Succession To High Office:

Succession to High Office Jack Goody, 1979 **Dynastic Identity in Early Modern Europe** Liesbeth Geever, Mirella Marini, 2016-04-29 Aristocratic dynasties have long been regarded as fundamental to the development of early modern society and government Yet recent work by political historians has increasingly questioned the dominant role of ruling families in state formation underlining instead the continued importance and independence of individuals In order to take a fresh look at the subject this volume provides a broad discussion on the formation of dynastic identities in relationship to the lineage s own history other families within the social elite and the ruling dynasty Individual chapters consider the dynastic identity of a wide range of European aristocratic families including the Cro s Arenbergs and Nassaus from the Netherlands the Guises Lorraine of France the Sandoval Lerma in Spain the Farnese in Italy together with other lineages from Ireland Sweden and the Austrian Habsburg monarchy Tied in with this broad international focus the volume addressed a variety of related themes including the expression of ambitions and aspirations through family history the social and cultural means employed to enhance status the legal religious and political attitude toward sovereigns the role of women in the formation and reproduction of composite dynastic identities and the transition of aristocratic dynasties to royal dynasties In so doing the collection provides a platform for looking again at dynastic identity in early modern Europe and reveals how it was a compound of political religious social cultural historical and individual attitudes *Technology, Literacy, and the Evolution of Society* David R. Olson, Michael Cole, 2013-06-17 Inspired by the seminal work of Jack Goody a historical anthropologist specializing in the study of social structure and change *Technology Literacy and the Evolution of Society* gathers diverse perspectives of 20 distinguished historians anthropologists psychologists and educators to address the role of technologies in social stability and change in traditional and modern societies In this interdisciplinary text scholars examine the ways in which local languages and cultural traditions modes of production and communication patterns of local knowledge and authority affect how people and cultures resist or accommodate demands for such change With work from acclaimed contributors this pioneering volume is the first analysis of the influence of Jack Goody It provides a thorough look at the relations between societies of different practices customs and values determining the mechanisms behind sociocultural stability and change *Technology Literacy and the Evolution of Society* is intended for graduate students and academics in history anthropology psychology sociology and education as well as academics and all others interested in pursuing the directions and implications of the work and influence of Jack Goody **The Evolution of the Polynesian Chieftdoms** Patrick Vinton Kirch, 1989-07-13 A first study from an archaeological perspective of the elaborate systems of Polynesian chieftdoms presents an original account of the processes of cultural change and evolution over three millennia *An Illustrated History of the Holy Bible* John Kitto, 1867 *Sibling Relations and the Transformations of European Kinship, 1300-1900* Christopher H. Johnson, David Warren Sabean, 2011-03-01 Recently considerable interest has developed about the

degree to which anthropological approaches to kinship can be used for the study of the long term development of European history From the late middle ages to the dawn of the twentieth century kinship rather than declining as is often assumed was twice reconfigured in dramatic ways and became increasingly significant as a force in historical change with remarkable similarities across European society Applying interdisciplinary approaches from social and cultural history and literature and focusing on sibling relationships this volume takes up the challenge of examining the systemic and structural development of kinship over the long term by looking at the close inner familial dynamics of ruling families the Hohenzollerns cultural leaders the Mendelssohns business and professional classes and political figures the Gladstones in France Italy Germany and England It offers insight into the current issues in kinship studies and draws from a wide range of personal documents letters autobiographies testaments memoirs as well as genealogies and works of art

Dynasties Jeroen Duindam, 2016 A vibrant and broad ranging study of dynastic power in the late medieval and early modern world

Rome, the Greek World, and the East Fergus Millar, 2003-01-14 Fergus Millar is one of the most influential contemporary historians of the ancient world His essays and books including *The Emperor in the Roman World* and *The Roman Near East* have enriched our understanding of the Greco Roman world in fundamental ways In his writings Millar has made the inhabitants of the Roman Empire central to our conception of how the empire functioned He also has shown how and why Rabbinic Judaism Christianity and Islam evolved from within the wider cultural context of the Greco Roman world Opening this collection of sixteen essays is a new contribution by Millar in which he defends the continuing significance of the study of Classics and argues for expanding the definition of what constitutes that field In this volume he also questions the dominant scholarly interpretation of politics in the Roman Republic arguing that the Roman people not the Senate were the sovereign power in Republican Rome In so doing he sheds new light on the establishment of a new regime by the first Roman emperor Caesar Augustus

The Logic of the Laws David S. Moyer, 2012-12-11 This study is directed towards providing basic background material for the understanding of South Sumatran social organisation To this end four legal codes from the first half of the nineteenth century are presented and analysed The method used in the analysis is a modification of that used by Levi Strauss for the analysis of myth The author concludes by stating Out of these detailed analyses the most significant phenomenon to emerge is the fact that a relatively small number of formal properties are distributed through a large number of structures within a single legal code and because of their formal similarities these structures are mutually reinforcing

A. Bayly, Walter Scheidel, 2020-12-02 This is the first world history of empire reaching from the third millennium BCE to the present By combining synthetic surveys thematic comparative essays and numerous chapters on specific empires its two volumes provide unparalleled coverage of imperialism throughout history and across continents from Asia to Europe and from Africa to the Americas Only a few decades ago empire was believed to be a thing of the past now it is clear that it has been and remains one of the most enduring forms of political organization and power We cannot understand the dynamics and resilience of empire without moving decisively beyond the study of individual cases or particular periods such as the relatively short age of European colonialism The history of empire as these volumes amply demonstrate needs to be drawn on the much broader canvas of global history Volume Two The History of Empires tracks the protean history of political domination from the very beginnings of state formation in the Bronze Age up to the present Case studies deal with the full range of the historical experience of empire from the realms of the Achaemenids and Asoka to the empires of Mali and Songhay and from ancient Rome and China to the Mughals American settler colonialism and the Soviet Union Forty five chapters detailing the history of individual empires are tied together by a set of global synthesizing surveys that structure the world history of empire into eight chronological phases *An Introduction to the Critical Study and Knowledge of the Holy Scriptures: A summary of biblical geography and antiquities, 10th ed., rev., corr., and brought down to the present time* Thomas Hartwell Horne, 1856 **Congressional Record** United States.
