The Campaign In Mesopotamia Volume I:

The Campaign in Mesopotamia Brig -Gen F J Moberley, 2024-10-08 The first of four volumes covering the campaign in Mesopotamia today's Iraq that was fought mainly by Indian Army troops only one British division was there the 13th Western which arrived from Gallipoli in February 1916 This volume opens with background on the geography of the country the pre war political scene the Turks the Indian Army and the inception of the operations The history of the campaign opens with the landing of Force D in Mesopotamia in November 1914 the occupation of Basra and capture of Qurna It covers the defeat of the Turkish counter offensive the capture of Amara in June 1915 and on to the Battle of Kut in September concluding with the situation at the beginning of October 1915 **Indian Army and the First World War** Kaushik Roy, 2018-06-29

Accustomed to conducting low intensity warfare before 1914 the Indian Army learnt to engage in high intensity conventional warfare during the course of World War I thereby exhibiting a steep learning curve Being the bulwark of the British Empire in South Asia the brown warriors of the Raj functioned as an imperial fire brigade during the war Studying the Indian Army as an institution during the war Kaushik Roy delineates its social cultural and organizational aspects to understand its role in the scheme of British imperial projects Focusing not just on history from above but also history from below Roy analyses the experiences of common soldiers and not just those of the high command Moreover since society along with the army was mobilized to provide military and non military support this volume sheds light on the repercussions of this mass mobilization on the structure of British rule in South Asia Using rare archival materials published autobiographies and diaries Roy's work offers a holistic analysis of the military performance of the Indian Army in major theatres during the war **The Campaign**

in Mesopotamia Brig -Gen F J Moberley, 2024-10-08 This concluding fourth volume in the Official History of the Mesopotamian campaign takes the story from May 1917 to the conclusion of hostilities and the armistice with Turkey which came into force on 31 October 1918 It begins with a very useful chronological summary of the campaign in Mesopotamia showing the respective periods and details of operations covered by each of the four volumes which constitute the history of the campaign An extensive appendix gives details of the distribution of the troops of the Mesopotamia Expeditionary Force as on 27 May 1917 and in the following appendix compares the order of battle of the Turkish Sixth Army and its strength in rifles sabres and machine guns on 17 August 1917 The narrative opens with the description of the River Euphrates operations and the British victory at Ramadi under General Maude who tragically died of cholera on 18 November 1917 A very able commander he was a great loss Other operations described include NW Persia and the Dunsterville Force in Kurdistan and on the shores of the Caspian Sea occupation and defence of Baku and the advance on Mosul Only one British division the 13th Western served in Mesopotamia compared with nine Indian divisions including one cavalry Total casualties amounted to 92 501 of whom 14 814 were killed in action or died of wounds while 12 807 died of disease Appendices also give the distribution of the Mesopotamia Expeditionary Force on various dates and list the principal officers brigadier

generals and above in the Force on 1 December 1917 and 1 November 1918 There is a good index **The Monthly Army List** Great Britain. Army, 1925 The Clergy in Khaki Edward Madigan, 2016-03-23 British army chaplains have not fared well in the mythology of the First World War Like its commanders they have often been characterized as embodiments of ineptitude and hypocrisy Yet just as historians have reassessed the motives and performance of British generals this collection offers fresh insights into the war record of British chaplains Drawing on the expertise of a dozen academic researchers the collection offers an unprecedented analysis of the subject that embraces military political religious and imperial history The volume also benefits from the professional insights of chaplains themselves several of its contributors being serving or former members of the Royal Army Chaplains Department Providing the fullest and most objective study yet published it demonstrates that much of the post war hostility towards chaplains was driven by political social or even denominational agendas and that their critics often overlooked the positive contribution that chaplains made to the day to day struggles of soldiers trying to cope with the appalling realities of industrial warfare and its aftermath As the most complete study of the subject to date this collection marks a major advance in the historiography of the British army of the British churches and of British society during the First World War and will appeal to researchers in a broad range of academic disciplines British Miscalculations Isaiah Friedman, 2017-09-08 In the aftermath of World War I there was furious agitation throughout Islam against the dismemberment of the Ottoman Empire Coupled with the powerful effect of the principle of self determination British indifference to Muslim sentiments gave rise to militant nationalism in Islam which became de facto anti Western This detailed and convincing account describes British indecisiveness policy contradictions and how militant nationalism was aggravated by the Greek invasion of Smyrna and its ambition to create a Hellenic Empire in Anatolia with Britain's connivance Immediately after World War I there was a fair chance of mutual coexistence and good relations between Arabs and Jews in Palestine This possibility was nipped in the bud by the military administration 1918 1920 responsible for the anti Jewish riots in Jerusalem in April 1920 High Commissioner Herbert Samuel supported the Arab extremists in his misguided policy and complicated the situation further The appointment of Hajj Amin al Husseini to the exalted post of Grand Mufti of Jerusalem and subsequently to the presidency of the Supreme Moslem Council of the Palestinians proved fatal to Arab Jewish relations and to the possibility of peace As Friedman shows the British administration of Palestine bears a considerable share of responsibility for the Arab Zionist conflict in Palestine Against this diplomatic background Arab Jewish hostilities thrived with consequences that endure today **Naval Power and Expeditionary Wars** Bruce A. Elleman, S.C.M. Paine, 2010-12-09 This book examines the nature and character of naval expeditionary warfare in particular in peripheral campaigns and the contribution of such campaigns to the achievement of strategic victory Naval powers which can lack the massive ground forces to win in the main theatre often choose a secondary theatre accessible to them by sea and difficult for their enemies to reach by land giving the sea power and its expeditionary

