Teens in Turmoil Carol Maxym, Leslie B. York, Leslie York, 2001 Examines teen culture both inside and outside of the home tells the stories of families who have become involved in downward spirals offers advice on how parents can take positive steps on behalf of their teens and themselves and includes a guide to making decisions about selecting appropriate placement programs for teens **Teen 2.0** Robert Epstein, 2010-02-24 National Indie Excellence Awards first prize in the Parenting and Family category Arguing that adolescence is an unnecessary period of life that people are better off without this groundbreaking study shows that teen confusion and hardships are caused by outmoded systems that were designed to destroy the continuum between childhood and adulthood Documenting how teens are isolated from adults and are forced to look to their media dominated peers for knowledge this discussion contends that by infantilizing young people society does irrevocable harm to their development and well being Instead parents teachers employers and others must rediscover the adults in young people by giving them authority and responsibility as soon as they exhibit readiness Teens are highly capable in some ways more than adults and this landmark discussion offers paths for reaching and enhancing the competence in America's youth *Boys and Girls Learn Differently!* Michael Gurian, 2002-02-28 At last we have the scientific evidence that documents the many biological gender differences that influence learning For instance girls talk sooner develop better vocabularies read better and have better fine motor skills Boys on the other hand have better auditory memory are better at three dimensional reasoning are more prone to explore and achieve greater abstract design ability after puberty In this profoundly significant book author Michael Gurian synthesizes the current knowledge and clearly demonstrates how this distinction in hard wiring and socialized gender differences affects how boys and girls learn Gurian presents a new way to educate our children based on brain science neurological development and chemical and hormonal disparities The innovations presented in this book were applied in the classroom and proven successful with dramatic improvements in test scores during a two year study that Gurian and his colleagues conducted in six Missouri school districts **I'm Not Crazy** I'm Not Crazy, 2010-08 Teens It isn't fair that you have depression or bipolar disorder You can continue along the same path but chances are if someone gave you this workbook that path isn't the best Working through these pages will help you understand what the heck everyone is talking about You might even see some of your behaviors and thoughts It has practical suggestions to help you cope What does it hurt to try Ultimately it is your choice to work through the issues But it's kinda nice to see that you aren't the only one to have these crazy thoughts Serving Young Teens and 'Tweens Sheila B. Anderson, 2006-11-30 Notable teen experts and stellar practitioners from across the country explain why library service to adolescents in this age range is so important and how you can enhance your collection and services to accommodate and win over this important group Topics range from understanding adolescent informational needs and building and promoting a winning collection to creating programs with tween appeal Contributors include Sheila B. Anderson James Rosinia Deb Taylor

Robyn Lupa and Kristine Mahood Brimming with valuable insights and fresh ideas as well as nuts and bolts directions this is a must read for all librarians who work with young adolescents If someone is described as a young adult what image comes to mind In fact a young adult can be a twelve year old middle schooler or a high school graduate Libraries have traditionally offered a variety programs and services for YAs and although more emphasis has been given to serving teens in recent years little has been done to distinguish between groups within the category and meet the specific developmental needs of this broad range of library users This collection complements Anderson s previous collection *Serving Older Teens* by focusing on the needs of tweens and young teens ages 11-14 This is the age range when many young people stop using the library and lose interest in reading Notable teen experts and stellar practitioners from across the country explain why service to adolescents in this age range is so important and how you can enhance your collection and services to accommodate and win over this important group Topics range from understanding adolescent informational needs and building and promoting a winning collection to creating programs with tween appeal Contributors include Sheila Anderson James Rosinia Deb Taylor Robyn Lupa Brenda Hager and Kristine Mahood Brimming with valuable insights and fresh ideas as well as nuts and bolts directions this is a must read for all librarians who work with young adolescents
