Technology Crossing Borders New Library Press.Net,2001-06-01 **Technology Crossing Borders** Robert Stobaugh,Louis T. Wells,1984-01-01 **Technology Transfer in International Business** Tamir Agmon,Mary Ann Young Von Glinow,1991 This is a book on the means by which technological knowledge is transferred from countries that develop it to those that need it but have not yet been able to develop it on their own The focus is on the transfer of technology from Western countries to Asian countries **Technology Crossing Borders** Michel A. Amsalem,1984 This collection of essays considers technology transfer from three critical aspects how managers choose the kind of technology they transfer internationally what channels they use under various circumstances to bring about these transfers and how they manage the complexities of the process Dust jacket **Technology Transfer** Shastri Moonan,2013-06-17 This study focuses on technology transfer in the steel mini mill industry It identifies two central issues how capacity is built and how demand is sustained developing a three dimensional perspective to bring into sharp focus the desirability and necessity of technology transfer The three dimensional perspective focuses on the changes in the marketplace for flat steel sheets the responsiveness and sensitivity to these market changes and applying the best available technology to obtain a high quality product Prior to this study technology transfer has been examined in a bivariate relationship namely how technology transfer contributed to the development process in developing countries and Newly Industrialized Countries NICs The framework formulated in this study showed that Japan was lagging behind all the steel producing countries because like the NICs it imported the physical and organizational technologies that fostered its prosperity Based on primary and secondary research this study revealed that high levels of operational efficiency and sophisticated product quality were achieved through continuous improvement culminating in Computer Integrated Manufacturing CIM consisting of Real Time Process Control On the other hand the research also revealed that China based the improvement of its steel industry on self reliance combined with judicious selection of foreign collaboration The theoretical underpinnings of the crucial issues in this study led to the development of an interactive model of technology transfer based upon stock and flow variables Managing in Developing Countries James E.
