Technological Resources And The Logic Of Corporate Diversification:

Technological Resources and the Logic of Corporate Diversification Brian S. Silverman, 2002 **Technological Resources & the Logic of Corporate Diversification**, 2002 Creativity, Innovation and the Cultural Economy Andy C. Pratt, Paul Jeffcutt, 2009-03-09 This collection brings together international experts from different continents to examine creativity and innovation in the cultural economy In doing so the collection provides a unique contemporary resource for researchers and advanced students As a whole the collection addresses creativity and innovation in a broad organizational field of knowledge relationships and transactions In considering key issues and debates from across this developing arena of the global knowledge economy the collection pursues an interdisciplinary approach that encompasses Management Geography Economics Sociology and Cultural Studies Public Policy for Regional Development Jorge Martinez-Vazquez, Francois Vaillancourt, 2008-05-20 This book draws on the expertise of both North American and European specialists of regional economics evaluating the impact of economic policy in certain regions and considering alternative policies to foster regional economic development and improve the employment and income of the residents of these regions Martinez Vazquez and Vaillancourt hav **Dynamic Capabilities Between Firm Organisation and Local Systems of Production** Riccardo Leoncini, Sandro Montresor, 2007-12-21 Changes in technology and demand require firms to learn how to continuously reshape unique and non imitable resources and competences A firm s capacity to achieve this is captured by the concept of dynamic capabilities This book offers an analysis of how firms manage to reconfigure their pool of idiosyncratic resources skills and competencies to Local Industrial Clusters Thomas Brenner, 2004-08-02 This book takes the approach that all local economic clusters have something in common It does this by putting specific case studies into a wider perspective Innovation, Knowledge and Power in Organizations Theodora Asimakou, 2009-01-13 This book examines discourses of knowledge and innovation in post industrial societies and knowledge based organizations The author investigates the value of knowledge and the question of innovation management in a fully commercial environment for a technology company In contrast with most of the mainstream approaches to knowledge and innovation management this volume chooses as its starting point a critical examination of these assumptions before proceeding with further suggestions on how to manage knowledge Using brand new empirical research the author argues for the significance of addressing the political games and power struggles enacted in managing innovation processes which result from the opportunity certain groups seek to acquire or extend their control over valuable resources Again in contrast to mainstream approaches that reduce power to the ability of individuals to negotiate in order to promote their ideas the analysis adopts an extended view on power and seeks to reveal the ambiguities and challenges of innovation management This work will be of most interest to researchers and students of knowledge and innovation management namely postgraduates and second degree students as well as managers in knowledge based organisations Competitiveness of New Industries Cornelia Storz, Andreas

Moerke,2014-04-08 Many recent books on information and communication technologies concentrate on individual country experiences or neglect to analyze political factors in conjunction with entrepreneurial ones This book the result of an international research project comprises a comprehensive comparison of three key countries Japan the United States and Germany The book adopts an institutional approach **Entry and Post-Entry Performance of Newborn Firms** Marco Vivarelli,2007-05-07 Entry and Post Entry Performance of Newborn Firms focuses on newborn firms analyzing the determinants of entry survival and post entry performance Written by a world leading expert on industrial dynamics whose previous book The Employment Impact of Innovation was very popular this book examines the policy implications of the differing motivations underlying the decision to start a new firm This groundbreaking book will be of use to economists with an interest in Europe as well as students and researchers across industrial economics management and entrepreneurial studies **Epistemic Economics and Organization** Anna Grandori,2013-04-26 This book proposes a new approach to economics management and organization that should help in making economic organization wise innovative and robust in an uncertain and risky world Although the modern economy and society is knowledge intensive Anna Grandori argues that the dominant economic organizational and behavioural models neglect to a large extent the problem of valid knowledge construction and effective knowledge governance The book integrates inputs from economics and behavioural science with insights from the philosophy of knowledge to define new micro foundations neither a calculative deductive and omniscient rational actor nor an experiential adaptive and biased behavioural actor but a knowledgeable and imaginative epistemic actor The implications for contracts and organizations sustained also by insights from law are shown to be far reaching including a new view of the nature of the firm as an entity establishing agreement under which to discover uses of resources under uncertainty and as a democratic institution *Evolutionary Economic Geography* Miroslav Jovanovic,2008-10-07 The purpose of this book is to provide a guided tour through the theoretical foundations of spatial locations of firms and industries in an evolutionary economic framework It addresses the issues of how a location of business in geographical space is selected and where economic activity may re locate in the future The analysis is in the context **Entrepreneurship** Thomas Grebel,2005-10-05 The entrepreneur has been neglected over the years in formal economic theorizing Previously there has been only eclectic theories such as human capital theory and network dynamics which discuss certain perspectives of entrepreneurial behaviour This insightful book closes this gap in entrepreneurship literature Inspired by modern physics author Thomas Grebel brings together an evolutionary methodology along the way implicating quantum graph and percolation theory Here Grebel has provided a synthesis of all the main theories of entrepreneurship Taking an interdisciplinary approach to the subject this fascinating book opens up new ideas in modelling and the original thinking contained within will be of interest to all those working in the area of business and management as well as those in economics Economics of the Firm Michael Dietrich,2006-11-22 This book brings together some of the world s leading

experts to present an interdisciplinary critical perspective on current issues surrounding the economics of the firms It eschews standard approaches to the economics of the firm including analysis of transaction costs in favour of a more interdisciplinary outlook with evolutionary economics taken into account Central to this is the concept of trust and the belief that any approach to the firm must recognize cultural and political factors The chapters emphasize the themes of change and evolution and explore issues arising from the history and organization of firms An important book with contributions from Bart Nooteboom Stavros Ioannides and Werner Holzl this is an invaluable resource for postgraduate students of economics

