Romanticism and Contemporary Criticism Morris Eaves, Michael R. Fischer, 2019-01-24 The core of this book is made up of five essays by distinguished scholars of international reputation that treat the relation between current literary theory and Romanticism The book originated in a series of lectures presented at the University of New Mexico in 1983 All but one of the essays are published here for the first time The contributors are Northrop Frye W J T Mitchell J Hillis Miller M H Abrams and Stanley Cavell Frye's essay is a major statement on the backgrounds of Romanticism W J T Mitchell's contribution takes up through the composite arts of William Blake the relation of poetry and painting writing and printing criticism and politics The controversy over

deconstruction is the occasion for a matched pair of essays by J Hillis Miller and M H Abrams advocate and antagonist respectively In his essay Abrams makes a definitive statement on his view of deconstruction and its intellectual heritage The fifth piece by Stanley Cavell is the first extended discussion of English and American Romanticism by this major contemporary philosopher Following each essay is an edited transcript of a question and answer session in which the contributor critic ranges widely and freely over today s critical scene The sessions make fascinating reading This book should be of compelling interest to students of Romanticism as well as to students and scholars interested in the uses and implications of poststructuralist theory

Thomas Hardy: Folklore and Resistance Jacqueline Dillion,2016-09-23 This book reassesses Hardy s fiction in the light of his prolonged engagement with the folklore and traditions of rural England Drawing on wide research it demonstrates the pivotal role played in the novels by such customs and beliefs as overlooking hag riding skimmington riding sympathetic magic mumming bonfire nights May Day celebrations Midsummer divination and the Portland Custom This study shows how such traditions were lived out in practice in village life and how they were represented in written texts in literature newspapers county histories folklore books the work of the Folklore Society archival documents and letters It explores tensions between Hardy s repeated insistence on the authenticity of his accounts and his engagement with contemporary anthropologists and folklorists and reveals how his efforts to resist their excellently neat categories of culture open up wider questions about the nature of belief progress and social change

Risk and the English Novel Julia Hoydis,2019-09-23 Taking the cue from the currency of risk in popular and interdisciplinary academic discourse this book explores the development of the English novel in relation to the emergence and institutionalization of risk from its origins in probability theory in the late seventeenth century to the global risk society in the twenty first century Focussing on 29 novels from Defoe to McEwan this book argues for the contemporaneity of the rise of risk and the novel and suggests that there is much to gain from reading the risk society from a diachronic literary cultural perspective Tracing changes and continuities the fictional case studies reveal the human preoccupation with safety and control of the future They show the struggle with uncertainties and the construction of individual or collective logics of risk which oscillate between rational calculation and emotion helplessness and denial and an enabling or destructive sense of adventure and danger Advancing the study of risk in fiction beyond the confinement to dystopian disaster narratives this book shows how topical notions such as chance and probability uncertainty and responsibility fears of decline and transgression all cluster around risk

Empty Justice: One Hundred Years of Law Literature & Philosophy ,2002 Using literature as a source of challenges to questions in philosophy and law this book explores the inculcation of the legal subject and the relationship between modernism and postmodernism as well as how such concepts might evolve in the construction of community ethics

Secrets and Laws Melanie Williams,2013-03-04 These essays by Melanie Williams range across several fields of law literature social history and ethics In each chapter a particular legal case literary text or poem acts as a focus for a topical debate that highlights

controversy or secrecy **Empty Justice** Melanie Williams, 2013-03-04 Utilising literature as a serious source of challenges to questions in philosophy and law this book provides a fresh perspective not only upon the inculcation of the legal subject but also upon the relationship between modernism postmodernism and how such concepts might evolve in the construction of community ethics The creation and role of the legal subject is just one aspect of jurisprudential enquiry now attracting much attention How do moral values act upon the subject How do moral systems impinge upon the subject jurist and judged throughout the 20th century when religious values are called into question when existential doubt prevails To what extent do issues of gender and identity inform these questions Many sources can provide insights into these issues this book intends to concentrate upon fiction as just such a resource However it is not just another law and literature compilation Spanning the last century each chapter will attempt to fulfil four objectives to identify key texts in relation to a given period to look for linked legal and philosophical developments from that period to establish fresh links from these sources regarding concrete doctrinal or practical legal questions and finally draw a more general inference about the legal subject and the frequently less evident feminine citizen subject Central to this approach will be the consideration of contemporary case law and legal materials as social documents of the relationship between law and the wider community **Attention Spans** Garrett Stewart, 2024-01-25 Attention Spans chronological review of Garrett Stewart's critical approach tracks and maps the evolution of intersecting disciplines from late New Criticism through structuralism deconstruction narrative theory by way of narratology poetics and media studies in which Stewart's has been so persistent and so eloquent a voice Excerpts from his twenty books are framed by editorial retrospect then linked by Stewart's own commentary on the variety and underlying vectors of his interpretive career across aesthetic forms from Victorian narrative to recent American fiction classic celluloid cinema to postfilmic digital effects inert book sculpture and literary wordplay to the soundscape of singing on screen Accompanied by a glossary of his many influential coinages this cornucopia of analyses is also a chronicle of evolving paradigms in the work of intensive reading