forces the advantage The technical term for these theatres is peripheral operations The subject of peripheral campaigns in naval expeditionary warfare is central to the British the US and the Australian way of war in the past and in the future All three are reluctant to engage large land forces because of the high human and economic costs Instead they rely as much as possible on sea and air power and the latter is most often in the form of carrier based aviation In order to exert pressure on their enemies they have often opened additional theaters in on going regional and civil wars This book contains thirteen case studies by some of the foremost naval historians from the United States Great Britain and Australia whose collected case studies examine the most important peripheral operations of the last two centuries This book will be of much interest to students of naval warfare military history strategic studies and security studies *Moslem World* ,1924 **The Moslem World** ,1923 **The Muslim World** ,1924 **Ottoman Army Effectiveness in World War I** Edward J. Erickson,2007-02 This volume examines how the Ottoman Army was able to evolve and maintain a high level of overall combat effectiveness despite the primitive nature of the Ottoman State during the First World War Structured around four case studies at the operational and tactical level of campaigns involving the Ottoman Empire and the British Empire Gallipoli in 1915 Kut in 1916 Third Gaza Beersheba in 1917 and Megiddo in 1918 For each of these campaigns particular emphasis is placed on examining specific elements of combat effectiveness and how they affected that particular battle The prevalent historiography attributes Ottoman battlefield success primarily to external factors such as the presence of German generals and staff officers climate weather and terrain that adversely affected allied operations allied bumbling and amateurish operations and inadequate allied intelligence By contrast Edward J Erickson argues that the Ottoman Army was successful due to internal factors such as its organizational architecture a hardened cadre of experienced combat leaders its ability to organize itself for combat and its application of the German style of war Ottoman Army Effectiveness in World War I will be of great interest to students of the First World War military history and strategic studies in general *Journal of the United States Artillery* ,1925 The Coast Artillery Journal ,1925 J. Boshier,2010-04 During the century 1850 1950 Vancouver Island attracted Imperial officers and other Imperials from India the British Isles and elsewhere in the Empire Victoria was the main British port on the north west Pacific Coast for forty years before the city of Vancouver was founded in 1886 to be the coastal terminus of the Canadian Pacific Railway These two coastal cities were historically and geographically different The Island joined Canada in 1871 and thirty five years later the Royal Navy withdrew from Esquimalt but Island communities did not lose their Imperial character until the 1950s P 4 of cover Iraq Philip Willard Ireland,2013-10-28 This book first published in 1937 is being re issued now in response to recent events in the Middle East events which have left many specialists trying to discern the region s future by looking to its past The book explores the process by which Iraq was transformed from a remote and neglected portion of the Ottoman Empire in 1914 to a political unit possessing all the machinery of a modern state The growth of Arab nationalism in the region the establishment of a provisional government and

the search for a ruler all had to be attended to by the British in the mandated territory Unmistakable modern day parallels make this a fascinating book for Middle East scholars and followers of current events 1917 Ian Frederick William Beckett, 2009 The growing military political and socio economic costs for all belligerents as the Great War entered its fourth year were increasingly evident liberal democracies and authoritarian states alike having to remobilise public opinion for yet greater sacrifices While the Western Front was facing these challenges 1917 was also marked by the collapse of Tsarist Russia and by food riots resulting both from the Entente's blockade of Central Europe and the revival of unrestricted submarine warfare by the Central Powers Ottoman Turkey was feeling the strain of war as well as British forces advanced in both Palestine and Mesopotamia For states as yet uncommitted to war such as the United States and China 1917 was a year of decision This volume amply illustrates the significance of this crucial year in the global conflict Contributors are Lawrence Sondhaus Eric Grove Keith Grieves Matthew Hughes Kaushik Roy Vanda Wilcox Laura Rowe and Nick Hewitt *The American Historical Review* John Franklin Jameson, Henry Eldridge Bourne, Robert Livingston Schuyler, 1923 *American Historical Review* is the oldest scholarly journal of history in the United States and the largest in the world Published by the American Historical Association it covers all areas of historical research Journal of the Royal Central Asian Society Royal Central Asian Society, 1924 *Journal of the United Service Institution of India* United Service Institution of India, 1924

Britain and the Armenian Question Akaby Nassibian, 2023-11-06 First published in 1984 Britain and the Armenian Question examines the direction changes and ramifications of British policy towards Armenia during 1915 to 1923 The author has made extensive use of parliamentary papers and those of the Cabinet Foreign Office War Office and India office as well as documents produced by pro Armenian groups during the period This material is used to build up a detailed and incontrovertible study of British policy which shows the extent to which it was governed by self interest even when support for Armenia was its most altruistic Once Britain secured predominance in the Persian Gulf she lost all her interest in Armenian territory and the dilemma was posed when the war ended not only did she no longer need Armenia but also had to decide who to support in Russia Armenia lost out on all sides and was compelled eventually to adapt herself to the policies of the surrounding countries This is an interesting read for scholars and researchers of international relations and international political history
