Televised Presidential Debates and Public Policy Sidney Kraus, 1999-10-01 With this second edition Kraus continues his examination of formal presidential debates considering the experience of television in presidential elections reviewing what has been learned about televised debates and evaluating that knowledge in the context of the election process specifically and the political process generally He also examines the media and the role they occupy in presidential elections Because critics often refer to the Lincoln Douglas debates when reproaching presidential debates comparisons of the two are discussed throughout the book Much of the data and information for this accounting of televised presidential debates comes from the author's first hand experience as one who was involved with these debates as a participant observer on site at nearly all of the debates discussed Throughout these discussions emphasis is placed on the implications for public policy To suggest policy that will be accepted and adopted by politicians and the public is at best difficult Proposals for changes in public policy based on experience even when scientific data support those changes must be subjected to an assessment of the values and predispositions of the proponent These values and predispositions however may not necessarily inhibit the proponent's objectivity As such this review of television use in the presidential election process provides the context for examining televised debates

Televised Presidential Debates Susan A. Hellweg, Michael Pfau, Steven Brydon, 1992-01-13 Argues that television has profoundly altered the nature of presidential debates that the demands of television have dictated the structure and formats of contemporary debates and that the visual content of presidential debates plays an important role in the way candidates exercise influence

A Proper Institution John Bayard Anderson, 1988 Televised Presidential Debates in a Changing Media Environment Edward A. Hinck, 2018-11-26 This two volume set examines recent presidential and vice presidential debates addresses how citizens make sense of these events in new media and considers whether the evolution of these forms of consumption is healthy for future presidential campaigns and for democracy The presidential debates of 2016 underscored how television highlights candidates and campaigns messages which provide fodder for citizens widespread use of new media to talk back to campaigns and other citizens Social media will continue to affect the way that campaign events like presidential debates are consumed by audiences and how they shape campaign outcomes This two volume study is one of the first to examine the relationship between debates as televised events and events consumed by citizens through social media It also assesses the town hall debate format from 1992 to 2016 uses the lens of civil dialogue to consider how citizens watch the debates and considers the growing impact of new media commentary on candidate images that emerge in presidential and vice presidential debates Televised Presidential Debates in a Changing Media Environment features contributions from leading political communication scholars that illuminate how presidential debates are transforming from events that are privately contemplated by citizens to events that are increasingly viewed and discussed by citizens through social media The first volume focuses on traditional studies of debates as televised campaign

events and the second volume examines the changing audiences for debates as they become consumed and discussed by viewers outside the traditional channels of newspapers cable news channels and campaign messaging Readers will contemplate questions of new forms problems and possibilities of political engagement that are resulting from citizens producing and consuming political messages in new media

Inside the Presidential Debates Newton N. Minow, Craig L. LaMay, 2008-09-15 Newton Minow's long engagement with the world of television began nearly fifty years ago when President Kennedy appointed him chairman of the Federal Communications Commission As its head Minow would famously dub TV a vast wasteland thus inaugurating a career dedicated to reforming television to better serve the public interest Since then he has been chairman of PBS and on the board of CBS and elsewhere but his most lasting contribution remains his leadership on televised presidential debates He was assistant counsel to Illinois governor Adlai Stevenson when Stevenson first proposed the idea of the debates in 1960 he served as cochair of the presidential debates in 1976 and 1980 and he helped create and is currently vice chairman of the Commission on Presidential Debates which has organized the debates for the last two decades Written with longtime collaborator Craig LaMay this fascinating history offers readers for the first time a genuinely inside look into the origins of the presidential debates and the many battles both legal and personal that have determined who has been allowed to debate and under what circumstances The authors do not dismiss the criticism of the presidential debates in recent years but do come down solidly in favor of them arguing that they are one of the great accomplishments of modern American electoral politics As they remind us the debates were once unique in the democratic world are now emulated across the globe and they offer the public the only real chance to see the candidates speak in direct response to one another in a discussion of major social economic and foreign policy issues Looking to the challenges posed by third party candidates and the emergence of new media such as YouTube Minow and LaMay ultimately make recommendations for the future calling for the debates to become less formal with candidates allowed to question each other and citizens allowed to question candidates directly They also explore the many ways in which the Internet might serve to broaden the debates appeal and informative power Whether it's Clinton or Obama vs McCain *Inside the Presidential Debates* will be welcomed in 2008 by anyone interested in where this crucial part of our democracy is headed and how it got there

Presidential Debate Negotiation from 1960 to 1988 John W. Self, 2016-12-20 Since their inception the presidential debates Americans have watched on television were carefully

negotiated This book closely examines a previously unexamined type of political communication presidential debate negotiation While it has been widely known that all general election presidential debates since 1960 have been negotiated by the participating candidates no one has ever completed a systematic study of them In particular the 1960 1976 1980 1984 and 1988 negotiations were examined in detail For each of these election cycles a comprehensive narrative of what occurred during the pre debate negotiations was constructed based on primary source materials media accounts and other secondary sources Comparisons across election cycles were made in order to draw some conclusions about presidential debate negotiation Presidential debate negotiations are not just negotiations but rather also a form of political rhetoric for several different players The research concluded that there are five contexts in which presidential debate rhetoric occurs and the rhetoric is aimed at two audiences Within each context the functions and strategies of the rhetoric were discussed and explained from the perspective of the sponsor of the debate s the candidates and their representatives as well as the media