The Economics of Structural Change in Knowledge Francesco Quatraro, 2012-03-29 This book provides an elaboration upon the concept of knowledge from an economic viewpoint However this is not a book on economics of knowledge at least not in the conventional sense Most of the existing books on the matter have focused on the treatment of knowledge in terms of properties of knowledge as an economic good incentive schemes for the creation of knowledge issues about the codified tacit nature of knowledge and the like Knowledge Economies Wilfred Dolfsma, 2008-09-03 This book makes a strong and coherent contribution to the discussion of the knowledge economy and of innovation offering a range of theoretical insights from different disciplinary perspectives The role of knowledge knowledge development and knowledge diffusion is discussed at the micro level of individuals and firms but also at the level of groups of firms and sectors as well as at the level of the economy at large Dolfsma analyses knowledge development and diffusion as a thoroughly social process depending on communicative structures to support cooperation The author combines insights from economics and management with perspectives from sociology network theory anthropology gift exchange social psychology science studies and information theory scientometrics using empirical analyses to demonstrate where knowledge impacts the dynamics of an economy

Targeting Regional Economic Development Stephan J. Goetz, Steven Deller, Tom Harris, 2009-03-25 This book addresses the growing interest in cluster and targeted economic developments reviewing the socioeconomic theoretical foundations of industry targeting and suggesting alternative methods of identifying industries for targeting **Knowledge, Innovation and Internationalisation** Piergiuseppe Morone, 2013-04-17 As firms increasingly rely on knowledge as a key factor for innovation the ability to innovate is increasingly perceived as a key asset for being competitive in international markets This new volume argues that innovation knowledge and internationalisation should be viewed as tightly related concepts It provides a stimulating and comprehensive framework for understanding key tendencies in modern economics as well as an overview of the state of the art in the three fields covered The first section explores in detail the relationship between knowledge and the innovative capability of firms focussing on key topics such as social capital intentional knowledge diffusion and unintentional knowledge spillovers Section two examines the drivers and the impact of innovation strategies assessing the role of technological advantage networking and R D investments in innovation as well as the impact on innovation on the labour market The third and final section examines the ongoing internationalisation process faced by global

economies The topics explored in each section are tightly linked ensuring that a strong thematic thread runs through the collection

The Communications Industries in the Era of Convergence Catherine E. A. Mulligan, 2013-03-01 This book provides a unique view of the evolution of these industries drawing out how technology and economic forces have worked together to create platforms around which different companies interact Through identifying the key aspects of this evolution over the past decades the author is able to put forward a unique view of the emerging industrial structure of the communications industries the formation of an Information Driven Global Commodity Chain one that holds both incredible promise and challenges for our world

Innovation in Complex Social Systems Petra Ahrweiler, 2010-04-05 Innovation is the creation of new technologically feasible commercially realisable products and processes and if things go right it emerges from the ongoing interaction of innovative organisations such as universities research institutes firms government agencies and venture capitalists Innovation in Complex Social Systems uses a hard science approach to examine innovation in a new way Its contributors come from a wide variety of backgrounds including social and natural sciences computer science and mathematics Using cutting edge methodology they deal with the complex aspects of socio economic innovation processes Its approach opens up a new paradigm for innovation research making innovation understandable and tractable using tools such as computational network analysis and agent based simulation This book of new work combines empirical analysis with a discussion of the tools and methods used to successfully investigate innovation from a range of international experts and will be of interest to postgraduate students and scholars in economics social science innovation research and complexity science

The Changing Economic Geography of Globalization Giovanna Vertova, 2006-04-20 The process of globalization has had profound often destabilizing effects on space at all levels i e local regional national international This revealing book analyzes both theoretically and empirically the effects of globalization over space It considers through a dialogue among different paradigms the ways in which space has become more important in the global economy Globalization has been advocated as a way of shrinking time and space which will lead to a homogenized global market a suggestion challenged in differing ways and with a variety of approaches by all the contributors to this volume Leading authorities from a range of disciplines are represented amongst this impressive list of contributors including Eric Sheppard Bj rn Asheim Richard Walker and Peter Swann The chapters demonstrate persuasively the continuing and even increasing role of space in the global economy and throughout the book covers viewpoints from the fields of international political economy economic geography regional and local economics This impressive volume which contains a selection of the best in contemporary scholarship will be of interest to the international arena of academicians policy makers and professionals in these or related fields
