Teen Dropouts

Lesley S. J. Farmer

Teen Dropouts:

   Teen Dropouts Elizabeth Weiss Vollstadt,2000 Uses four case studies of teenagers who dropped out of high school to explain who drops out and why and to examine the economic and social consequences of such a decision   **Dropouts From Schools** Lois Weis,Eleanor Farrar,Hugh G. Petrie,1989-01-01 The authors examine the major groups within the dropout population the myriad of factors within schools that lead to dropping out and the larger social and economic context within which dropping out occurs The resulting synthesis of knowledge and perspectives provided here will enhance our understanding of an important topic that has to this time been given too little attention   Chicano School Failure and Success Richard R. Valencia,2011-02-01 The third edition of the best selling collection Chicano School Failure and Success presents a complete and comprehensive review of the multiple and complex issues affecting Chicano students today Richly informative and accessibly written this edition includes completely revised and updated chapters that incorporate recent scholarship and research on the current realities of the Chicano school experience It features four entirely new chapters on important topics such as la Chicana two way dual language education higher education and gifted Chicano students Contributors to this edition include experts in fields ranging from higher education bilingual education special education gifted education educational psychology and anthropology In order to capture the broad nature of Chicano school failure and success contributors provide an in depth look at topics as diverse as Chicano student dropout rates the relationship between Chicano families and schools and the impact of standards based school reform and deficit thinking on Chicano student achievement Committed to understanding the plight and improvement of schooling for Chicanos this timely new edition addresses all the latest issues in Chicano education and will be a valued resource for students educators researchers policy makers and community activists alike   **Confronting the School Dropout Crisis** Susan Bowman,2024-11-12 Reach out before they drop out Student dropout rates continue to soar despite decades of funding research programs and professional development initiatives This is a wakeup call Written by a former school dropout Confronting the School Dropout Crisis encourages educators and related professionals to discover and explore the sometimes unnoticed reasons that youth drop out of school With fresh strategies for prevention and intervention this critical resource includes How to reach and recover students who are at risk of dropping out or who already have Clear impactful strategies that better engage and positively impact students who are at risk Moving personal stories from teens and the author Confronting the School Dropout Crisis invites you to rethink how you address real dropout issues with young people and how to incorporate fresh approaches to better reach and positively impact these students and their caregivers before it s too late   *Teen Dropouts* Gail B. Stewart,1999 Uses four case studies of teenagers who dropped out of high school to explain who drops out and why and to examine the economic and social consequences of such a decision   *Dropping Out* Russell W. Rumberger,2012-11-19 Most kids in the developed world finish high school but not in the United States More than a million drop out every year and the

numbers are rising Dropping Out provides answers to fundamental questions Who drops out and why What happens to them when they do How can we prevent at risk kids from short circuiting their futures *Juvenile Offenders and Victims* Howard N. Snyder,Melissa Sickmund,1995 Consolidates the most requested information on juvenile offenders victims Presents statistical information in a user friendly format Bridges the gap between existing information the juvenile justice community Designed as a series of briefing papers on specific topics short sections designed to be read in isolation from other parts of the report Makes use of easy to understand graphics tables **Dropout Rates in the United States** , **Subsequent Educational Attainment of High School Dropouts** Jennifer Berktold,Sonya Geis,Phillip Kaufman,C. Dennis Carroll,National Center for Education Statistics,1998 This study uses data from the 1988 National Education Longitudinal Study and its 1994 followup to examine the educational and employment attainment of 1988 eighth graders who dropped out of high school About half of them ultimately completed high school By 1994 16% had completed a high school diploma 29% had completed a General Educational Development GED or equivalency certificate and 24% were working on a diploma or GED The remaining one third of dropouts had no credential and were not pursuing any further education High school completion among dropouts was associated with socioeconomic status Dropouts who had demonstrated academic ability although not necessarily academic performance were most likely to complete high school By 1994 2 years after most of thecohort had completed high school high school completion among dropouts was associated with some educational but few employment characteristics In 1994 most dropouts were either working looking for work or at home About the same proportion of dropouts as 1988 eighth graders who had never dropped out reported working full time or part time in 1994 but those who had never dropped out were more likely to be taking academic courses More than half of those who had never dropped out were enrolled in 2 year or 4 year postsecondary institutions About one in four dropouts had enrolled in a postsecondary institution by 1994 One appendix is a glossary and the other contains technical notes and remarks on methodology Contains 19 tables 7 figures and 12 references SLD *Teenage Drug Use* United States. General Accounting Office,1991 The study reported in this document is a follow up to earlier reviews of drugs and other youth problems It addressed the current status of and the recent trends in teenage drug use pregnancy and dropping out of school and the post 1987 research about the relationship between teenage drug use and either pregnancy or dropping out Statistics from public and private agencies were evaluated to describe trends in basic rates of these behaviors Although the data on teenage drug use displayed a downward trend reporting problems and estimating errors hindered their interpretation It seems unlikely that actual drug use has risen between 1979 and 1988 among youths overall or among individual racial or ethnic groups The 1985 data on teenage pregnancy indicated large disparities in the pregnancy birth and abortion rates for women 15 to 19 years of age while nonWhite and Hispanic teenagers appeared much more likely to become pregnant Research on dropouts indicated that teenagers were leaving school less frequently than in the past Also Black students had substantially decreased

