Beautiful Mornin' Ethan Mordden, 1999-10-07 Music and girls are the soul of musical comedy one critic wrote early in the 1940s But this was the age that wanted more than melody and kickline form its musical shows The form had been running on empty for too long as a formula for the assembly of spare parts star comics generic love songs rumba dancers Ethel Merman If Rodgers and Hammerstein hadn't existed Broadway would have had to invent them and Oklahoma and Carousel came along just in time to announce the New Formula for Writing Musicals Don't have a formula Instead start with strong characters and atmosphere Oklahoma's murderous romantic triangle set against a frontier society that has to learn what democracy is in order to deserve it or Carousel's dysfunctional family seen in the context of class and gender war With the vitality and occasionally outrageous humor that Ethan Mordden's readers take for granted the author ranges through the decade's classics Pal Joey Lady in the Dark On the Town Annie Get Your Gun Phinias Rainbow Brigadoon Kiss Me Kate South Pacific He also covers illuminating trivia the spy thriller *The Lady Comes Across* whose star got so into her

Documents of the Assembly of the State of New York New York (State). Legislature. Assembly,1918 [The Economics Of The Arts](#) Mark Blaug,2019-07-16 The economics of the Arts is a new field with a small but rapidly growing literature which has emerged in recent years out of the eagerness of economists to apply their techniques to hitherto untried areas and the recognition by Arts administrators of the rapidly increasing economic pressures on the Arts This book of readings is the first

of its kind Of the 16 articles 8 are directly concerned with the Arts in America the other 8 deal with the British scene What can economics say about so non economic a subject as the Arts Obviously finance for the Arts involves economic considerations But in addition economics provides among other things a logic of rational choice and the economists style of thinking therefore is adaptable to any problem of choice in respect of any set of goals whether they be economic goals or not Then there is the question of whether economics can provide a case for public support for the Arts that is whether the State should subsidize the Arts This is a familiar problem in the economics of welfare but its application to the Arts raises novel questions and even economists are not agreed on whether economics can provide such a rationale Also there is the question of criteria for public expenditure on the Arts assuming that the case for some public expenditure has been made Can economists tell us how much the State should spend on the Arts Surely they can help us with a host of other questions should museums and galleries charge fees should museums ever sell off parts of their collections can the Arts economize on their expenditures how can modern music be most effectively encouraged by public funds are ticket prices an important element in the demand for the Arts and does the low pay of artists discourage individuals from taking up artistic occupations
