Wagner, Jeremi Szaniawski, Michael Cramer, 2022-01-14 Frederic Jameson and Film Theory is the first collection of its kind it assesses and critically responds to Fredric Jameson's remarkable contribution to film theory The essays assembled explore key Jamesonian concepts such as totality national allegory geopolitics globalization representation and pastiche and his historical schema of realism modernism and postmodernism considering in both cases how these can be applied revised expanded and challenged within film studies Featuring essays by leading and emerging voices in the field the volume probes the contours and complexities of neoliberal capitalism across the globe and explores world cinema's situation within these forces by deploying and adapting Jamesonian concepts and placing them in dialogue with other theoretical paradigms The result is an innovative and rigorously analytical effort that offers a range of Marxist inspired approaches towards cinemas from Asia Latin America Europe and North America in the spirit of Jameson's famous rallying cry always historicize

Theory in Social and Cultural Anthropology R. Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why if you will In response SAGE Reference plans to publish the two volume *Theory in Social and Cultural Anthropology An Encyclopedia* Features Benefits Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory both in terms of breadth and depth of coverage To ease navigation between and among related entries a Reader's Guide groups entries thematically and each entry is followed by Cross References In the electronic version the Reader's Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion **Systems from Hell** David A. Rochefort, 2024-12-01 This book approaches contemporary fiction as a medium for policy advocacy one whose narrative devices both link it to and distinguish it from other forms of public discourse Using the framework of political agenda setting

David A Rochefort analyzes the rhetorical function of problem definition played by literary works when they document and characterize social issues while sounding the call for systemic reform Focusing on a group of noteworthy realist novels by American authors over the past twenty years this study maintains that fictional narrative is a potentially influential instrument of empathic policy argument The book closes by examining the agenda setting dynamics through which a social problem novel can contribute to the process of policy change

Periodizing Jameson Phillip E. Wegner, 2014-06-30 For a half century the American intellectual Fredric Jameson has been a driving force in literary and cultural theory In *Periodizing Jameson* Phillip E Wegner builds upon Jameson's unique dialectical method to demonstrate the value of Jameson's tools periodization the fourfold hermeneutic and the Greimasian semiotic square among others and to develop virtuoso readings of Jameson's own work and the history of the contemporary American university in which it unfolds Wegner shows how Jameson's work intervenes in particular social cultural and political situations using his scholarship both to develop original explorations of nineteenth century fiction popular films and other prominent theorists and to examine the changing fortunes of theory itself In this way *Periodizing Jameson* casts new light on the potential of and challenges to humanist intellectual work in the present

John Barth and Postmodernism Berndt Clavier, 2007 John Barth's eminence as a postmodernist is indisputable However much of the criticism dealing with his work is prompted by his own theories of exhaustion and subsequent replenishment leaving his writing relatively untouched by theories of postmodernism in general This book changes that by focusing on the relationship between Barth's aesthetic and the ideology critique of the historical avant gardes which were the first to mobilize art against itself and its institutional practices and demands Examining Barth's metafictional parodies in the light of theories of space and subjectivity Clavier engages the question of ideology critique in postmodernism by offering the montage as a possible model for understanding Barth's fiction In such a light postmodernism may well be perceived as a mimesis of reality particularly a recognition of the collective nature of self and the world

Interpretation in Political Theory Clement Fatovic, Sean Noah Walsh, 2016-09-13 Theorists interested in learning more about any given interpretive approach are often required to navigate a dizzying array of sources with no clear sense of where to begin The prose of many primary sources is often steeped in dense and technical argot that novices find intimidating or even impenetrable *Interpretation in Political Theory* provide students of political theory a single introductory reference guide to major approaches to interpretation available in the field today Comprehensive and clearly written the book includes A historical and theoretical overview that situates the practice of interpretation within the development of political theory in the twentieth century Chapters on Straussian esotericism historical approaches within the Cambridge School of interpretation materialist approaches associated with Marxism the critical approaches associated with varieties of feminism Greimasian semiotics Foucaultian genealogy the negative dialectics of Theodor Adorno deconstruction as exemplified by Jacques Derrida and Paul de Man and Lacanian psychoanalysis An exposition of the theoretical and disciplinary background

of each approach the tools and techniques of interpretation it uses its assumptions about what counts as a relevant text in political theory and what it considers to be the purpose or objective of reading in political theory A reading of Thomas Hobbes's *Leviathan* to illustrate how each approach can be applied in practice A list of suggestions for further reading that will guide those interested in pursuing more advanced study An invaluable textbook for advanced undergraduates graduate students and even seasoned scholars of political theory interested in learning more about different interpretive approaches

Consciousness and the Neoliberal Subject Jon Bailes, 2020-04-08 *Consciousness and the Neoliberal Subject* outlines a theory of ideological function and a range of ideological positions according to which individuals rationalise and accept socio economic conditions in advanced consumer capitalist societies Through a critical examination of the social and psychoanalytic theories of Herbert Marcuse Fredric Jameson and Slavoj Žižek the author extends the understanding of ideology to consider not only the unconscious attachment to social relations but also the importance of conscious rationalisation in sustaining ideologies In this way the book defines different ideologies today in terms of the manner in which they conditionally internalise a dominant neoliberal rationality and considers the possibility that entrenched social norms may be challenged directly through conscious engagement It will appeal to scholars of social and political theory with interests in ideology neoliberalism psychoanalytic thought and critical theory

