Impact Evaluation of Quality Management in Higher Education Theodor Leiber,2020-06-29 This volume works towards overcoming the lack of systematic impact evaluation in higher education particularly analyses which are not restricted to ex post gathered data and expert assessments Since higher education is more important than ever in knowledge societies high priority should be ascribed to quality management QM in higher education institutions HEIs Consequently impact evaluation of QM effectiveness is indispensable because it generates the knowledge required for quality management improvement The introductory chapter elucidates the motivation and objective of impact analyses of QM in HEIs and provides an overview of

the volume's other contributions. One chapter reflects on success factors and unintended effects of QM while another one analyses more discursive ways of evidence informed guidance of QM policies which are complementary to rigorous impact studies. Five chapters investigate QM effectiveness in HEIs by ex post and simultaneous impact evaluation in European case studies including assessments of students, teachers, quality managers and institutional leadership. The case studies comprise universities from Germany, Spain, Finland and Romania. The final chapter reports a SWOT analysis of impact evaluation of QM in HEIs which is suggested as a tool for bridging the notorious gap between the demanding methodology of impact evaluation and its proper implementation. This book was originally published as a special issue of the European Journal of Higher Education.

Quality Improvement in Education Carl Parsons, 2017-11-01. Using case studies from the full range of educational institutions, this book originally published in 1994 provides an analytical overview of the quality debate in British education, illuminating the evolution of one of the most prevalent and forceful cultural phenomena in contemporary education at the time. Lessons are learned from quality improvement in industry and public service and the case studies show how procedural approaches like TQM, IIP and BS 5750 are being adapted to the educational context. Directed towards all involved in educational management, the book is of particular value to those responsible for initiating and monitoring quality improvement in their institutions.
