Özbilgin, 2010-01-01 Presents an overview of empirical and conceptual developments in the study of high tech entrepreneurs from an interdisciplinary and multinational perspective This book explores various conceptual frameworks and definitions of high tech entrepreneurs and of the entrepreneurial process based on studies in different settings and contexts **Socio-Tech Innovation** Latha Poonamallee, Joanne Scillitoe, Simy Joy, 2020-04-25 This book defines

socio technological innovation and lays out different aspects of technology innovation and adoption literature as applied to socio tech innovation and entrepreneurship Socio tech innovation refers to novel solutions that involve development or adoption of technological innovations to address social and or environmental problems with a view towards creating benefit for the larger whole rather than just for the owners or investors Unlike conventional technological innovation socio tech innovation either develops a product specifically for underserved markets and adopts a model in which the market is not an afterthought but the *raison d'être* Social ventures have not been as successful in scaling up though technology innovation led ventures have therefore meaningful actionable insights that can help social ventures scale up successfully can be gleaned by this process This book offers researchers in innovation and entrepreneurship programs a unique and interdisciplinary approach to studying social innovation that is grounded in technology innovation This book features a series of socio tech venture cases that illustrate these dynamics and can be used in undergraduate and graduate courses **Entrepreneur's**

choice between Venture Capitalist and Business Angel for Start-Up Financing Daniel Schmidt, 2014-02-01 The study extends the literature on venture capital by examining whether entrepreneur's choice for an external investor and certain firm characteristics have an impact on venture success or not The focus is set on the differences in value creation by venture capitalists and business angels for ventures of the high and low technology sector The assessment of a data set including 252 Series A financing rounds by venture capitalist firms business angels and collaborative investments of both investors

conducted between 2005 and 2012 unveils value enhancing aspects for all three financing solutions Overall start ups initially financed by venture capitalist firms perform best with regard to general venture success whereas start ups collaboratively supported by venture capitalists and business angels have the highest chances to exit successfully through a trade sale It becomes further apparent that ventures located in one of the high technology industries internet pharmaceuticals and high tech ventures that are longer established in the market and ventures whose Series A financing round was executed more recently indicate an enhanced likelihood of success
