Balanzategui, Diana Sandars**

Subversive Family:

Subversive Family Ferdinand Mount, 2010-06-15 British politician and writer Ferdinand Mount challenges contemporary beliefs about society and family including the history of divorce childcare and the concept of the nuclear family In **Subversive Family** politician and writer Ferdinand Mount argues that society is shaped by a series of powerful revolutionary movements the leaders of which whether they be political ideologues theologians feudal lords or feminist writers have done their utmost to render the family a subordinate instrument of their purpose but that in spite of it all the family endures Mount maintains that many widely held contemporary beliefs about the family are based on a willful misreading of the evidence among the myths are that arranged marriages were the norm until this century that child care is a modern innovation that in earlier societies children were treated as expendable objects that the nuclear family is not a 20th century invention and that romantic love never existed before the troubador poets glorified adultery Divorce he contends is no great novelty either he shows that in many times and places it has been almost as easy to obtain as it is today Far from diminishing the general desire and respect for family life Mount contends that the provision for divorce has been popularly regarded as an integral part of any sensible system of family law This study should jolt the reader into a re assessment of one of the most familiar and ancient institutions and encourage greater consideration for policies today that support the family

The Subversive Family Ferdinand Mount, 1995-01-29

The Double Life of the Family Michael Bittman, 2020-08-27

The modern family is under strain What we crave most from our families is intimacy warmth and self fulfilment but we often find this difficult to achieve We hold onto these expectations of our families even in the face of contradictory experiences so the family sustains a double life The authors explore the gap between our values expectations and yearnings and our experiences of everyday family life Family ritual political rhetoric advertising images and television family sitcoms are all windows onto what we want and expect our myths of the family Yet our aspirations for intimacy and self fulfilment are frustrated by unacknowledged inequalities between men and women and parents and children The inequalities have their origins in the division of domestic labour and in labour markets that disregard family responsibilities The Double Life Of The Family argues that our expectations of family life are more powerful than is usually believed and have enormous influence on both the way governments structure social policy and on the decisions made by ordinary people The Invincible Family Kimberly Ells, 2023-02-14 Socialists and feminists have long targeted the family as an enemy even the enemy For socialists the family is an obstacle to the full power of the progressive state For feminists the family denies female independence and equality Today however the battle has grown even fiercer as socialists and feminists have found a global ally in the United Nations which is using its extraordinary power to undercut the authority and the sanctity of the family around the world even in the United States International policy advisor Kimberly Ells exposes this unholy alliance between globalist liberals feminists and socialists and unveils the shocking harm being done right now to women and children in America and around

the world Amazon com Netflix, Dark Fantastic Genres and Intergenerational Viewing Djoymi Baker, Jessica Balanzategui, Diana Sandars, 2023-07-04 Focusing on Netflix's child and family orientated platform exclusive content this book offers the first exploration of a controversial genre cycle of dark science fiction horror and fantasy television under Netflix's Family Watch Together TV tag Using a ground breaking mix of methods including audience research interface and textual analysis the book demonstrates how Netflix is producing dark family telefantasy content that is both reshaping child and family friendly TV genres and challenging earlier broadcast TV models around child appropriate family viewing It illuminates how Netflix encourages family audiences to watch together through intergenerational dynamics that work on and offscreen The chapters in this book explore how this Netflixication of family television developed across landmark examples including Stranger Things A Series of Unfortunate Events The Dark Crystal Age of Resistance and even Squid Game The book outlines how Netflix is consolidating a new dark family terrain in the streaming sector which is unsettling older concepts of family viewing leading to considerable audience and critical confusion around target audiences and viewer expectations This book will be of particular interest to upper level undergraduates graduates and scholars in the fields of television studies screen genre studies childhood studies and cultural studies Family David Cheal, 2003 This international collection features the most influential scholarship published during the past few decades on the concept of the family and related issues An invaluable resource for students and researchers alike the four volumes cover the following themes Vol 1 Family Groups Vol 2 Family and Gender Issues Vol 3 Family Ties Vol 4 Family and Society The scope offers an international range of material and includes key work from the USA Europe Canada Australia and Asia The English Family 1450 - 1700 Ralph A. Houlebrooke, 2014-06-11 The history of the family has become the source of lively controversy and Ralph Houlebrooke's study has made a major contribution to the debate Thorough investigations reveal the attitudes and aspirations of all levels of society set within economic political and religious contexts and developments within the period The Family: Change or Continuity? Faith Robertson Elliot, 1986-10-27 Faith Elliot's book has a coherence unusual in a textbook As its title suggests it directs our attention to change and continuity in the family It reviews debates about the biological origins of the nuclear family and gender roles accounts of the development of the conjugal family as the dominant family form in modern Western societies and of change in the roles of men and women within and without the family the remodelling of the conjugal family consequent on the legitimization of divorce and the emergence of one parent families and remarriage families and the development of alternative lifestyles as exemplified in unmarried cohabitation same sex pairings and group living The book considers Marxist and feminist approaches alongside the functional approaches which have been more traditional in the sociological study of the family **The Family in Question** Diana Gittins, 2017-03-01 After a decade of Thatcherism rising illegitimacy and the moral panic over child sexual abuse the family is more of a political issue than ever But is it the family that is in crisis or family ideology In this revised edition of an important and controversial book Diana Gittins adds to a broad

