Proceedings: Fifteenth Annual Convention of Rotary International , **Proceedings: Tenth Annual Convention of the International Association of Rotary Clubs** , *The Congregationalist* ,1919 [The Trouble with Boys](#) Peg Tyre,2009-08-11 From the moment they step into the classroom boys begin to struggle They get expelled from preschool nearly five times more often than girls in elementary school they're diagnosed with learning disorders four times as often By eighth grade huge numbers are reading below basic level And by high school they're heavily outnumbered in AP classes and save for the realm of athletics show indifference to most extra-curricular activities Perhaps most alarmingly boys now account for less than 43 percent of those enrolled in college and the gap widens every semester The imbalance in higher education isn't just a boy problem though Boys decreasing college attendance is bad news for girls too because admissions officers seeking balanced student bodies pass over girls in favor of boys The growing gender imbalance in education portends massive shifts for the next generation how much they make and whom they marry Interviewing hundreds of parents kids teachers and experts award-winning journalist Peg Tyre drills below the eye-catching statistics to examine how the

educational system is failing our sons She explores the convergence of culprits from the emphasis on high stress academics in preschool and kindergarten when most boys just can't tolerate sitting still to the outright banning of recess from the demands of No Child Left Behind with its rigid emphasis on test taking to the boy unfriendly modern curriculum with its focus on writing about feelings and its purging of high action reading material from the rise of video gaming and schools' unease with technology to the lack of male teachers as role models But this passionate clearheaded book isn't an exercise in finger pointing Tyre the mother of two sons offers notes from the front lines the testimony of teachers and other school officials who are trying new techniques to motivate boys to learn again one classroom at a time The Trouble with Boys gives parents educators and anyone concerned about the state of education a manifesto for change one we must undertake right away lest school become for millions of boys unalterably a girl thing

Making American Boys Kenneth B. Kidd,2004 Will boys be boys What are little boys made of Kenneth B Kidd responds to these familiar questions with a thorough review of boy culture in America since the late nineteenth century From the boy work promoted by character building organizations such as Scouting and 4 H to current therapeutic and pop psychological obsessions with children's self esteem Kidd presents the great variety of cultural influences on the changing notion of boyhood Kidd finds that the education and supervision of boys in the United States have been shaped by the collaboration of two seemingly conflictive approaches In 1916 Henry William Gibson a leader of the YMCA created the term boyology which came to refer to professional writing about the biological and social development of boys At the same time the feral tale with its roots in myth and folklore emphasized boys' wild nature epitomized by such classic protagonists as Mowgli in The Jungle Books and Huck Finn From the tension between these two perspectives evolved society's perception of what makes a good boy from the responsible son asserting his independence from his father in the late 1800s to the idealized sexually confident and psychologically healthy youth of today The image of the savage child raised by wolves has been tamed and transformed into a model of white middle class masculinity Analyzing icons of boyhood and maleness from Father Flanagan's Boys Town and Max in Where the Wild Things Are to Elin Gonzlez and even Michael Jackson Kidd surveys films psychoanalytic case studies parenting manuals historical accounts of the discoveries of wolf boys and self help books to provide a rigorous history of what it has meant to be an all American boy Kenneth B Kidd is assistant professor of English at the University of Florida and associate director of the Center for Children's Literature and Culture
