The Canadian Corporate Elite- on Analysis of Economic Power Clément Wallace,1975 **Multinationals in Canada: Theory, Performance and Economic Impact** A.M. Rugman,2013-03-09 Multinational enterprises have become one of the distinctive institutions of our times Controversy over their economic and political effects and over appropriate public policy responses has become common in home and host countries and in international agencies Much of this debate is reminiscent of the role of large corporations generally particularly in their interregional and intergroup effects The multinational setting however would have raised distinctive issues even apart from the strong surges of nationalism and anti imperialism which have marked recent history Canada has a long and unusual experience with such enterprises Foreign control of capital in the nonfinancial industries manufacturing petroleum and gas other mining and smelting utilities merchandising was already 20 percent in 1930 and 25 percent in 1948 It rose to 36 percent by the late 1960s but has since receded to about 30 percent In 1975 fully 55 percent of the capital in manufacturing was controlled outside Canada as was 72 per cent of that in petroleum and gas and 58 percent in other mining These figures exceed those of other developed countries although there have been striking increases in recent decades About 80 percent of the direct investment capital in Canada is from the United States Recently Canadians have become aware of a surge of Canadian direct investment abroad which on a flow basis has exceeded inflows exclusive of retained earnings for most of the 1970s

Transnationalism Michael Derek Behiels,Reginald C. Stuart,2010 Original essays that argue the significance of the shared North American history of Canada and the United States rather than Canadian American relations In Search of Canada Stephen Richards Graubard,1989-01-01 In Search of Canada The Myth of the North American City Michael Goldberg,John Mercer,2011-11-01 The continuing tendency to continentalize Canadian issues has been particularly marked in the area of urban studies where United States based research findings methodologies and attitudes have held sway In this book Goldberg and Mercer demonstrate that the label North American City as widely used is inappropriate and misleading in discussion of the distinctive Canadian urban environment Examining such elements of the cultural context as mass values social and demographic structures the economy and political institutions they reveal salient differences between Canada and the United States One of the most important of the many contextual differences is the strong collective sense in Canada which accepts more public intervention in social and economic matters in contrast to the American commitment to individualism Canadians consequently expect a livable central city which is compact and well served by public transit and which has a fiscally sound local government To demonstrate these issues the discussion includes a detailed cross national empirical analysis of over 300 North American metropolitan areas along some three dozen dimensions including density transportation household change and structure income and fiscal disparities and economic structure Since much urban

planning in Canada is based upon the continentalist assumption this volume should generate a reassessment of policy and encourage the development of a research base to suit the distinctiveness of the Canadian experience With growing pressures to take a North American view of Canadian policies it is vitally important that the differences delineated in this book are understood not just for their urban policy implications but for broader purposes as well **Wealth by Stealth** Harry Glasbeek, 2002-10-01 How is it that corporations are able to behave irresponsibly criminally and undemocratically *Wealth by Stealth* is a scathing introduction to the operations of the modern corporation written by a corporate lawyer Many writers point to the growth of undemocratic corporate power Glasbeek takes these observations further and outlines clearly how corporations become so powerful He also shows how they are able to act without regard to the behaviour and laws governing citizens and other groups Glasbeek is known by generations of students for his brilliant funny lectures at Osgoode Hall Law School With *Wealth by Stealth* his informative critique of corporate behaviour becomes available and accessible to all

Remaking Liberalism Barry Ferguson, 1993-10-05 Adam Shortt began teaching political economy at Queen's University in the late 1880s His theories attracted students and faculty who were interested in applying the new tenets of economics and political science to questions of Canadian public policy The concerns of the group that formed around Shortt were broad and self consciously cumulative a perspective promoted particularly by Shortt's colleague and successor O D Skelton The group encouraged reassessment of the role of the social scientist in the university and society and analysed contentious economic and political questions of the day Addressing economic policies such as industrialization foreign investment labour business relations and prairie settlement they examined the political and governmental ramifications of economic problems concentrating on the role of political parties the broad role of government the place of the public service and ethnic class and regional political relations Ferguson demonstrates that Shortt Skelton Clark and Mackintosh clearly argued on behalf of the new liberalism emphasizing individual rights and positive government He suggests that their ideas reveal an intellectual position which differed from the imperialist and continentalist alternatives that dominated Canadian thinking at the time

