The Cairo Connection:

The Cairo Connection Dennis Conroy, 2005 A brutal saga of unremitting avarice corruption violence and murder combined with the callous exploitation of vast numbers of narcotics addicts in Middle East Europe and USA A narrative of organized crime operated by experts and superabundantly lucrative to the criminal elements involved A young man through greed for wealth plus a feeble conscience is lured into this maelstrom of moral degeneration and succumbs to complete self gratification gradually becoming one of the leading participants in this vicious system under the willing guidance of his tutors in crime The desperate trail meanders from Egypt to Sicily Corsica and Marseilles leading to Paris and the ultimate depredation of Europe by the drug cartel The final act of this episode opens in Miami USA It is suggested that the moral behind this epic is not that CRIME DOES NOT PAY but rather that it pays to know plenty and to keep your mouth well shut

U. Reavis, 1879 The Arab-african Connection Victor T Le Vine, Timothy W Luke, 2019-07-11 Between June 1967 and the end of 1973 most independent Black African states abandoned their neutral position in the Middle East conflict cut their ties with Israel and gave full support to the political aims of the Arab states Since the beginning of 1974 however and despite attempts by the Arabs to shield their new allies from the adverse effects of

the 1973 74 world oil and economic crises the alliance has begun to fragment as the African states become transformed from partners to clients and dependents of the Arabs This study examines the roots of the African conversion the nature of the evolving relationship between the African and Arab states and the reasons economic and political for the transformation of the alliance Basic to that transformation the authors argue is a fundamental change in the international status and power of the Arab states a change that has led them to cast their lot with the industrialized First World rather than with the poorer less developed countries