range of historical anthropological and feminist evidence a new chapter on child sexual abuse **Philosophical Foundations of Children's and Family Law** Elizabeth Brake, Lucinda Ferguson, 2018-03-02 This volume brings together new essays in law and philosophy on a broad range of topics in children's and family law It is the first volume to bring together essays by legal scholars and philosophers for an integrated critical analysis of key issues in this area marking the coming of age of a comparatively new field of family law Debates in children's and family law are at once theoretical and empirical in nature Not only does children's and family law have significant consequences for individuals' intimate lives the field's impact on lived experience highlights the socially constructed nature of law Approaching this area of law often involves exploring a legal concept familiar from daily life such as the very notion of marriage or family and examining it within its social economic and historical context The normative basis for law regulating intimate personal and family life extends beyond any narrow legal philosophy or social context to its broader foundations in theories of morality or justice The chapters included bring together a representative and broad range of pieces that engage with long standing and contemporary debates A wide range of perspectives is represented on topics such as same sex marriage polygamy and polyamory alimony unmarried cohabitation gestational surrogacy and assisted reproductive technologies child support parental rights and responsibilities children's rights family immigration religious freedom and the rights of paid caregivers There is also philosophical discussion of concepts such as care intimacy and the nature of family and family law itself

Family Politics Paul Ginsborg, 2014-01-01 An exploration of the convulsive history of the 20th century's first five decades seen through the lens of families and family life In this masterly twentieth century history Paul Ginsborg places the family at center stage a novel perspective from which to examine key moments of revolution and dictatorship His groundbreaking book spans 1900 to 1950 and encompasses five nation states in the throes of dramatic transition Russia in revolutionary passage from Empire to Soviet Union Turkey in transition from Ottoman Empire to modern Republic Italy from liberalism to fascism Spain during the Second Republic and Civil War and Germany from the failure of the Weimar Republic to the National Socialist state Ginsborg explores the effects of political upheaval and radical social policies on family life and in turn the impact of families on revolutionary change itself Families he shows do not simply experience the effects of political power but are themselves actors in the historical process The author brings human and personal elements to the fore with biographical details and individual family histories along with a fascinating selection of family photographs and portraits From WWI an indelible backdrop and imprinting force on the first half of the twentieth century to post war dictatorial power and family engineering initiatives to the conclusion of WWII this book shines new light on the profound relations among revolution dictatorship and family **The Family in the Modern Age** Brigitte Berger, 2017-12-02 Many argue that the modern family is an anachronistic institution whose demise is only a question of time Looking to the family's future the eminent sociologist Brigitte Berger argues that despite being weakened and embattled the family will survive as a

fundamental social institution The family has been the cradle of the modern social order for some three hundred years and will remain the basis for any society concerned with happiness liberty equality and prosperity for all its members Rather than being condemned to the dust heap of history or becoming a simple lifestyle choice the modern family has a number of enduring strengths that will ensure its survival In *The Family in the Modern Age* Berger focuses on four major areas of concern First she demonstrates that the short shrift given to the institutional dimension of the family misrepresents the importance and the role of the family today Second she documents the close cognitive fit between core elements of the modern family and the stability of modern society and argues that any society that ignores this connection does so at its own peril Third Berger investigates the degree to which currently identified problems may endanger the modern family's vital individual and social functions And finally she develops reasonable projections of the future of the family that will be core elements contributing to the creation of a politically democratic and economically prosperous world Berger takes a long range view of the career of the conventional family in the twentieth century Her perspective is distinctly different from that widespread in scholarly literature today She takes account of recent demographic shifts in behavior relating to sexuality marriage family structure and values relationships and family functions Berger considers hotly contested contemporary issues relating to the family gay marriage divorce abortion women and work issues of child care among others But *The Family, Politics, and Social Theory (RLE Social Theory)* D.H.J. Morgan, 2014-08-13 This book explores and clarifies all the major issues and developments within family theorising It covers the extraordinary growth and variety of approaches to the family over the last decade the most significant being the impact of feminism and the professional and state intervention into the family through marital and family therapy The author focuses on the growth of family counselling giving a detailed analysis of the Home Office publication *Marriage Matters* He looks at the rapid growth of historical studies of the family European theoretical developments the work of the Rapoport the role of systems theorising and phenomenological and critical approaches to the family He shows the relevance of family theorising for contemporary debates about the state of marriage and the family and argues for the centrality of family themes within wider sociological debates *The Family Handbook* Herbert Anderson, 1998-01-01 This encyclopedic volume brings clarity and focus to a multitude of family issues The expert contributors deal with practical and important questions thereby providing information of significant usefulness to social workers therapists lawyers ministers and health care professionals Those who work with families will learn new techniques and see their efforts in a larger context An extensive directory of family resources provides the reader with helpful and practical information The *Family Culture and Religion* series offers informed and responsible analyses of the state of the American family from a religious perspective and provides practical assistance for the family's revitalization *Family Fictions* Christopher Flint, 2002-02 By revealing the investment of eighteenth century British prose fiction in contemporary debates about domestic ideology this book addresses the multiple ways in which traditional notions of the

