Television Opera The Fall Of Opera Commissioned For Television:

Television Opera Jennifer Barnes, 2003 This book contrasts the buoyant initial intentions of television's policy makers and creative advisers with the subsequent inability for various reasons to deliver as intended The decline in the relationship between television and its commissioned operas is charted through three case studies Menotti's Amahl and the Night Visitors NBC Britten's Owen Wingrave BBC and Gerald Barry's The Triumph of Beauty and Deceit Channel 4 the first a live broadcast the second a video recording and the third a filmed opera made for television Jacket The Tales of Hoffmann William Germano, 2019-07-25 The Tales of Hoffmann 1951 is a unique and important film both in the history of British cinema and in the history of interdisciplinary art making It is the first full throttle presentation of an opera on screen a Technicolor exploration of romance fantasy and failure more danced than sung Opera as Soundtrack Jeongwon Joe, 2016-05-13 Filmmakers' fascination with opera dates back to the silent era but it was not until the late 1980s that critical enquiries into the intersection of opera and cinema began to emerge Jeongwon Joe focusses primarily on the role of opera as soundtrack by exploring the distinct effects opera produces in film effects which differ from other types of soundtrack music such as jazz or symphony These effects are examined from three perspectives peculiar qualities of the operatic voice various properties commonly associated with opera such as excess otherness or death and multifaceted tensions between opera and cinema for instance opera as live embodied high art and cinema as technologically mediated popular entertainment Joe argues that when opera excerpts are employed on soundtracks they tend to appear at critical moments of the film usually associated with the protagonists and the author explores why it is opera not symphony or jazz that accompanies poignant scenes like these Joe's film analysis focuses on the time period of the post 1970s which is distinguished by an increase of opera excerpts on soundtracks to blockbuster titles the commercial recognition of which promoted the production of numerous opera soundtrack CDs in the following years Joe incorporates an empirical methodology by examining primary sources such as production files cue sheets and unpublished interviews with film directors and composers to enhance the traditional hermeneutic approach The films analysed in her book include Woody Allen's Match Point David Cronenberg's M. Butterfly and Wong Kar wai's 2046 *The ^AOxford Handbook of the Operatic Canon* Cormac Newark, William Weber, 2020-08-20 The Oxford Handbook of the Operatic Canon examines how opera has become the concrete edifice it was never meant to be by looking at how it evolved from a market entirely driven by novelty to one of the most arthritically canonic art forms still in existence **The New Music Theater** Eric Salzman, Thomas Dézsy, 2008-11-06 The New Music Theater is the first comprehensive attempt in English to cover a still emerging art form in its widest range This book written for the reader who comes from the contemporary worlds of music theater film literature and visual arts provides a wealth of examples and descriptions not only of the works themselves but of the concepts ideas and trends that have gone into the evolution of what may be the most central performance art form of the post modern world BOOK JACKET Revisiting Mister Rogers'

BOOK JACKET Opera, Emotion, and the Antipodes Volume II Jane Davidson, Michael Halliwell, Stephanie Rocke, 2020-12-29 There can be little doubt that opera and emotion are inextricably linked From dramatic plots driven by energetic producers and directors to the conflicts and triumphs experienced by all associated with opera s staging to the reactions and critiques of audience members emotion is omnipresent in opera Yet few contemplate the impact that the customary cultural practices of specific times and places have upon opera s ability to move emotions Taking Australia as a case study this two volume collection of extended essays demonstrates that emotional experiences discourses displays and expressions do not share universal significance but are at least partly produced defined and regulated by culture Spanning approximately 170 years of opera production in Australia the authors show how the

emotions associated with the specific cultural context of a nation steeped in egalitarian aspirations and marked by increasing levels of multiculturalism have adjusted to changing cultural and social contexts across time Volume I adopts an historical predominantly nineteenth century perspective while Volume II applies historical musicological and ethnological approaches to discuss subsequent Australian operas and opera productions through to the twenty first century With final chapters pulling threads from the two volumes together *Opera Emotion and the Antipodes* establishes a model for constructing emotion history from multiple disciplinary perspectives