the gap between their dropout rates and those of White students Hispanics and Native Americans continued to drop out of school at rates considerably higher than those of White or Black students **Subsequent educational attainment of high school dropouts** , Departments of Veterans Affairs and Housing and Urban Development and Independent Agencies Appropriations for Fiscal Year 1993 United States. Congress. Senate. Committee on Appropriations. Subcommittee on VA-HUD-Independent Agencies,1992 **Statistical Reference Index** ,1986 **Preventing and Caring for Low Birth Weight and Developmental Disabled Babies** United States. Congress. Senate. Committee on Governmental Affairs. Subcommittee on Federal Spending, Budget, and Accounting,1987 *Issue Brief, Course Credit Accrual and Dropping Out of High School, April 2007* ,2007 **Resources in Education** ,1997 **The Price We Pay** Clive R. Belfield,Henry M. Levin, Ph.D.,2008-07-01 While the high cost of education draws headlines the cost of not educating America s children goes largely ignored The Price We Pay remedies this oversight by highlighting the private and public costs of inadequate education In this volume leading scholars from a broad range of fields including economics education demography and public health attach hard numbers to the relationship between educational attainment and such critical indicators as income health crime dependence on public assistance and political participation They explore policy interventions that could boost the education system s performance and explain why demographic trends make the challenge of educating our youth so urgent today Improving educational outcomes for at risk youth is more than a noble goal It is an investment with the potential to yield benefits that far outstrip its costs The Price We Pay provides the tools readers need to analyze both sides of the balance sheet and make informed decisions about which policies will pay off Contributors include Thomas Bailey Teachers College Columbia University Ronald F Ferguson Harvard University Irwin Garfinkel Columbia University Jane Junn Rutgers University Brendan Kelly Columbia University Enrico Moretti UCLA Peter Muennig Columbia University Michael Rebell Teachers College Columbia University Richard Rothstein Teachers College Columbia University Cecilia E Rouse Princeton University Marta Tienda Princeton University Jane Waldfogel Columbia University and Tamara Wilder Teachers College Columbia University **Kids Count Data Book** ,1995 **Mexican Immigration to the United States** George J. Borjas,2007-11-01 From debates on Capitol Hill to the popular media Mexican immigrants are the subject of widespread controversy By 2003 their growing numbers accounted for 28 3 percent of all foreign born inhabitants of the United States Mexican Immigration to the United States analyzes the astonishing economic impact of this historically unprecedented exodus Why do Mexican immigrants gain citizenship and employment at a slower rate than non Mexicans Does their migration to the U S adversely affect the working conditions of lower skilled workers already residing there And how rapid is the intergenerational mobility among Mexican immigrant families This authoritative volume provides a historical context for Mexican immigration to the U S and reports new findings on an immigrant influx whose size and character will force us to rethink economic policy for decades to come Mexican Immigration to the United States will be necessary reading for anyone

concerned about social conditions and economic opportunities in both countries **Digital Inclusion, Teens, and Your Library** Lesley S. J. Farmer,2005-03-30 The digital divide is a disturbing reality and teens in our society increasingly fall into distinct categories of technology haves and have nots whether or not computers are available to them in the schools This trend undermines the futures of our youth and jeopardizes the vitality of our society Today s librarians are in a unique position to help bridge the gap This guide helps librarians to identify tech nots technologically disadvantaged teens in a community or school and to reach out and build information literacy in underserved teen populations Farmer goes beyond recommending computers for every teen and demonstrates how to overcome teen misperceptions and disinterest in computers After examining the problem and the populations most affected the author discusses how to build awareness and motivation train staff create space and time build the collection develop partnerships with other agencies and organizations offer services and overcome barriers with specific populations Citing benchmark programs and services from around the country Farmer offers a wealth of exciting new ways for libraries to connect with at risk teens today Grades 6 12
