In Stravinsky's Orbit Klara Moricz, 2020-08-04 The Bolsheviks 1917 political coup caused a seismic disruption in Russian culture Carried by the first wave of emigrants Russian culture migrated West transforming itself as it interacted with the new cultural environment and clashed with exported Soviet trends In this book Klara Moricz explores the transnational emigrant space of Russian composers Igor Stravinsky Vladimir Dukelsky Sergey Prokofiev Nicolas Nabokov and Arthur Louri in interwar Paris Their music reflected the conflict between a modernist narrative demanding innovation and a narrative of exile wedded to the preservation of prerevolutionary Russian culture The emigrants and the Bolsheviks contrasting visions of Russia and its past collided frequently in the French capital where the Soviets displayed their political and artistic products Russian composers in Paris also had to reckon with Stravinsky's disproportionate influence if they succumbed to fashions dictated by their famous compatriot they risked becoming epigones if they kept to their old ways they quickly became irrelevant Although Stravinsky's neoclassicism provided a seemingly neutral middle ground between innovation and nostalgia it was also marked by the exilic experience Moricz offers this unexplored context for Stravinsky's neoclassicism shedding new light on this infinitely elusive term

spreading not only across the entirety of the continent but also immigrating to the Americas The first Gypsy migration included farmworkers blacksmiths and mercenary soldiers as well as musicians fortune tellers and entertainers At first they were generally welcome as an interesting diversion to the dull routine of that period Soon however they attracted the antagonism of the governing powers as they have continually done throughout the following centuries The second edition of the Historical Dictionary of the Gypsies Romanies seeks to end such prejudice by clarifying the facts about this nomadic people Through a list of acronyms a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on significant persons places events institutions and aspects of culture society economy and politics the history of the Gypsies and their culture is told Black Earth Osip Mandelstam, 2021-07-06 Russia's foremost modernist master in a major new translation Osip Mandelstam has become an almost mythical figure of modern Russian poetry his work treasured all over the world for its lyrical beauty and innovative revolutionary engagement with the dark times of the Stalinist era While he was exiled in the city of Voronezh the black earth region of Russia his work as Joseph Brodsky wrote developed into a poetry of high velocity and exposed nerves becoming more a song than ever before not a bardlike but a birdlike song something like a goldfinch tremolo Peter France who has been brilliantly translating Mandelstam's work for decades draws heavily from Mandelstam's later poetry written in Voronezh while also including poems across the whole arc of the poet's tragically short life from his early symbolist work to the haunting elegies of old Petersburg to his defiant Stalin poem A selection of Mandelstam's prose irradiates the poetry with warmth and insight as he thinks back on his Petersburg childhood and contemplates his Jewish heritage the sunlit qualities of Hellenism Dante's Tuscany and the centrality of poetry in society *War, the Hero and the Will* Jane L. Bownas, 2015-01-01 Thomas Hardy's *The Dynasts* and Leo Tolstoy's *War and Peace* are both works which defy attempts to assign them to a particular genre but might seem to have little else in common apart from being set in the same period of history This study argues that there are important similarities between these two works and examines the close correspondence between Hardy's and Tolstoy's thinking on themes relating to war ideas of the heroic and the concept of free will Although coming from very different backgrounds both writers were influenced by their experiences of war Tolstoy directly by involvement in the wars in the Caucasus and the Crimea and Hardy indirectly by the events of the Anglo Boer Wars Their reaction to these experiences found expression in their descriptions of the wars fought against Napoleon at the beginning of the century Hegel saw Napoleon as the great world historical man of his time and this work considers the ways in which Hardy and Tolstoy undermine this view portraying Napoleon's physical and mental decline and questioning the role he played in determining the outcomes of military actions Both writers were deeply interested in the question of free will and determinism and their writings reveal their attempts to understand the nature of the force which lies behind men's actions Their differing views on the nature of consciousness are considered in the light of modern research on the development of the conscious brain **The Encyclopedia Americana**, 2000 **Georgia** Peter Nasmyth, 2000 *The*
