock, Michael Cherkas, John Van Bruggen, 1990 The fifties a time of mindless happiness masking fear Fear of the bomb fear of commies fear of dandelions **American Dreams, Suburban Nightmares:**

Suburbia as a Narrative Space between Utopia and Dystopia in Contemporary American Cinema Melanie Smicek, 2014-10 The suburban landscape is inseparable from American culture Suburbia does not only relate to the geographical concept but also describes a cultural space incorporating people's hopes for a safe and prosperous life Suburbia marks a dynamic ideological space constantly influenced and recreated by both the events of everyday life and artistic discourse Fictional texts do not merely represent suburbia but also have a decisive role in the shaping of suburban spaces The widely held idealized image of suburbia evolved in the 1950s Today reality deviates from the concept of suburbs projected back then due to e.g. high divorce rates and an increase of crime Nevertheless the nostalgic view of the suburbs as the Promised Land has survived Postwar critics object to this perception considering the suburbs rather as depressing landscapes of mass consumption conformity and alienation This book exemplifies the dualistic representation of suburbs in contemporary American cinema by analyzing Pleasantville The Truman Show and American Beauty It examines how utopian concepts of suburbia are created culturally and psychologically in the films and how the underlying anxieties of the suburban experience visualized by the dystopian narratives challenge this ideal **American Science Fiction Film and Television**

Lincoln Geraghty, 2009-10-01 American Science Fiction Film and Television presents a critical history of late 20th Century SF together with an analysis of the cultural and thematic concerns of this popular genre Science fiction film and television were initially inspired by the classic literature of HG Wells and Jules Verne The potential and fears born with the Atomic age fuelled the popularity of the genre upping the stakes for both technology and apocalypse From the Cold War through to America's current War on Terror science fiction has proved a subtle vehicle for the hopes fears and preoccupations of a nation at war The definitive introduction to American science fiction this is also the first study to analyse SF across both film and TV Throughout the discussion is illustrated with critical case studies of key films and television series including The Day the Earth Stood Still Planet of the Apes Star Trek The Next Generation The X Files and Battlestar Galactica **Readers'**

experience and negotiate it Streets in Motion develops an approach to urban history by theorizing and historicizing the street as an apparatus of city making and subject formation It works at two registers a local history of Calcutta in colonial and post colonial periods and a theorizing of the logistical and political cultural centrality of the street within this rubric It is argued that the street is politics in as much as politics is the production of space **Adventures of a Bystander** Peter

Empires at War Francis Pike,2011-02-28 As the major geopolitical power bloc Asia with 4 billion people two thirds of the world s population a huge land mass and the fastest growing economies has shifted the global political balance Empires at War gives a dramatic narrative account of how Modern Asia came into being Ranging over the whole of Asia from Japan to Pakistan the modern history of this important region is placed in the context of the struggle between America and the Soviet Union Francis Pike shows that America s domination of post war Asia was a continuation of a 100 year competition for power in the region He also argues cogently that contrary to the largely Western centric viewpoint Asian nations were not simply the passive and biddable entities of the superpowers but had a political development which was both separate and unique with a dynamic that was largely independent of the superpower conflict And in conclusion the book traces the unwinding of American influence and the end of its Empire a crucial development in international history which is already having repercussions throughout the world
