**Building the Buddhist Revival** Gregory Adam Scott, 2020

Between 1850 and 1966 tens of thousands of Buddhist sacred sites in China were destroyed victims of targeted destruction accidental damage or simply neglect During the same period however many of these sites were reconstructed a process that involved both rebuilding material structures and reviving religious communities Gregory Adam Scott argues that over the course of this period monastery reconstruction in China changed drastically The power to determine whether and how a monastery would be reconstructed and the types of activities that would be reinstated or newly introduced began to shift from religious leaders and communities to state agencies that had a radically different set of motivations and values Building the Buddhist Revival explores the history of Chinese Buddhist monastery reconstruction from the end of the Imperial period through the first seventeen years of the People's Republic

*The Buddhist Revival in China* Holmes Welch, 1968    The Buddhist Revival in China Holmes Hinckley WELCH, 1968    **Tibetan Buddhists in the Making of Modern China** Gray Tuttle, 2005-04-26

Over the past century and with varying degrees of success China has tried to integrate Tibet into the modern Chinese nation state In this groundbreaking work Gray Tuttle reveals the surprising role Buddhism and Buddhist leaders played in the development of the modern Chinese state and in fostering relations between Tibet and China from the Republican period 1912 1949 to the early years of Communist rule Beyond exploring interactions between Buddhists and politicians in Tibet and China Tuttle offers new insights on the impact of modern ideas of nationalism race and religion in East Asia After the fall of the Qing dynasty in 1911 the Chinese Nationalists without the traditional religious authority of the Manchu Emperor promoted nationalism and racial unity in an effort to win support among Tibetans Once this failed Chinese politicians appealed to a shared Buddhist heritage This shift in policy reflected the late nineteenth century academic notion of Buddhism as a unified world religion rather than a set of competing and diverse Asian religious practices While Chinese politicians hoped to gain Tibetan loyalty through religion the promotion of a shared Buddhist heritage allowed Chinese Buddhists and Tibetan political and religious leaders to pursue their goals During the 1930s and 1940s Tibetan Buddhist ideas and teachers enjoyed tremendous popularity within a broad spectrum of Chinese society and especially among marginalized Chinese Buddhists Even when relationships between the elite leadership between the two nations broke down religious and cultural connections remained strong After the Communists seized control they continued to exploit this link when exerting control over Tibet by force in the 1950s And despite being an avowedly atheist regime with the exception of the Cultural Revolution the Chinese communist government has continued to recognize and support many elements of Tibetan religious if not political culture Tuttle's study explores the role of Buddhism in the formation of modern China and its relationship to Tibet through the lives of Tibetan and Chinese Buddhists and politicians and by drawing on previously unexamined archival and governmental materials as well as personal memoirs of Chinese politicians and Buddhist monks and

Hammerstrom, 2015-08-11 Kexue or science captured the Chinese imagination in the early twentieth century promising new knowledge about the world and a dynamic path to prosperity Chinese Buddhists embraced scientific language and ideas to carve out a place for their religion within a rapidly modernizing society Examining dozens of previously unstudied writings from the Chinese Buddhist press this book maps Buddhists' efforts to rethink their traditions through science in the initial decades of the twentieth century Buddhists believed science offered an exciting alternative route to knowledge grounded in empirical thought much like their own They encouraged young scholars to study subatomic and relativistic physics while still maintaining Buddhism's vital illumination of human nature and its crucial support of an ethical system rooted in radical egalitarianism Showcasing the rich and progressive steps Chinese religious scholars took in adapting to science's rising authority this volume offers a key perspective on how a major Eastern power transitioned to modernity in the twentieth century and how its intellectuals anticipated many of the ideas debated by scholars of science and Buddhism today

**Restless China** Eugene Perry Link, Richard P. Madsen, Paul G. Pickowicz, 2013-03-28 This compelling book explores the explosive pace of change in China and how its citizens are grappling with a dramatically new world both in the public and private spheres China's stratospheric growth has made it the second largest economy in the world and one of the most unequal Marxist ideology and socialist ideals have almost completely collapsed replaced by a combination of materialism and assertive nationalism The vast migration of labor from countryside to city has continued apace The pressures of a hypercompetitive market economy are ripping apart the traditional family and threatening the environment Corruption has reached new heights The political system is even more rigid but perhaps more brittle than a decade ago There is enormous popular pride in the ascension of China to the rank of global superpower and general satisfaction in the material benefits that the poor as well as the rich have been gaining from an expanding economy But there is also great restlessness anger about structural injustice and political corruption and a search for new forms of spirituality and ethics to replace a collapsing moral order The question What does it mean in the new day to be Chinese lurks just beneath the surface This unique interdisciplinary book frames this central issue through an innovative set of case studies on such cutting edge topics as reality dating shows countercultural invented language star bloggers faith healers and subversive jokes Contributions by Jeremy Brown X L Ding Hsiung Ping chen William Jankowiak Shuyu Kong Perry Link Richard P Madsen David Moser Paul G Pickowicz Su Xiaokang Xiao Qiang Yunxiang Yan and Yang Lijun

philosophical basis to Asian cultural systems      **The Religious Question in Modern China** Vincent Goossaert, David A. Palmer, 2011-04-15 Recent events from strife in Tibet and the rapid growth of Christianity in China to the spectacular expansion of Chinese Buddhist organizations around the globe vividly demonstrate that one cannot understand the modern Chinese world without attending closely to the question of religion The Religious Question in Modern China highlights parallels and contrasts between historical events political regimes and cultural movements to explore how religion has challenged and responded to secular Chinese modernity from 1898 to the present Vincent Goossaert and David A Palmer piece together the puzzle of religion in China not by looking separately at different religions in different contexts but by writing a unified story of how religion has shaped and in turn been shaped by modern Chinese society From Chinese medicine and the martial arts to communal temple cults and revivalist redemptive societies the authors demonstrate that from the nineteenth century onward as the Chinese state shifted the religious landscape consistently resurfaced in a bewildering variety of old and new forms The Religious Question in Modern China integrates historical anthropological and sociological perspectives in a comprehensive overview of China s religious history that is certain to become an indispensable reference for specialists and students alike      **The Missionary Review of the World** , 1926