Modern Criticism and Theory Nigel Wood, David Lodge, 2014-06-11 This third edition of *Modern Criticism and Theory* represents a major expansion on its previous incarnations with some twenty five new pieces or essays included This expansion has two principal purposes Firstly in keeping with the collection's aim to reflect contemporary preoccupations the reader has expanded forward to include such newly emergent considerations as ecocriticism and post theory Secondly with the aim of presenting as broad an account of modern theory as possible the reader expands backwards to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx Freud and Virginia Woolf This radical expansion of content is prefaced by a wide ranging introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories *Modern Criticism and Theory* has long been regarded as a necessary collection Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today

Jesse Ramírez,2022-04-15 After the end the world will be un American This speculation forms the nucleus of Un American Dreams a study of US apocalyptic science fiction and the cultural politics of disimagined community in the short century of American superpower 1945 2001 Between the atomic attacks on Hiroshima and Nagasaki which helped to transform the United States into a superpower and initiated the Cold War and the terrorist attacks on the World Trade Center and the Pentagon which spelled the Cold War s second death and inaugurated the War on Terror apocalyptic science fiction returned again and again to the scene of America s negation During the American Century to imagine yourself as American and as a participant in a shared national culture meant disimagining the most powerful nation on the planet Un American Dreams illuminates how George R Stewart Philip K Dick George A Romero Octavia Butler and

Roland Emmerich represented the impossibility of reforming American society and used figures of the end of the world as speculative pretexts to imagine the utopian possibilities of an un American world The American Century was simultaneously a closure of the path to utopia and an escape route into apocalyptic science fiction the underground into which figures of an alternative future could be smuggled **On the Theory and History of Ideological Production** Malcolm K.

Read,2023-08-28 On the Theory and History of Ideological Production promotes the existence of an ideological unconscious understood primarily as a product of social relations not of the Ideological State Apparatus Attention focuses upon the transition from feudalism to capitalism as theorised by the Spanish Marxist and former student of Althusser Juan Carlos Rodriguez Theorization of the ideological unconscious presupposes a change of terrain from the individual society opposition to a problematic based on the social formation The present text assesses Rodriguez s work alongside that of his contemporaries Fredric Jameson Noam Chomsky Terry Eagleton Roy Bhaskar Slavoj i ek and others **Immanent Critiques** Martin

Jay,2023-10-17 Fifty years after the appearance of The Dialectical Imagination his pioneering history of the Frankfurt School Martin Jay reflects on what may be living and dead in its legacy Rather than treating it with filial piety as a fortress to be defended he takes seriously its anti systematic impulse and sensitivity to changing historical circumstances Honouring the Frankfurt School s practice of immanent critique he puts critical pressure on a number of its own ideas by probing their contradictory impulses Among them are the pathologization of political deviance through stigmatizing authoritarian personalities the undefended theological premises of Walter Benjamin s work and the ambivalence of its members analyses of anti Semitism and Zionism Additional questions are asked about other time honored Marxist themes the meaning of alienation the alleged damages of abstraction and the advocacy of a politics based on a singular notion of the truth Rather however than allowing these questions to snowball into an unwarranted repudiation of the Frankfurt School legacy as a whole the essays also acknowledge a number of its still potent arguments They explore its neglected but now timely analysis of racket society Adorno s dialectical reading of aesthetic sublimation and the unexpected implications of Benjamin s focus on the corpse for political theory Jay shows that it is a still evolving theoretical tradition which offers resources for the understanding of and perhaps even practical betterment of our increasingly troubled world **Contemporary Visual**

Style Daniel Hartley, 2016-09-27 This book develops a Marxist theory of literary style The first part explains why Raymond Williams Terry Eagleton and Fredric Jameson came to see style as central to political criticism It delineates the historical and conceptual preconditions for the emergence of a politics of style and uncovers an underground current of stylistics within the Marxist tradition from Marx to Barthes The second part sets out precisely what each thinker has written on style and demonstrates how this came to figure in their overall intellectual and political projects focusing above all on a detailed reconstruction of Williams's best known concept the structure of feeling Finally the third part sets out an independent theory of style and makes an ambitious attempt to establish it as a foundational element of a new Marxist poetics **Cognitive**

Fictions Joseph Tabbi, 2002 The first comprehensive look at the effect of new technologies on contemporary American fiction Bringing together cognitive science and literary analysis to map a new media ecology Cognitive Fictions limns an evolutionary process in which literature must find its place in an artificial environment partly produced and thoroughly mediated by technological means Joseph Tabbi provides a penetrating account of a developing consciousness emerging from the struggle between print and electronic systems of communication Central to Tabbi's work is the relation between the arrangement of communicating modules that cognitive science uses to describe the human mind and the arrangement of visual verbal and aural media in our technological culture He looks at particular literary works by Thomas Pynchon Richard Powers David Markson Lynne Tillman Paul Auster and others as both inscriptions of thought consistent with distributed cognitive models and as self creations out of the media environment The first close reading of contemporary American writing in the light of systems theory and cognitive science Cognitive Fictions makes needed sense of how the moment by moment operations of human thought find narrative form in a world increasingly defined by competing and often incompatible representations
