Tell Me How Fast It Goes Hb:

The amount of hemoglobin's oxygen affinity, determines the body size of mammals Ramin Amirmardfar,2019-09

Mammals are found in different sizes in nature Most of scientists believe that environmental circumstances and mammals living style determine their body size So scientists haven't been looking forward to find a physiological factor for this size difference among mammals But my research on animals and plants size has specified that there is a direct relationship between animals plants size and blood fluid circulatory system
