Subversions As Foreign Policy:

Subversion as Foreign Policy Audrey Kahin, George McTurnan Kahin, 1997 Based on access to secret documents and interviews with many of the participants *Subversion as Foreign Policy* is an extraordinary account of civil war in Indonesia provoked by President Eisenhower and Secretary of State John Foster Dulles and resulting in the killing of thousands of Indonesians and the destruction of much of the country's air force and navy This startling new book reveals a covert intervention by the United States in Indonesia in the late 1950s involving among other things the supply of thousands of weapons the creation and deployment of a secret CIA air force and logistical support from the Seventh Fleet The intervention occurred on such a massive scale that it is difficult to believe it has been kept almost totally secret from the American public for nearly 40 years And this CIA operation proved to be even more disastrous than the Bay of Pigs San Francisco Chronicle An exemplary study of an ignominious chapter of the Cold War in Southeast Asia *Journal of Asian Studies* *Subversion as Foreign Policy* is a remarkable book The Kahins have provided a rare insight into the workings of U S policy towards Indonesia both clandestine and official *London Times Literary Supplement* *The Role of Cuba in International Terrorism and Subversion* United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Security and Terrorism, 1982

Interlocking Subversion in Government Departments United States. Congress. Senate. Committee on the Judiciary, 1953

Extent of Subversion in the "New Left": Testimony of Charles Siragusa and Ronald L. Brooks United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws, 1970 *Subversion* Lennart Maschmeyer, 2024 In 2014 Russia launched a Hybrid War against Ukraine that according to some ushered in a revolution in conflict The term is notoriously vague referring to all measures short of war states use to attain strategic aims States of course have long used measures in the gray zone between war and peace Yet they did not always have the Internet **Communist Political Subversion, Part 1, 2** United States. Crippling Leviathan Melissa M. Lee Desfor, 2020-04-15 Policymakers worry that ungoverned spaces pose dangers to security and development Why do such spaces exist beyond the authority of the state Earlier scholarship which addressed this question with a list of domestic failures overlooked the crucial role that international politics play In this shrewd book Melissa M Lee argues that foreign subversion undermines state authority and promotes ungoverned space Enemy governments empower insurgents to destabilize the state and create ungoverned territory This kind of foreign subversion is a powerful instrument of modern statecraft But though subversion is less visible and less costly than conventional force it has insidious effects on governance in the target state To demonstrate the harmful consequences of foreign subversion for state authority *Crippling Leviathan* marshals a wealth of evidence and presents in

depth studies of Russia's relations with the post Soviet states Malaysian subversion of the Philippines in the 1970s and Thai subversion of Vietnamese occupied Cambodia in the 1980s The evidence presented by Lee is persuasive foreign subversion weakens the state She challenges the conventional wisdom on statebuilding which has long held that conflict promotes the development of strong territorially consolidated states Lee argues instead that conflictual international politics prevents state development and degrades state authority In addition Crippling Leviathan illuminates the use of subversion as an underappreciated and important feature of modern statecraft Rather than resort to war states resort to subversion

Policymakers interested in ameliorating the consequences of ungoverned space must recognize the international roots that sustain weak statehood **Agents of Subversion** John P. Delury, 2022-10-15 Agents of Subversion reconstructs the remarkable story of a botched mission into Manchuria showing how it fit into a wider CIA campaign against Communist China and highlighting the intensity and futility of clandestine operations to overthrow Mao In the winter of 1952 at the height of the Korean War the CIA flew a covert mission into China to pick up an agent Trained on a remote Pacific island the agent belonged to an obscure anti communist group known as the Third Force based out of Hong Kong The exfiltration would fail disastrously and one of the Americans on the mission a recent Yale graduate named John T Downey ended up a prisoner of Mao Zedong's government for the next twenty years Unraveling the truth behind decades of Cold War intrigue John Delury documents the damage that this hidden foreign policy did to American political life The US government kept the public in the dark about decades of covert activity directed against China while Downey languished in a Beijing prison and his mother lobbied desperately for his release Mining little known Chinese sources Delury sheds new light on Mao's campaigns to eliminate counterrevolutionaries and how the chairman of the Chinese Communist Party used captive spies in diplomacy with the West Agents of Subversion is an innovative work of transnational history and it demonstrates both how the Chinese Communist regime used the fear of special agents to tighten its grip on society and why intellectuals in Cold War America presciently worried that subversion abroad could lead to repression at home **21st-Century Statecraft** Nayef

Al-Rodhan, 2022-07-28 From civilisational frontier risks associated with new challenges like disruptive technologies to the shifting nature of great power conflicts and subversion the 21st century requires a new approach to statecraft In 21st Century Statecraft Professor Nayef Al Rodhan proposes five innovative statecraft concepts He makes the case for a new method of geopolitical analysis called meta geopolitics and for dignity based governance He shows how in an interdependent and interconnected world traditional thinking must move beyond zero sum games and focus on multi sum and symbiotic realist interstate relations This requires a new paradigm of global security premised on five dimensions of security and a new concept of power just power which highlights the centrality of justice to state interests These concepts enable states to balance competing interests and work towards what the author calls reconciliation statecraft Throughout Professor Al Rodhan brings his philosophical and neuroscientific expertise to bear providing a practical model for conducting statecraft in

a sustainable way Army Signal Corps - Subversion and Espionage United States. Congress. Senate. Committee on Government Operations. Permanent Subcommittee on Investigations,1954 **Subversion and Insurgency** William Rosenau,2007-03-06 Subversion is a critical insurgent tool but it has long been ignored by policymakers and analysts This paper presents a set of case studies to explore the elements of subversion and discusses preliminary ideas for combating subversive activities in the context of the long war against violent Islamic extremism **Extent of Subversion in the "New Left"** United States. Congress. Senate. Judiciary,1970 *Extent of Subversion in the "New Left"* United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws,1970 *Castro-communist Subversion in the Western Hemisphere* ,1963 **Treasonable Doubt** R. Bruce Craig,2004 Armed with a wealth of new information Craig examines the controversial 1948 allegations that Communist spies had penetrated the American government and explores the ambiguities that have haunted it for more than half a century Interlocking Subversion in Government Departments United States. Congress. Senate. Committee on the Judiciary,1953 *Subversion* Andreas Krieg,2023-05-01 A penetrating analysis of weaponized information one of the most pressing dangers to open societies Now more than ever communities across the world are integrated into a complex global information ecosystem that shapes the nature of social political and economic life The ripple effects of actors trying to manipulate or disrupt this information ecosystem are far more severe than the primary effects that are merely being felt in the information space In fact the weaponization of narratives has already shown its potential to transform the character of conflict in the twenty first century Subversion examines how malicious state and nonstate actors take advantage of the information space to sow political chaos Andreas Krieg reveals how the coordinated use of weaponized narratives can achieve strategic level effects through a six stage process Preying on vulnerable states and communities to find the fault lines within societies these campaigns begin in the information space with an ultimate goal of producing tangible results such as changes to policy or voting behavior or spurring political violence Krieg closely examines recent subversion campaigns by two states in particular focusing on Russia s interference in Western public discourse and the United Arab Emirates s demonization of the Muslim Brotherhood as a terrorist organization Subversion will provide scholars and policymakers with a comprehensive understanding of one of the most urgent threats in international politics along with recommendations on how vulnerable communities can become more resilient **Castro-communist Subversion in the Western Hemisphere** United States. Congress. House. Committee on Foreign Affairs,1963 Classified material has been deleted *Extent of Subversion in Campus Disorders* United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws,1969
