Television Program Master Index Charles V. Dintrone, 1996 Television history has become one of the hottest areas of research in popular culture Because the field is relatively new and so wide ranging no matter what one is researching much of the relevant material will be found scattered through numerous other works frustrating scholarly progress This work makes the television researcher s job easier by providing a single index to 341 books that include information on 1 002 shows Most of the books deal exclusively with television though some autobiographies biographies Congressional hearings and works on communication and the media are also indexed For a show to be included it must have been carried on NBC CBS ABC or Fox and must have been a series Shows on PBS are generally not included though exceptions have been made for Sesame Street and Mister Rogers Neighborhood Television Series and Specials Scripts, 1946-1992, 2009-10-21 In the

early days of television many of its actors writers producers and directors came from radio This crossover endowed the American Radio Archives with a treasure trove of television documents The collected scripts span more than 40 years of American television history from live broadcasts of the 1940s to the late 1980s They also cover the entire spectrum of television entertainment programming including comedies soap operas dramas westerns and crime series The archives cover nearly 1 200 programs represented by more than 6 000 individual scripts Includes an index of personal names program and episode titles and production companies as well as a glossary of industry terms **The A to Z of African-American**
