discovered I wasn't using all the talents that God created within me. These hidden talents are the seeds to our financial and business success. The Lord revealed to me that I should be living in God's economy of abundance and that my finances are not meant to be tied to the world's economic system. I was challenged to transform the way I think and learn to apply the principles of abundance in generating a 30 fold, 60 fold and 100 fold return. Once my eyes were opened to this revelation the Lord began to reveal opportunities to me. For further details visit my web site at [www.harvestwells.com](http://www.harvestwells.com). This is a bold project recording the lives of a particular group of Southeast Asians. Most of the people whose biographies are included here have settled down in the ten countries that constitute the region. Each of them has either self-identified as Chinese or is comfortable to be known as someone of Chinese ancestry. There are also those who were born in China or elsewhere who came here to work and do business including seeking help from others who have ethnic Chinese connections. With the political and economic conditions of the region in a great state of flux for the past two centuries, it is impossible to find consistency in the naming process. Confucius had stressed that correct names make for the best relationships. In this case, Professor Leo Suryadinata has been pursuing for decades the elusive goal of finding the right name to give to the large numbers of people who have in one way or another made their homes in or made some difference to Southeast Asia. I believe that when he and his colleagues selected the biographies to be included here, they have taken a big step towards the rectification of identities for many leading personalities. In so doing, he has done us all a great service. Professor Wang Gungwu, National University of Singapore. *Family Business Law Declassified* Jim Lopez, 2016-10-19. This book, authored by three-time National Book Award winner Jim V. Lopez, helps unveil the answers to the nagging conundrum: Why do most family businesses experience a meltdown once they reach the third generation? *Family Business Law Declassified: How to Beat the Third Generation Curse* reveals numerous traps that cause family businesses to falter and eventually sink into the cesspool of irrelevance and insolvency. It also offers best practices and countervailing measures to cushion the impact of the Buddenbrooks Phenomenon, thus helping family businesses transcend the obstacles associated with the third generation. *Philippine Journal of Commerce*, 1925 **How to Build Up and Improve a Herd Or Flock** David C.
