Television E Interes Publico:

Television on Your Doorstep Bernat López, Miquel de Moragas Spa, 1999 This work brings together 14 national reports and a detailed account of television in the European Union It provides data on the contradictory processes of media globalization and decentralization and offers an optimistic approach to the future of television in the new era of digital broadcasting

Televisión y política Fernando Huertas, 1994 Los medios de comunicación se han convertido en una pieza clave para el funcionamiento de una sociedad moderna y democrática como la actual Hasta el punto de que conforman la realidad social y el hecho político Lo que se muestra en televisión aparece en la prensa o se oye en la radio emerge como una realidad incuestionable aunque haya sido reconstruida por los medios o constituya un puro acontecimiento mediático Todo lo demás se desvanece o aparece diluido en pequeñas realidades

(Multi) Media Translation Yves Gambier, Henrik Gottlieb, 2001-09-06 The globalisation of communication networks has increased the domains of translation and is challenging ever more the translator's role This volume is a collection of contributions from two different conferences Misano 1997 and Berlin 1998 Multi Media translation especially screen translation TV cinema video has made more explicit the complexities of any communication and has led us to take a fresh look at the translator's strategies and behaviours Several papers ponder the concepts of media and multimedia the necessity of interdisciplinarity the polysemiotic dimension of audiovisual media Quite a few discuss the current transformations in audiovisual media policy A great many deal with practices mainly in subtitling but also in interpreting for TV and surtitling what are the quality parameters and the conditions to meet audience's expectations Finally some show the cultural and linguistic implications of screen translation Digitalisation is changing production and broadcasting and speeding up convergence between media telecommunications and information and communication technology Is multi media translation a new field of study or an umbrella framework for scholars from various disciplines Is it a trick to overcome the absence of prestige in Translation Studies Or is it just a buzz word which gives rise to confusion These questions remain open the 26 contributions are partial answers

Mauersberger, 2015-07-27 This book examines democratizing media reforms in Latin America The author explains why some countries have recently passed such reforms in the broadcasting sector while others have not By offering a civil society perspective the author moves beyond conventional accounts that perceive media reforms primarily as a form of government repression to punish oppositional media Instead he highlights the pioneering role of civil society coalitions which have managed to revitalize the debate on communication rights and translated them into specific regulatory outcomes such as the promotion of community radio stations The book provides an in depth comparative analysis of media reform debates in Argentina and Brazil analyzing Chile and Uruguay as complementary cases supported by original qualitative research As such it advances our understanding of how shifting power relations and social forces are affecting policymaking in Latin America and beyond **La televisión de calidad** Eva Pujadas, 2025-01-20 La televisión de calidad históricamente un

digital Miquel Francés, Germán Llorca, Josep Gavaldá, Àlvar Peris, 2014-01-01 Este libro recoge una selección de textos de las conferencias ponencias y comunicaciones presentadas en las diferentes sesiones de las VI Jornadas en Contenidos Audiovisuales para la Televisión Digital CONTD celebradas en Valencia el mayo pasado En esta ocasión se analizan las consecuencias que está teniendo la profunda crisis económica y financiera sobre un ámbito que se ha mostrado especialmente vulnerable como es el sector audiovisual Las televisiones tendrán que adaptarse a esta nueva situación en donde Internet

tiene que ser un aliado de las cadenas y no un competidor. Probablemente la crisis ha propiciado la aparición y consolidación de nuevas fórmulas de financiación y cómo contar las mismas historias de siempre pero de forma diferente. El valor de la creatividad, los contenidos audiovisuales a través de la red y la emergencia de las redes sociales o los dispositivos móviles son aspectos a considerar en el nuevo paradigma de la producción audiovisual para la multidifusión digital. **TV Digital e integración, ¿televisión para todos?** Álvaro Pérez-Ugena y Coromina, 2005-11-12. Enforcing the Rule of Law Enrique Peruzzotti, Catalina Smulovitz, 2006-04-07 Reports of scandal and corruption have led to the downfall of numerous political leaders in Latin America in recent years What conditions have developed that allow for the exposure of wrongdoing and the accountability of leaders Enforcing the Rule of Law examines how elected officials in Latin American democracies have come under scrutiny from new forms of political control and how these social accountability mechanisms have been successful in counteracting corruption and the limitations of established institutions This volume reveals how legal claims media interventions civic organizations citizen committees electoral observation panels and other watchdog groups have become effective tools for monitoring political authorities Their actions have been instrumental in exposing government crime bringing new issues to the public agenda and influencing or even reversing policy decisions Enforcing the Rule of Law presents compelling accounts

of the emergence of civic action movements and their increasing political influence in Latin America and sheds new light on the state of democracy in the region

Políticas públicas y televisión digital María Trinidad García Leiva, 2008 A las puertas de lo que probablemente será el mayor reto tecnológico para la televisión desde su aparición el fin de las emisiones hertzianas analógicas los desafíos económicos y sociales pero también políticos que lo acompañan son a su vez mayores Esta obra los pone de manifiesto a través de un análisis comparado cuyo objetivo es llamar la atención sobre la trascendencia de decisiones que ni son simplemente técnicas ni pueden desligarse del camino audiovisual ya transitado Así pues bajo este prisma el libro examina las políticas públicas aplicadas a la implantación de la TDT en España y el Reino Unido desde sus orígenes y hasta finales de 2006 en el contexto más amplio de la actuación de la Unión Europea respecto del sector El objetivo último analizar su contribución a la democratización del servicio

Latin America's Contested Pasts in Telenovelas and TV Series Mónica Contreras Saiz, Stefan Rinke, 2024-12-30 In Latin America the production of telenovelas and TV series about the region's recent and traumatic past has grown considerably in the last 20 years affecting societal perceptions of the past historical consciousness and political culture While these TV products are usually perceived as trivial they do provide a historical framework to a wide audience which finds it easier to relate to the national past through fiction than through history books journalistic articles or documentaries Latin America's Contested Pasts in Telenovelas and TV Series analyzes the historical culture of Latin American society embodied in telenovelas and TV series from the 1960s to this day It compiles regional case studies on the televised representation of 20th century dictatorships in Chile Argentina and Brazil as well as the war against drug trafficking and the armed conflict in Colombia Highlighting the political and social relevance of fictional television the contributions offer interdisciplinary insights into its discourses and narratives from the heroization of criminals to the search for reconciliation and the construction of a historical memory

Sátira televisiva y democracia en España José Luis Valhondo Crego, 2011 De manera cada vez más frecuente el sistema político y mediático español emplea el humor y la sátira en su comunicación con el gran público Se trata de una tendencia global que en países como España se ha intensificado tras la liberalización económica de los medios en la última década del siglo XX A primera vista podríamos afirmar que este proceso está contribuyendo a la democratización de la sociedad a través de facilitar su acceso a la información política Desde otra perspectiva cabe pensar que los contenidos satíricos han fomentado el cinismo político de la ciudadanía hacia las instituciones democráticas sobre todo entre el segmento más joven y han supuesto un paso más allá en la espectacularización de la comunicación política Este libro aborda el debate sobre los posibles efectos de la sátira televisiva española en periodistas políticos y audiencias presentando ejemplos significativos de momentos claves en la esfera pública desde la guerra de Irak hasta las Elecciones Generales que otorgaron el poder a los socialistas en 2004
