focuses on the crucial role that conceptions of iconic colonial Indian spaces jungles cantonments cities hill stations bazaars clubs played in the literary and social production of British India Author Alan Johnson illuminates the geographical rhetorical and ideological underpinnings of such depictions and from this argues that these spaces operated as powerful motifs in the acculturation of Anglo India He shows that the bicultural intrinsically ambivalent outlook of Anglo Indian writers is acutely sensitive to spatial motifs that insofar as these condition the idea of home and homelessness alternately support and subvert conventional colonial perspectives Colonial spatial motifs not only informed European representations of India but also shaped important aesthetic notions of the period such as the sublime This book also explains how and why Europeans rhetorical and visual depictions of the Indian subcontinent whether ostensibly administrative scientific or aesthetic constituted a primary means of memorializing Empire creating an idiom that postcolonial India continues to use in certain ways Consequently Johnson examines specific motifs of Anglo Indian cultural remembrance such as the hunting memoir hill station life and the Mutiny all of which facilitated the mythic iconography of the Raj He bases his work on the premise that spatiality the physical as well as social conceptualization of space is a vital component of the mythos of colonial life and that the study of spatiality is too often a subset of a focus on temporality Johnson reads canonical and lesser known fiction memoirs and travelogues alongside colonial archival documents to identify shared spatial motifs and idioms that were common to the period Although he discusses colonial works he focuses primarily on the writings of Anglo Indians such as Rudyard Kipling John Masters Jim Corbett and Flora Annie Steel to demonstrate how conventions of spatial identity were rhetorically maintained and continually compromised All of these considerations amplify this book's focus on the porosity of boundaries in literatures of the colony and of the nation Out of Bounds will be of interest to not only postcolonial literary scholars but also scholars and students in interdisciplinary nineteenth century studies South Asian cultural history cultural anthropology women's studies and sociology

The Voyage Perilous Susan J. Rosowski,2001-01-01 They Voyage Perilous is the first extended interpretation of Willa Cather s writing within the literary tradition of romanticism Although she partook of the familiar subjects and themes of the Wordsworthian school of romanticism Cather was not nearly so concerned with what we see as how we see Her intensely individual perspective more creatively romantic than has been previously recognized gave her work its own kind of elegant form Susan J Rosowski argues that Willa Cather early took up the romantic challenge to vindicate imaginative thought in a world threatened by materialism then pursued it with remarkable consistency throughout her career The early essays and stories set out the terms of this life long commitment In the early novels Cather celebrates imaginative possibilities in the middle ones she present increasingly desperate circumstances asking what is left when the imagination is eclipsed by commercial values in the late novels she writes in a Gothic mode the dark counterspirit to optimistic romanticism The book is organized chronologically with a chapter devoted to each novel The chapters can be read independently or as part of a unified argument providing a larger picture *Purchasing Agents' Bulletin* ,1927
