Teilhard's Mass:

Teilhard's Mass Thomas Mulvihill King, 2005 Essays by Teilhard de Chardin on the text of the Mass of the World from his work *The Divine Milieu* **Loving Creation** Kathleen Fischer, 2009-11-02 How can we bring about the profound conversion of mind and heart necessary to protect and preserve our planet at this critical point in history *Loving Creation* shows that only when we are touched by God will we find new ways of relating to all other species and the Earth itself Rich in tradition the book draws from ancient and contemporary sources to fashion a holistic Christian spirituality that unites ecological concerns with social justice personal struggles with those of the planet theological reflection with scientific findings and everyday grace with global outreach *Teilhard's Mysticism* Duffy, Kathleen, 2014-06-30 Pierre Teilhard de Chardin 1881 1955 a French Jesuit priest and scientist charted a new path in reconciling Christian theology with evolutionary science Here a theologian scientist examines Teilhard's mysticism showing how science can illuminate the mystical path while also demonstrating the compatibility between Teilhard's thought and current frontiers in scientific exploration **Teilhard de Chardin on the Eucharist** Savary, Louis M., 2021 Reinterprets and reenvision traditional Eucharistic theology and related prayer forms to fit an evolving universe and introduces some of Teilhard's evolutionary perspectives showing how the Eucharist is a living symbol of the ongoing incarnation or transubstantiation of the entire cosmos **Full of Your Glory** Teresa Berger, 2019-12-05 2020 Catholic Press Association honorable mention award for faith and science This collection of essays explores the rich and diverse intersections between the world of liturgy and the worlds of creation and the cosmos The intersections highlighted here include biblical historical visual and musical materials as well as contemporary theological and pastoral challenges for worship today The essays gathered in this volume were first presented at the 2018 Yale Institute of Sacred Music Liturgy Conference and are here made available to a wider audience These essays are responses to the unprecedented attention to ecological and cosmological concerns which call for sustained engagement by scholars and practitioners of liturgy **Thomas Aquinas and Teilhard de Chardin** Donald J. Goergen, 2022-10-21 In an increasingly divided and secularized world in an age of unbelief we yearn for increased unity for a sense of the transcendent for a humanism that does not force one to choose between God and the world This humanism requires an integration of ancient wisdom with modern learning or one might say faith and reason religion and science Christology and cosmology As the Gospel of Matthew puts it the sage goes into the storehouse to bring out both something old and something new To this Christian humanism both Thomas Aquinas and Pierre Teilhard de Chardin have significant contributions to make One is not forced to choose between them but rather to see in these two visionaries one medieval one modern complementary insights One philosophically precise the other scientifically trained they challenge us to look again at our search for wholeness for holiness Can we see something of what they saw Can we seek something of what they sought **Teilhard de Chardin on Love** Louis M. Savary, Patricia H. Berne, 2017 The authors offer a first summary of Teilhard's thoughts on love a central

element in his evolutionary spirituality presented in accessible language for the ordinary reader They explore the implications of Teilhard's evolutionary perspective on love as it affects friendships marriages parent child relationships and teams larger groups

Mysticism in the French Tradition Louise Nelstrop,Bradley B. Onishi,2016-03-09 In the nineteenth and early twentieth centuries secular French scholars started re-engaging with religious ideas particularly mystical ones Mysticism in the French Tradition introduces key philosophical undercurrents and trajectories in French thought that underpin and arise from this engagement as well as considering earlier French contributions to the development of mysticism Filling a gap in the literature the book offers critical reflections on French scholarship in terms of its engagement with its mystical and apophatic dimensions A multiplicity of factors converge to shape these encounters with mystical theology feminist devotional and philosophical treatments as well as literary historical and artistic approaches The essays draw these into conversation Bringing together an international and interdisciplinary range of contributions from both new and established scholars this book provides access to the melting pot out of which the mystical tradition in France erupted in the twenty first century and from which it continues to challenge theology today

Spirit of Fire King, Ursula ,2015-06-30 In the years since his death in 1955 the influence of Pierre Teilhard de Chardin renowned French Jesuit theologian mystic and scientist has continued to grow A true prophet of our age Teilhard helped bring Christian theology into creative dialogue with science articulated a new mysticism and explored profound dimensions of the human condition This biography is enhanced with scores of photographs that document his dramatic life from the trenches of World War I to his groundbreaking paleontological research in China and travels in the Gobi Desert It explores his difficulties with church authorities the posthumous publication of his writings and his ongoing legacy It is the ideal introduction to the life and thought of a man whose vision

