competition law intellectual property and trade interface in a developing world context The book's unique contribution is a set of comparative case studies on this complex interface D Daniel Sokol University of Florida Levin College of Law US The book investigates competition law and international technology transfer in the light of the TRIPS Agreement and the experience of both developed and developing countries On that basis it draws relevant implications for developing countries Tu Thanh Nguyen argues that technology transfer related competition law should be globalized appropriately for the needs of local contexts while intellectual property rights IPR are globalized The book reveals that developing countries according to the TRIPS Agreement have the right to use domestic competition law to promote access to technology in order to protect national interests and consumer welfare However competition law is antitrust It is neither anti IPR nor anti trade The author finds that developing countries with limited competition law resources should set realistic priorities for the control of technology transfer related anti competitive practices They can reasonably apply and adapt relevant regulations decisions and judgments from developed country jurisdictions to their own circumstances Competition Law Technology Transfer and the TRIPs Agreement is a timely resource for postgraduate students practitioners and scholars in international competition law IPR and technology transfer Policymakers in the field of technology transfer related competition law policy especially in developing countries will also find this book invaluable
