The Call of Pacal Votan José Argüelles,1996      Time and the Technosphere José Argüelles,2002-08-03 A groundbreaking study that distinguishes the natural time of the cosmos from artificial mechanistic time Reveals September 11 as the signal of the end of artificial time according to the Law of Time Long awaited sequel to the author s bestselling book The Mayan Factor Explains the Great Calendar Change of 2004 and its enormous potential for the future of humanity In Time and the Technosphere Jos Arg elles presents a groundbreaking study that distinguishes the natural time of the cosmos from the artificial mechanistic time under which we currently live Arg elles defines the actual nature of time as the frequency of synchronization Applying this Law of Time to an understanding of the entire system of life on Earth he shows that in order to not destroy Earth s ability to sustain life we must change our definition of time and adopt a natural harmonic calendar based on the 13 moon 28 day cycle Until the creation of the Gregorian calendar and the 60 minute hour most of humanity lived by the 28 day cycle of natural time The adoption of artificial time has subjected us to a 12 60 time frequency that governs the entire global industrialized civilization the technosphere With the collapse of the Twin Towers on September 11 a fissure was created in this artificial technosphere opening up the noosphere Earth s mental envelope Humanity has a golden opportunity to leave the strife of the past and enter a time of peace by adopting a harmonious natural calendar that will repair the damages caused by the irregular tempo of technospheric time Our last best chance to adopt this natural time and step into the bright new future promised by the galactic shift of 2012 is the Great Calendar Change of 2004 a new discovery based on the author s mathematical research into the Mayan calendar first begun in his landmark work The Mayan Factor In Time and the Technosphere Arg elles reveals the clear distinction between third dimensional astronomical time and the fourth dimensional synchronic order of the Law of Time which holds enormous potential for the future of humanity      Time, Synchronicity and Calendar Change Stephanie South,2011-06-01 One time is ending but another is just beginning an entirely new era in the history of the Earth the noosphere This is the message of Jos Arg elles In this authorized Biography Stephanie South leads the reader into the world of one of the most unique visionaries in history exploring the nature of time telepathy Earth changes prophecy synchronicity and awakening the Earth to a new time South s previous book 2012 Biography of a Time Traveler the Journey of Jos Arg elles reveals this visionary in his formative years Time Synchronicity and Calendar Change opens into the complete range of his life s work to present with many implications for the future of our planet A prolific author and founder of the Foundation for the Law of Time which promotes peace through culture and art Arg elles was the first to introduce the date December 21 2012 into the mass consciousness with his best selling book The Mayan Factor After a lifelong study of the ancient Mayan prophecies and more than 18 years of Tibetan Buddhist meditation practice Arg elles realized that he was the recipient of a galactic Mayan mind transmission which eventually revealed the discovery of the Telektonon Prophecy of Pacal Votan The purpose of this transmission stream was to help prepare and

stabilize human consciousness for a magnetic shift in 2012 2013 Arg elles travelled the world several times over to deliver this prophecy to a diverse range of people from Russian scientists to the Vatican to the Hopi nation the Rainbow Nation and the Nation of Islam Time Synchronicity and Calendar Change offers many thought provoking reflections about the future of our world and the potential of humanity as well as a thorough examination of what it means to be a cosmic messenger on a planet rapidly shifting gears from the biosphere to the noosphere Just as the final chapter was being written Jos shifted dimensions on March 23 2011 just 12 days after the Japanese tsunami The Afterword contains the startling synchronicities that surrounded his passing as well as many of his final journal entries and reflections during his final three days on earth

Beyond the End of the World - 2012 and apocalypse Will Black,2010-10 This book cuts through rampant misinformation circulating about 2012 to present a coherent understanding of the Mayan calendar and the significance of the date As an anthropologist and journalist Will Black has conducted research into 2012 millenarianism for several years He consequently offers a much broader and clearer picture than other books on the subject In their haste to jump onto the 2012 bandwagon most authors seem to have forgotten that the Maya are a real people often living in as violently precarious circumstances as their ancestors Will Black demolishes fantasies about crumbling calendar stones before examining the brutal cocaine wars blighting Central America The hedonistic world of many westerners who have become interested in 2012 is contrasted sharply with the lives of ancient and modern Maya The extraordinary world of shamans is contrasted with that of New Age seekers Information about key visionary substances is offered Manifesto for the Noosphere Jose Arguelles,2011-09-06 The noosphere identified in the early twentieth century as intrinsic to the next stage of human and terrestrial evolution is defined as the Earth s mental sphere or stratum of human thought Manifesto for the Noosphere the final work by renowned author Jos Arg elles predicts that the noosphere will be fully accessed on December 21 2012 but warns that we will only successfully make this evolutionary jump through an act of collective consciousness among humans on Earth The ascension to the noosphere or Supermind using the terminology of Sri Aurobindo Arg elles says will be an unprecedented mind shift that mirrors the emergence of life itself on the planet Manifesto for the Noosphere is intended to inform and prepare humanity for the nature and magnitude of this shift Arg elles brings in the Mayan long count calendar radical theories on the nature of time advanced states of consciousness and the possible intervention of galactic intelligence He carefully details the role of the noosphere in relation to other planetary strata hydrosphere biosphere atmosphere as well as the history and nature of the biosphere noosphere transition and the intermediary phases of the technosphere and cybersphere About the Imprint EVOLVER EDITIONS promotes a new counterculture that recognizes humanity s visionary potential and takes tangible pragmatic steps to realize it EVOLVER EDITIONS explores the dynamics of personal collective and global change from a wide range of perspectives EVOLVER EDITIONS is an imprint of North Atlantic Books and is produced in collaboration with Evolver LLC **Connecting Link** , *The British National Bibliography* Arthur James Wells,1998