family were estranged reconstituted as novel concepts and then finally presented as national social norms It focuses on works by Aphra Behn Daniel Defoe Samuel Richardson Eliza Haywood Horace Walpole Laurence Sterne and Mary Wollstonecraft addressing a number of narratives that historians of the novel have overlooked while linking such better known works as Robinson Crusoe and Pamela to their often neglected sequels Challenging competing critical claims that the household either experienced a revolution in form or that it remained essentially unchanged the author argues that eighteenth century writers employed a set of complementary strategies to refashion the symbolic and affective power of bourgeois domesticity Whether these writers regarded the household as a supplement to such other social institutions as the Church or the monarchy or as a structure resisting these institutions they affirmed the family's central role in managing civil behavior At a time however when the middle class was beginning to scrutinize itself as a distinct social entity its most popular form of literature reveals that many felt alienated from the most intimate and yet explosive of social experiences family life Prose fiction sought to channel these disturbingly fluid domestic feelings yet was in itself haunted by the specter of unregulated affect Recovering the period's own disparate perceptions of household relations the book explains how eighteenth century British prose fiction which incorporates elements from conduct books political treatises and demographic material used the family as an instrumental concept in a struggle to resolve larger cultural tensions at the same time it replicated many of the rifts within contemporary family ideology

Family Transformation Through Divorce and Remarriage Margaret Robinson, 2003-09-02 Family Transformation Through Divorce and Remarriage is the first book to look thoroughly at the complete divorce remarriage stepfamily cycle in the context of demographic data the legal process and the theoretical framework For each phase of the cycle the author describes the stages of development summarises the relevant research and illustrates the effects on family members with case examples

The Roman Family Suzanne Dixon, 1992-04 Brings together what historians anthropologists and philologists have learned about the family in ancient Rome Among the topics family relations and the law marriage children in the Roman family and the family through the life cycle Annotation copyrighted by Book News Inc Portland OR

The Fragmenting Family Brenda Almond, 2008-08-28 Brenda Almond throws down a timely challenge to liberal consensus about personal relationships She maintains that the traditional family is fragmenting in Western societies causing serious social problems She urges that we reconsider our attitudes to sex and reproduction in order to strengthen our most important social institution the family

The Family and Family Relationships, 1500-1900 Rosemary O'Day, 1994-10-26 While historians have written with ease about the state and the church the family has so far defied historical analysis As the primary cell of human social organisation upon which both state and church depend it is of crucial importance In this concise informative and stimulating book Rosemary O Day seeks to explain the difficulties facing the historian of the family and to suggest strategies for their solution She compares families and households in time space and economy over the period 1500 1914 and draws together the important existing work

Family and Kinship in England 1450-1800 Will Coster, 2016-06-10 *Family and Kinship in England 1450 1800* guides the reader through the changing relationships that made up the nature of family life from the late medieval period to the beginnings of industrialisation It gives a clear introduction to many of the intriguing areas of interest that this field of history has opened up including childhood youth marriage sexuality and death This book introduces the elements that made up family life at different stages of its development from creation to dissolution and traces the degree to which family life in England changed throughout the early modern period It also provides a valuable synthesis of the debates and research on the history of the family highlighting the different ways historians have investigated the topic in the past This new edition has been fully updated to incorporate the latest research on urban communities emotions and interactions between the family and the parish town and state Supported by a range of compelling primary source documents a glossary of terms a chronology and a who's who of key characters this is an essential resource for any student of the history of the family

Decoding **Subversive Family**: Revealing the Captivating Potential of Verbal Expression
