Techniques of Description Gwyneth Fox, Michael Hoey, John M. Sinclair, 2004-01-14 This book is a tribute to Malcolm Coulthard who has been remarkably active and influential across a wide range of English Language Studies. He is particularly well known for his pioneering work in spoken and written discourse analysis and most recently for his work in forensic linguistics. This collection of specially commissioned state of the art pieces by leading international linguists is dedicated to the man and his achievements and provides a showcase for the most exciting developments in applied discourse studies. All the papers share common assumptions about language study that descriptions should be data based, data tested and replicable. The collection as a whole contains original and important new research on descriptions with intriguing applications to forensic, gender and literary studies.
