Horror That Haunts Us Nostalgia Revisionism and Trauma in Contemporary American Horror is a collection of essays that brings together multiple theoretical and critical approaches to consider the way popular horror films from the last fifty years communicate embody and rework our view of the past Whether we look at our current relationship to the scary movies of decades ago as personal or cultural memory the way historical and sociopolitical events and frameworks especially traumas reframe the way we look at our pasts or even the way recent horror films and video games look back at our past and the past of the genre itself through a filter of experience and history this collection will show the close relationship between nostalgia and popular horror These essays also demonstrate a range of unique and diverse points of view from both established and emerging scholars on the subject of horror and the past Edited by seasoned horror experts Karr Shimabukuro and Wickham Clayton Horror That Haunts Us is a book with the aim of examining why we return again and again to certain popular horror films either as remakes or reboots or as the basis for pastiche and homage

Toms River Dan Fagin, 2013-03-19 WINNER OF THE PULITZER PRIZE Winner of The New York Public Library s Helen Bernstein Book Award A new classic of science reporting The New York Times The riveting true story of a small town ravaged by industrial pollution *Toms River* melds hard hitting investigative reporting a fascinating scientific detective story and an unforgettable cast of characters into a sweeping narrative in the tradition of *A Civil Action* *The Emperor of All Maladies* and *The Immortal Life of Henrietta Lacks* One of New Jersey s seemingly innumerable quiet seaside towns *Toms River* became the unlikely setting for a decades long drama that culminated in 2001 with one of the largest legal settlements in the annals of toxic dumping A town that would rather have been known for its Little League World Series champions ended up making history for an entirely different reason a notorious cluster of childhood cancers scientifically linked to local air and water pollution For years large chemical companies had been using *Toms River* as their private dumping ground burying tens of thousands of leaky drums in open pits and discharging billions of gallons of acid laced wastewater into the

town's namesake river In an astonishing feat of investigative reporting prize winning journalist Dan Fagin recounts the sixty year saga of rampant pollution and inadequate oversight that made Toms River a cautionary example for fast growing industrial towns from South Jersey to South China He tells the stories of the pioneering scientists and physicians who first identified pollutants as a cause of cancer and brings to life the everyday heroes in Toms River who struggled for justice a young boy whose cherubic smile belied the fast growing tumors that had decimated his body from birth a nurse who fought to bring the alarming incidence of childhood cancers to the attention of authorities who didn't want to listen and a mother whose love for her stricken child transformed her into a tenacious advocate for change A gripping human drama rooted in a centuries old scientific quest Toms River is a tale of dumpers at midnight and deceptions in broad daylight of corporate avarice and government neglect and of a few brave individuals who refused to keep silent until the truth was exposed
