Jack E. Davis

Texas Shrimpers Community Capitalism And The Sea:

Texas Shrimpers Robert Lee Maril, 1983 In interviews with fishhouse and dock workers boat owners and marine agents wives friends and neighbors of shrimpers and the shrimpers themselves Robert Lee Maril reveals the web of social and economic relationships that bind Texas shrimpers to their difficult and often dangerous work This book is about shrimping as an industry but it is also about the work the families the dreams and the frustrations of the men who catch the shrimp

The Bay Shrimpers of Texas Robert Lee Maril, 1995 Shrimpers who fish the shallow coastal waters of Texas fight a constant battle for survival contending with shrimpers who fish the deeper gulf waters competing with weekend sportsmen wrangling with government regulations and dodging environmentalists incriminations Add competition from the international market an ominous threat frequently overlooked by bay fishermen and the shrimpers chances of winning at least with their current lifestyle intact are slim In *The Bay Shrimpers of Texas* Lee Maril explores the successes and failures of the shrimpers who prowl remote bays rivers and estuaries for their livelihoods Through random sample surveys of fishermen participant observation and historical analysis he examines the political economic and social realities confronting the shrimpers and their families Legal and environmental constraints price instability work hazards and benefits only one percent of the shrimpers surveyed had health insurance rivalry with gulf and sport shrimpers and conflict with Vietnamese refugees are all factors that affect the outlook for shrimping Portraying the shrimpers lives on land and water Maril describes their boats equipment and various fishing strategies both legal and illegal used to survive in an increasingly competitive occupation He gives an in depth and personal look at an industry that in many ways has changed little over the last century and in others has haphazardly evolved as it enters into a ruthlessly competitive world marketplace The prospects for bay fishing a vital part of the cultural identity and tradition of many small coastal towns are uncertain By examining the past and clearing up misperceptions and myths Maril provides valuable insight into not just the future survival or demise of one industry in a global economy but the future of small business as a whole Sea Turtle Conservation and the Shrimp Industry United

Dallmeyer, 2003 The human impact on vast areas of the oceans remains relatively unregulated Sometimes in fact the only controls over our exploitation of marine resources lie in our environmental consciousness While the field of environmental ethics has explored rights and duties for land use stewardship and policy relatively little attention has been given to comparable issues of marine environments Values at Sea makes an important step toward moving environmental ethics discussions into a broader framework Gathered here are fifteen papers by an interdisciplinary group of scholars including ethicists marine scientists anthropologists economists geographers lawyers and activists From the Great Lakes to the Pacific Islands from the open sea to coastal areas the papers cover a broad array of ethical issues and policy matters related to such topics as the valuation of marine life indigenous peoples knowledge and environmental stewardship endemic and exotic species aquaculture oil spills and species protection **Beyond Cannery Row** Carol Lynn McKibben, 2010-10-01 Presenting a nuanced story of women migration community industry and civic life at the turn of the twentieth century Carol Lynn McKibben's Beyond Cannery Row analyzes the processes of migration and settlement of Sicilian fishers from three villages in Western Sicily to Monterey California and sometimes back again McKibben's analysis of gender and gender roles shows that it was the women in this community who had the insight the power and the purpose to respond and even prosper amid changing economic conditions Vividly evoking the immigrants everyday experiences through first person accounts and detailed description McKibben demonstrates that the cannery work done by Sicilian immigrant women was crucial in terms of the identity formation and

community development These changes allowed their families to survive the challenges of political conflicts over citizenship in World War II and intermarriage with outsiders throughout the migration experience The women formed voluntary associations and celebrated festas that effectively linked them with each other and with their home villages in Sicily Continuous migration created a strong sense of transnationalism among Sicilians in Monterey which has enabled them to continue as a viable ethnic community today *Caught in the Net* Anthony V.
