Islamic Myths and Memories Itzhak Weismann, Mark Sedgwick, Ulrika Mårtensson, 2016-05-06 Islamic myths and collective memory are very much alive in today's localized struggles for identity and are deployed in the ongoing construction of worldwide cultural networks This book brings the theoretical perspectives of myth making and collective memory to the study of Islam and globalization and to the study of the place of the mass media in the contemporary Islamic resurgence It explores the annulment of spatial and temporal distance by globalization and by the communications revolution underlying it and how this has affected the cherished myths and memories of the Muslim community It shows how contemporary Islamic thinkers and movements respond to the challenges of globalization by preserving reviving reshaping or transforming myths and memories ALLAH (SWT), GIVE ME KNOWLEDGE THAT WILL BENEFIT. Prophet Muhammad (S) and His Family Shamim Aleem, 2011-10-27 Though over the past 1400 years thousand of books have been written on the different aspects of the life of the Prophet Muhammad S Even then it cannot claim to be true and exhaustive picture of his multidimensional life as has been successfully projected in this book The author has tried to look at his family life from a

sociological perspective an approach different from that of other writers Her attempt is to place at the disposal of young English speaking people a wider view of the family life of the Prophet so that they may learn something from it to make their own lives more fruitful and happy In the last few years and especially after 9 11 interest in Islam and Islamic literature has increased tremendously Non believers are in a dilemma On one hand Islam is suppose to be a religion of peace while on the other terrorism association with Muslims is on the rise By making an attempt to depict an objective picture of the life of Prophet Muhammad S the author has tried to underline the fact that Islam is not a religion of violence but of peace and the life of the Prophet provides convincing evidence of the same and whatever is being done under the name of Muslim by a handful people has hardly any relation with Islam The book may be a source of interest to those non Muslims who are keen to know more about Islam

History of the Arab Invasions: The Conquest of the Lands Ahmad b. Yahya al-Baladhuri,2022-11-17 Ahmad bin Yahuya al Baladhuri s History of the Arab Invasions is perhaps the most important single source for the history of the great Arab conquests of the Middle East in the sixth and early seventh centuries The author who died in 892 was a historian working at court of the Abbasid caliphs in Baghdad He had access to a wide variety of earlier writings on the conquests and has preserved accounts that are not found anywhere else But the book is much more than a series of accounts of battles Baladhuri was very interested in the origins of the Islamic state and its institutions His

work contains a wealth of information about government land holding and economic developments. It is in short a key text for anyone interested in the formation of the Islamic world. In this new modern translation fully annotated with a scholarly apparatus and commentary on the places, events, and individuals mentioned, a key source on the Arab conquests is made available in English. It will be essential reading for scholars and students of Islamic Studies and Middle East history. **The Chief Eunuch of the Ottoman Harem** Jane Hathaway, 2018-08-30. Eunuchs were a common feature of pre and early modern societies that are now poorly understood. Here Jane Hathaway offers an in-depth study of the chief of the African eunuchs who guarded the harem of the Ottoman Empire. A wide range of primary sources are used to analyze the Chief Eunuch's origins in East Africa and his political, economic, and religious role from the inception of his office in the late sixteenth century through the dismantling of the palace harem in the early twentieth century. Hathaway highlights the origins of the institution and how the role of eunuchs developed in East Africa, as well as exploring the Chief Eunuch's connections to Egypt and Medina. By tracing the evolution of the office, we see how the Chief Eunuch's functions changed in response to transformations in Ottoman society from the generalized crisis of the seventeenth century to the westernizing reforms of the nineteenth century. Islamic Thought in the Rise and Supremacy of Islamic Technological Culture S. Waqar Ahmed Husaini, 2001. Islamic Thought in the Rise and Supremacy of Islamic Technological Culture. Water Resources and Energy brings out the role of Islamic ideological culture in the birth, rise, and world supremacy of Islamic technological culture during the First to Eighth AH (Seventh to Fourteenth AD) centuries. Examples are given from the history of water resources and energy. Islamic ideology refers to implications for the two cultures of the Quranic concept of God and prophethood, the Kitab al-Kharaj, books on the Traditions of Prophet Muhammad, Islamic law (esp. land tenure and environmental laws), economics, politics, and administration, etc. The primary beneficiaries of these Islamic cultures during the early centuries, when Muslims were a minority in the Islamic world, states were the non-Muslim majorities; the latter therefore embraced Islam first gradually and later on rapidly. The book presents the way to revive the Islamic ideological and technological cultures through a critique of the two main causes for the decline and continued backwardness of Muslim cultures: Sufism and takhsis i.e. reduction, limitation, restriction of Islamic law to only family laws, Islam to rituals and superficial aspects of the five pillars, exclusion of Islamic science, technology, economics, etc. from Islamic epistemology and education, and other manifestations of takhsis.
