The Canadian Political System Environment Structure And Process:

The Canadian Political System Richard J. Van Loon, Michael S. Whittington, 1987 *The Canadian Political System* Richard J. Van Loon, 1990 Political Support in Canada Richard A. Preston, E. Donald Briggs, 1983 All governments require popular support and in democracies this support must be maintained by noncoercive means This book analyzes the question of political support in Canada a country in which the maintenance of the integrity of the political community has been and continues to be in the words of the editors the single most salient aspect of the country's political life The nature of popular support is first considered in broad theoretical terms then from the standpoint of those agents most responsible for maintaining support in Canadian democracy then as influenced by particular issues and policies and finally as it affects and is affected by the separatist movement in Quebec *The Canadian Political System* Richard J. Van Loon, Michael S. Whittington, 1976 **Protecting Canadian Democracy** Canadian Centre for Management Development, 2003 This first in depth analysis of Canada's Senate in 40 years The Political Culture of Planning J Barry Cullingworth, J. Barry Cullingworth, 2002-09-26 The Political Culture of Planning is written for two quite distinct readerships The main body of the book synthesizes a mass of information to provide an overview of a complex and amorphous field This material is designed to meet the needs of students who require a succinct account of the American system of land use planning These readers can ignore the notes For those who are embarking upon a much wider and deeper study of land use planning in the US the notes are crucial they provide the guideposts to an immensely rich literature The first four parts of the text present the main issues of land use planning in the US Part 1 assesses the US zoning system The introductory chapter discusses the meaning of zoning and its difference from planning the primacy of local governments the constitutional framework and the role of the courts Chapter two provides the historical background to zoning and an outline of the classic Euclid case Chapter three discusses the objectives and nature of zoning and the use which local governments have made of its inherently inflexible character Chapter four acts as a corrective to this view describing how lawyers and planners have shown remarkable ingenuity in adapting zoning to the demands of a changing society Part 2 deals with the perennial issues of discrimination financing infrastructure for new development and the process for negotiating zoning matters Part 3 presents a discussion of two overlapping issues of increasing significance aesthetics and historic preservation Part 4 focusses on the main issue facing land use planners attempting to channel the forces of development into spatial forms held to be socially desirable Part 5 consists of a series of broad ranging essays which discuss land use planning in the US its institutional and cultural framework and the reasons for its particular character Part 6 discusses the limited possibilities for land use reform in the US drawing on the author's considerable experience in both Britain and Canada in order to interpret the limitations and potentialities of land use planning in the US **Federal-Provincial Collaboration** Donald J. Savoie, 1981 What implications does the GDA approach have for federal provincial relations How does it relate to the constitutional division of responsibility

What advantages and drawbacks does it hold for Canada's political system More generally what can we conclude about the GDA approach *Jean Monnet and Canada* Trygve Ugland,2011-01-22 Jean Monnet 1888 1979 is often viewed as the chief architect of the European Coal and Steel Community which over time evolved into today's European Union Monnet spent his early years working as an agent for his father a cognac producer It was this experience that took him to Scandinavia England the United States and most importantly Canada where he was exposed to the country's unique form of federalism Drawing on a wide variety of empirical sources including unpublished documents correspondence and original historical data extracted from archives both in Canada and Europe Trygve Ugland's *Jean Monnet and Canada* argues that the extensive period of time Monnet spent in Canada between 1907 and 1914 had a formative influence on the achievements of his later years particularly on the institutional construction of Europe *Federalism in Canada* Thomas O. Hueglin,2021 Federalism in Canada tells the turbulent story of shared sovereignty and divided governance from Confederation to the present time It does so with three main objectives in mind The first objective is to convince readers that federalism is the primary animating force in Canadian politics and that it is therefore worth engaging with its complex nature and dynamic The second objective is to bring into closer focus the contested concepts about the meaning and operation of federalism that all along have been at the root of the divide between English Canada and Quebec in particular The third objective is to give recognition to the trajectory of Canada's Indigenous peoples in the context of Canadian federalism from years of abusive neglect to belated efforts of inclusion The book focuses on the constitution with its ambiguous allocation of divided powers the pivotal role of the courts in balancing these powers and the political leaders whose interactions oscillate between intergovernmental conflict and cooperation This focus on executive leadership and judicial supervision is framed by considerations of Canada's regionalized political economy and cultural diversity giving students an interesting and nuanced view of federalism in Canada

Social Contract and Political Obligation Peter J. McCormick,2019-11-21 First published in 1987 This study is concerned with the problem of political obligation the normative question of why one should obey the law and

with social contract thought as an answer to this question It is entitled a critique but the critique is not of social contract theory as such but rather of the orthodox treatment of contract that yields so readily to the rough handling and easy rejection that is the normal lot of contractarianism in contemporary treatments In its place will be suggested a reinterpretation of contract that sees it as making different assumptions and requiring different premises and that is proof against many of the orthodox refutations of social contract theory the reinterpretation is thus in the nature of a vindication First from an examination of the most commonly cited champions of contractarianism namely Hobbes Locke and Rousseau will be derive a reinterpretation of contract in the form of a new model or syllogism the features of which will be brought out by contrasting it first with the contemporary ideas of John Rawls and then with the orthodox model itself Democratic consent theory as the heir to the remnants of the orthodox model will be examined and the ideas of T H Green will be considered as embodying an important feature of contractarianism omitted or ignored by the orthodox model and hence by democratic theory Finally the new model of contract will be suggested as a potentially useful approach to the problem of political obligation in the modern context This title will be of interest to student of politics and philosophy **Indigenous Rights** Anthony J.

Connolly, 2017-05-15 Throughout the world indigenous rights have become increasingly prominent and controversial The recent adoption by the United Nations General Assembly of the Declaration on the Rights of Indigenous Peoples is the latest in a series of significant developments in the recognition of such rights across a range of jurisdictions The papers in this collection address the most important philosophical and practical issues informing the discussion of indigenous rights over the past decade or so at both the international and national levels Its contributing authors comprise some of the most interesting and influential indigenous and non indigenous thinkers presently writing on the topic **Ethnicity and**

Aboriginality Michael D. Levin, 1993-12-15 Ethnonationalism is a phenomenon of great importance in many parts of the world today In this collection of papers nine distinguished anthropologists focus on Canadian and international case studies to show how ethnonational claims of cultural groups have been expressed and developed in specific historical and political situations from observations of Quebec to the former Soviet Union through problems of the Australian aborigines Malay identity the Avaglogoli in Western Kenya and ethnic cultures in Nigeria the essays reflect the complexity of the claims and aspirations of different groups Some deal with intractable demand for sovereignty others with solutions that attempt to achieve a level of autonomy and recognition short of sovereignty The intellectual history of the right of self determination is little more than 200 years old It is only since that time that the ideal of popular sovereignty by any group that views itself as a people became an accepted view These writers have used a paper by Walker Connor The Politics of Ethnonationalism as a foil against which to develop their own theses Connor argues that claims to self determination based on ethnic identity present problems to all but a few states and since these claims are unlikely to be satisfied ethnonationalism is disruptive of political order The papers in this volume do not accept his negative conclusions although they share a sense of secession and

division are less worthy outcomes than pluralist structures Nevertheless in Valery Tishkov s discussion of the former Soviet Union secession appears to be the only solution Since ethnonationalism will continue to be a political issue for some time these papers form a significant base for future political debate