and spirituality speak ever more vitally to the concerns of our time Publisher's description Teilhard de Chardin and Eastern Religions Ursula King, 2011 Teilhard de Chardin and Eastern Religions is in part an update of the 1980 classic Toward a New Mysticism Author Ursula King has extensively revised this work adding new material as she traces Teilhard's encounter with Eastern thought It includes an extensive bibliography and annotated study guide Book jacket Steiner and Kindred Spirits Robert McDermott, 2015-08-01 Rudolf Steiner 1861-1925 the Austrian founder of Anthroposophy is frequently viewed by those familiar with his teaching as unique and separate from other spiritual teachers of our modern era While Steiner is thought by anthroposophists to be a scientist and a philosopher as well as an interpreter of events depicted in Christian scriptures he is nevertheless generally ignored by scientists and philosophers as well as by both liberal and fundamentalist scriptural scholars and theologians In this book Robert McDermott the editor of American Philosophy and Rudolf Steiner which investigates Steiner's philosophy in the context of American philosophers places Steiner and his work in the context of a variety of spiritual teachers and teachings both Western and Eastern In doing so the reader is guided to new perspectives that show the similarities and contrasts between Steiner's Spiritual Science and a number of Christian Hindu Buddhist and secular spiritual worldviews The kindred spirits in this book include His Holiness the Dalai Lama C G Jung Teilhard de Chardin Martin Buber Sri Aurobindo Rabindranath Tagore Gandhians feminists ecologists and more Steiner went as far up the spiritual ladder as any modern individual but unlike some enthusiasts for Steiner McDermott is also impressed by other religious thinkers and spiritual practitioners who have been helpful to those of us in need of encouragement and guidance and whose vistas and insights may not have been researched or explained by Steiner For those with unbiased open minds this book presents a fresh look at Rudolf Steiner a modern spiritual initiate and his contributions to the world along with a generous and appreciative view of his kindred spirits of our time **Eucharist and Social Justice, The** Margaret Scott, 2009-07-01 Argues that the Eucharist is deeply political and potentially subversive and explores some of the many different aspects of the inseparable relationship between Eucharist and social justice **Christianity and Science** Haught, John F., 2014-04-10 There is nothing in Christian faith that should make one afraid of science's widening and deepening knowledge No matter how enormous the picture of the natural world turns out to be it can never surpass the infinity we have always attributed to God In this work John Haught a leading Catholic theological voice in the study of science and religion offers his most systematic theological reflections on the relation between Christian revelation and the unfolding story of the universe In the face of recent discoveries some maintain their faith by clinging to a pre-scientific world view others conclude that perhaps the universe has outgrown the biblical God who is said to be its creator For Haught however exploration of the three infinities the immense the infinitesimal and the complex serves as invitation to an unprecedented appreciation for the grandeur of God creation Christ and redemption **Reverence for Life Revisited** David A. Valone, 2009-10-02 This book is the product of a conference held by the Albert Schweitzer Institute at Quinnipiac University in 2005 The conference re

examined the life and work of Albert Schweitzer particularly his idea of Reverence for Life and assessed the relevance of his ideas for the twenty first century The essays in this book represent various perspectives on Schweitzer s life and works including reminiscences from individuals who worked with or were directly influenced by Schweitzer s life including Jane Goodall who was the keynote speaker at the conference philosophical examinations of Schweitzer s ideas in light of present concerns and practical applications of Schweitzer s ideas to current problems in global issues including arms control medical ethics education and state building The essays represent perspectives drawn from individuals of diverse backgrounds from undergraduate students to professional academics as well as those engaged in diplomacy wildlife conservation and health care and from the United States Europe Latin America and Africa *Deep Calls To Deep Thralls*, Chad ,2020-11-18

Integrating the work of scholars and teachers of contemplative prayer *Deep Calls to Deep* introduces the theological issues of Christian mysticism and explains the primary practices necessary to experience mystical consciousness *The Jesuit and the Skull* Amir Aczel,2008-11-04 From the New York Times bestselling author of Fermat s Last Theorem an extraordinary story Philadelphia Inquirer of discovery evolution science and faith In 1929 French Jesuit priest Pierre Teilhard de Chardin was a part of a group of scientists that uncovered a skull that became known as Peking Man a key evolutionary link that left Teilhard torn between science and his ancient faith and would leave him ostracized by his beloved Catholic Church His struggle is at the heart of *The Jesuit and the Skull* which takes readers across continents and cultures in a fascinating exploration of one of the twentieth century s most important discoveries and one of the world s most provocative pieces of evidence in the roiling debate between creationism and evolution **Teilhard De Chardin and Eastern Religions** U. M. King,1977 *Pope Francis, Conscience of the World* John Raymaker,Gerald Grudzen,2019-11-12 Why is it that Pope Francis is admired by so many What gives him the uncanny ability to speak with young people in language familiar to them In this book John Raymaker and Gerry Gruzden explore the life and writings of Pope Francis which have a prophetic visionary ability to speak to important issues of the day The authors evaluate how Pope Francis encounters with religious leaders of other faiths have broken new ground to help unite mankind They reach back into Christian history to explore the teachings of such Catholic mystics as Thomas Merton while also delving into the beliefs of Islamic and Buddhist mystics to demonstrate how well the pope is in touch with a spirituality that can speak to those seeking the truth In its final chapters the book examines how the pope endorses the work of Christians who live their faith in small Christian communities and reveals how such communities can strengthen parish life in various parts of the world Like St Francis his namesake and like Teilhard de Chardin before him the pope has an appropriate vision to rebuild God s Church in a transitional age His writings have focused on caring for the earth and preaching the good news of the gospels in a way that and allows him to reach young people in need of joy as they face an uncertain future He is the Conscience of the World