Conflicts About Class David J. Lee, Bryan S. Turner, 2014-09-12 In recent years there has been growing debate among sociologists about the concept of class and its relevance to the highly industrialised world of the late twentieth century This book makes available in a single volume all of the key contributions to this debate and takes it a step further with a number of specially commissioned pieces An editorial introduction which sets the main arguments in context additional commentary and two alternative conclusions help to make this a unique text for a subject that remains crucial yet highly contentious

Uneasy Partnership Geoffrey Hale, 2018-01-25 In this new edition of *Uneasy Partnership* Geoffrey Hale examines the interdependent relationship between Canadian governments and businesses considering governments multiple roles in the economy and their implications for the business environment Hale provides an overview of the historical dimensions of Canada's political economy and relations between government and business Readers are invited to consider topics such as

corporate power the implications of Canada's economic structure regional economic differences the cross cutting effects of globalization and the role of interest groups in political and policy processes In a thoughtful and well researched style Hale lays out how the partnership between business and government in Canada is an uneasy one and one whose capacity to adapt to ongoing change is essential in an uncertain world *Brewed in the North* Matthew J. Bellamy, 2019-10-10 For decades the name Labatt was synonymous with beer in Canada but no longer *Brewed in the North* traces the birth growth and demise of one of the nation's oldest and most successful breweries Opening a window into Canada's complicated relationship with beer Matthew Bellamy examines the strategic decisions taken by a long line of Labatt family members and professional managers from the 1840s when John Kinder Labatt entered the business of brewing in the Upper Canadian town of London to the globalization of the industry in the 1990s Spotlighting the challenges involved as Labatt executives adjusted to external shocks the advent of the railway Prohibition war the Great Depression new forms of competition and free trade Bellamy offers a case study of success and failure in business Through Labatt's lively history from 1847 to 1995 this book explores the wider spirit of Canadian capitalism the interplay between the state's moral economy and enterprise and the difficulties of creating popular beer brands in a country that is regionally linguistically and culturally diverse A comprehensive look at one of the industry's most iconic firms *Brewed in the North* sheds light on what it takes to succeed in the business of Canadian brewing **Capitalism and Colonialism: The Making of Modern Canada 1890-1960** Bryan D. Palmer, 2025-09-02 This second volume of Bryan Palmer's history of Canada covers 1890 to 1960 Weaving together themes that include business labour politics and social history this account brings the experiences of Indigenous peoples into the centre of the narrative Canada experienced extraordinary growth during these decades notably after the Second World War when many Canadians quickly became far better off Yet vast inequalities persisted Indigenous peoples experienced ongoing and often worsening deprivation and ordinary people saw little or no real improvement in their lives These realities set the stage for the interplay of reform resistance and reaction that followed after 1960 Palmer examines the continuing role of capitalism and colonialism in structuring Canada in the period between 1890 and 1960 from capital's conflicts and fragile ententes with labour to the struggles of Indigenous Peoples and francophone Canada and the changing role of Canadian capital internationally Relying on the work of scholars who have produced a vast academic literature on a wide range of topics in Canadian history Bryan Palmer offers a new history of Canada which reflects the knowledge and values of 21st century Canadians Class and Race Formation in North America James W. Russell, 2009-01-01 Russell's meticulously researched and highly detailed book presents a critically important people's history of North America It provides rich insights and demonstrates the potential of comparative research to broaden our perspective Dan Zuberi University of British Columbia Their Town Bill Freeman, Marsha Aileen Hewitt, 2016-03-15 This book is a classic of its kind a no holds barred portrait of Hamilton civic life in the 1970s The focus is on power and the powerful On the surface power was wielded by the

city's businessman mayor a business oriented city council and a Liberal Party machine fronted by prominent cabinet minister John Munro Behind the scenes Bill Freeman and Marsha Hewitt found a fascinating set of characters and organizations They offer a history of organized crime in Hamilton from its rum running heyday of Rocco Perri to Johnny Papalia and his associates in the 1970s Freeman and Hewitt provide a critical analysis of The Hamilton Spectator's often unquestioning support of the business agenda for the city which produced the ruinous demolition of the downtown core and its replacement with Jackson Square They also examine the labour movement's role in civic life A chapter on the John Munro political machine written by Henry Jacek shows how politics is integrated into the power structure of the city The book tells the story of key development projects of the 1960s and 1970s that were supposed to transform the central city The account of the notorious contracts for dredging Hamilton Harbour is compelling reading The authors look closely at the winners and losers in these projects Today Hamiltonians can make their own judgments about the long term impact of these projects on their city
