Pigmalión. Informe sobre el impacto de la televisión en la infancia Amelia Álvarez, Miguel del Río, Pablo del Río, 2004 En esta obra se presenta una panorámica global del problema general de la influencia de la televisión en el niño que se basa en la revisión de tres décadas de investigación empírica sobre los efectos de este medio de comunicación en el desarrollo del niño El informe está organizado en cuatro partes La primera sirve de introducción evolutiva y educativa al situar el problema concreto de la televisión en el marco más general de las grandes teorías del desarrollo infantil y la educación en el momento actual La segunda incluye una revisión actualizada de las investigaciones sobre los efectos de la televisión en la evolución de las capacidades y cualidades de los niños a partir de las evidencias aportadas por la investigación empírica y se aborda desde una perspectiva genética funcional La tercera se ocupa de los problemas de la ecología de la televisión infantil es decir aborda el análisis de los contextos vitales del niño para comprender el impacto de la televisión en esos contextos de desarrollo con un capítulo dedicado a la familia y otro a la televisión educativa La cuarta y última parte se dedica a delinear propuestas de actuación desde las instancias públicas que favorezcan los dos pilares que se han ido delimitando en el informe como de crucial importancia apoyo a la investigación y al diseño de

producciones audiovisuales de calidad **Dinámica familiar y televisión** Luis A. Guadarrama Rico,1998 **El desarrollo de la televisión digital en España** Javier Marzal Felici,Marcial Murciano Martínez,2007 La digitalización está transformando de forma radical el medio televisivo. Pese a su naturaleza técnica este proceso va mucho más allá y afecta a todos sus ámbitos. Por ello este libro plantea un análisis del avance y el impacto de estos cambios en el contexto del Estado español. Para cumplir este objetivo cuenta con aportaciones de diversos profesores y expertos que abordan múltiples cuestiones. Desde la configuración del nuevo mapa de la Televisión Digital Terrestre TDT en el ámbito local y autonómico hasta el análisis de la situación de los contenidos audiovisuales y los servicios interactivos. Igualmente se exploran las implicaciones políticas y educativas de esta revolución televisiva. Para acabar se atienden las alteraciones en los hábitos de las audiencias y las formas de consumo de un medio que todavía asume una extraordinaria centralidad en nuestra sociedad. Con ello se completa un intenso recorrido por los nuevos territorios a través de los cuales actualmente transita la televisión en busca de horizontes de futuro *Televisión pública--del consumidor al ciudadano* Omar Rincón,2001 **La televisión desde abajo** Natalia Vinelli,2023-03-23 La autora realiza con estas páginas un aporte fundamental al debate sobre las condiciones en las que se practica y se usa la comunicación por parte de organizaciones que se apartan de la lógica industrial propia de las grandes empresas de medios y del Estado. Las tensiones y la relativa autonomía de los medios alternativos y comunitarios respecto de la institucionalidad estatal por un lado y de las lógicas mercantiles por el otro configuran un nudo problemático que es al mismo tiempo enriquecedor y empírico y que además define los contornos políticos de las diversas experiencias de este sector. Sin el sector de medios comunitarios y alternativos es imposible comprender la evolución del sistema de comunicación en el país y los conflictos, disputas y regulaciones que éste tuvo en las últimas décadas. Por lo tanto, sin la sistematización lograda en este libro, el panorama de la comunicación en la Argentina resulta inconcluso **Mirando Televisión** Cristián Santibáñez Yáñez,2003 **Seis antenas para pensar la televisión** Gustavo Hernández Díaz,2007 Luces cámara acción!-- textos de cine y televisión María Lourdes Cortés,Carlos Freer V.,2000 *La television y el periodico en la escuela primaria* Pilar Lacasa,2004 La obra se propone aproximar la familia a la escuela a través de actividades que están presentes en el entorno familiar. Obtuvo el tercer Premio de Investigación Educativa 2002 **Latin America's Contested Pasts in Telenovelas and TV Series** Mónica Contreras Saiz,Stefan Rinke,2024-12-30 In Latin America the production of telenovelas and TV series about the region's recent and traumatic past has grown considerably in the last 20 years affecting societal perceptions of the past, historical consciousness and political culture. While these TV products are usually perceived as trivial they do provide a historical framework to a wide audience which finds it easier to relate to the national past through fiction than through history books, journalistic articles or documentaries. Latin America's Contested Pasts in Telenovelas and TV Series analyzes the historical culture of Latin American society embodied in telenovelas and TV series from the 1960s to this day. It compiles regional case studies on the televised representation of 20th century dictatorships in Chile, Argentina and Brazil as well as

the war against drug trafficking and the armed conflict in Colombia Highlighting the political and social relevance of fictional television the contributions offer interdisciplinary insights into its discourses and narratives from the heroization of criminals to the search for reconciliation and the construction of a historical memory
