Critical Victimology R. I. Mawby, Sandra Walklate, 1994-03-07 Drawing on a wealth of local national and international sources unpublished documents and original research this book provides a theoretical and practical critique of victimology The authors outline and discuss the issues facing victims today and address the fundamental question How can we best ensure justice for victims while at the same time preserving the rights of defendants The search for answers raises other key questions What are the risks of crime and do they vary from country to country What is the impact of crime on the victim How are victims treated by police welfare agencies and courts Why have governments become interested in victims Can we learn from the experiences of policies in other nations H *Migration, Culture Conflict and Crime* Joshua D. Freilich, Moshe Addad, 2017-10-05 This title was first published in 2002 The issue of immigration and crime in all of its many contexts and forms is a problem which affects numerous countries throughout the world In many countries immigrants have been accused of disproportionate involvement in crime while in others immigrants are often claimed to be the victims of criminal offenders as well as indifferent criminal justice systems The subjects covered within this informative collection include the offending and victimization rates of immigrants and their dependants institutional racism human trafficking smuggling and ethnic conflicts In particular the problems faced by female immigrants are addressed in detail Whilst some papers look at the issues facing particular countries such as Germany the United Kingdom Australia Israel and Turkey others adopt a more comparative approach *Migration Culture Conflict and Crime* is an essential and compelling read for all those with a strong interest in this important area Not only does it significantly advance our scientific knowledge concerning the relationship between immigration crime and justice but it also sets forth a number of proposals which if implemented could address many of the problems found in these areas *Public Order and Private Lives (Routledge Revivals)* Michael Brake, Chris Hale, 2013-10-08 First published in 1992 *Public Order and Private Lives* is a radical examination of the political forces which shaped the law and order debate in Britain at that time The authors offer a significant and provoking analysis of Conservative policies on crime showing that ironically they created the very social conditions in which crime flourished The book argues that the Conservative government undermined basic civil liberties by its increased use of legislation as a means of control and coercion and as a result of this crime increased under their governance *Britain's Cities* Michael Pacione, 2002-11-01 Uneven distribution of life is a dominant feature of the city Major social economic and spatial divisions are apparent in terms of income and wealth health crime housing and employment This text offers an introduction to current processes of urban restructuring geographies of division and contemporary conditions within the city The geography of Britain's cities is the outcome of interaction between a host of public and private economic social and political forces operating at a variety of spatial scales from the global to the local A deeper understanding of the nature of urban division and of the problems of and prospects for local people and places in urban Britain must be grounded in an appreciation of the structural forces processes

and contextual factors which condition local urban geographies This book combines structural and local level perspectives to illuminate the complex geography of socio spatial division within urban Britain It combines conceptual and empirical analyses from researchers in the field **The Routledge International Handbook on Fear of Crime** Murray Lee,Gabe Mythen,2017-12-01

The Routledge International Handbook on Fear of Crime brings together original and international state of the art contributions of theoretical empirical policy related scholarship on the intersection of perceptions of crime victimisation vulnerability and risk This is timely as fear of crime has now been a focus of scholarly and policy interest for some fifty years and shows little sign of abating Research on fear of crime is demonstrative of the inter disciplinary of criminology drawing in the disciplines of sociology psychology political science history cultural studies gender studies planning and architecture philosophy and human geography This collection draws in many of these interdisciplinary themes This collections also extends the boundaries of fear of crime research It does this both methodologically and conceptually but perhaps more importantly it moves us beyond some of the often repeated debates in this field to focus on novel topics from unique perspectives The book begins by plotting the history of fear of crime s development then moves on to investigate the methodological and theoretical debates that have ensued and the policy transfer that occurred across jurisdictions Key elements in debates and research on fear of crime concerning gender race and ethnicity are covered as are contemporary themes in fear of crime research such as regulation security risk and the fear of terrorism the mapping of fear of crime and fear of crime beyond urban landscapes The final sections of the book explore geographies of fear and future and unique directions for this research *Crime, Criminal Justice and the Probation Service* Robert Harris,2022-06-01

First published in 1992 *Crime Criminal Justice and the Probation Service* is a thought provoking analysis of the role of the probation service in developing an integrated system of criminal justice Robert Harris provides readable information about our knowledge of such areas as criminal statistics victims fear of crime and crime prevention He also explores the treatment of women and ethnic minorities by the criminal justice system the question of a sentencing council and the future of community corrections A central theme is that all the professionals involved in the criminal justice system must work more closely together so that the mistakes of the past can be avoided in the future The book therefore has a wide appeal not only to probation officers and social workers but also to criminal justice professionals and administrators including the police and the legal profession

The Oxford Handbook of Criminology Rod Morgan,Mike Maguire,Robert Reiner,2012-04-12 The approach of the year 2000 has made the study of apocalyptic movements trendy But groups anticipating the end of the world will continue to predict Armageddon even after the calendar clicks to triple Os *Doing Research on Crime and Justice* Roy King,Emma Wincup,2008 Focusing on the problems that novice researchers encounter when translating neat and tidy textbook methodologies into real life situations this guide explains how to undertake research in the fields of criminology and criminal justice *Criminology for Social Work* David Smith,1995-03-20 *Criminology for Social Work* critically reviews the major

strands in criminological theory and research in terms of their implications for social workers in the criminal justice system While acknowledging the complexity of the links to be made it argues that they are able to enhance practice by making it more critical and realistic Individual chapters discuss criminological psychology the labelling perspective the concentration of crime and victimisation in particular localities the contributions of feminist criminology and the evidence of racism in criminal justice They also cover the connections between criminology and policy The conclusion suggests how criminology could be enriched by feminist philosophy and psychology

Community Policing Dominique Wisler,Ihekwoaba D. Onwudiwe,2009-06-10 Community oriented policing COP is the ideology and policy model espoused in the mission statements of nearly all policing forces throughout the world However the COP philosophy is interpreted differently by different countries and police forces resulting in practices that may in fact run far afield of the community based themes of partnership

Public Opinion and Criminal Justice Jane Wood,Theresa A. Gannon,2013-05-13 Public opinion is vital to the functioning of the criminal justice system but it is not at all clear how best to establish what this is and what views people have on different aspects of criminal justice and the criminal justice system Politicians and the media often assume that the

public wants harsher tougher and longer sentences and policies may be shaped accordingly Detailed research and more specific polling often tells a different story This book is concerned to shed further light on the nature of public views on criminal justice paying particular attention to public opinion towards specific types of offenders such as sex offenders and mentally disordered offenders In doing so it challenges many enduring assumptions regarding people s views on justice and confronts the myths that infect our understanding of what people think about the criminal justice system *Out of Order? (Routledge Revivals)* E. Cashmore, E. McLaughlin, 2013-10-08 First published in 1991 this book evaluates and compares the problematic relationships that have sometimes existed between police and Afro Caribbean people in Britain and in the United States of America Contributors from both sides of the Atlantic assess conflicting claims from police and black communities as to whether some police are racist or too brutal in their operations Although this book was written in the early 90s many of the issues discussed remain interesting and relevant to our society today Penal Populism and Public Opinion Julian V. Roberts, 2003 The five countries examined are the United States the United Kingdom Canada Australia and New Zealand
