Best Sellers, 1983 *Convergence* Peter Watson, 2017-02-21 Originally published in Great Britain in 2016 with different subtitle *Convergence the deepest idea in the universe* **Principles of Art History Writing** David Carrier, 1991 Principles of Art History Writing traces the changes in the way in which writers about art represent the same works These differ in such deep ways as to raise the question of whether those at the beginning of the process even saw the same things as those at the end did Carrier uses four case studies to identify and explain changing styles of restoration and the history of interpretation of selected works by Piero Caravaggio and van Eyck Back cover *Isle of the Dead* Alex Connor, 2014-04-15 Fifteenth century Venice is a dangerous time to be alive A permanent winter has rolled in over the canals and bodies keep washing up on the banks of the city Each victim has been skinned In the present day a famous portrait by Titian has been discovered Its subject the Fifteenth century suspected murderer Angelico Vespucci known as The Skin Hunter Leading New York dealer Triumph Jones encourages the rumor that when the portrait arises so will the man And when flayed bodies start turning up in Tokyo London and Venice it begins to look like more than just a superstition Previously a location finder for the film industry Nino Bergstrom has just recovered from a serious illness As a favor to the friend who helped him the dealer Gasser Reni he investigates the murder and flaying of Seraphina Morgan In Venice he comes across Seraphina s louche husband and the flamboyant Johnny Ravenscourt moving onto Tokyo where he encounters the Japanese dealer of the macabre Jobo Kido As the dealers vie to get their hands on the Titian portrait some for its beauty others for its notoriety as being the first portrait of a serial killer each becomes a suspect And then Nino makes the connection between the Fifteenth century murderer and his Twenty first century imitator Each of the contemporary century victims had something in common with their Fifteenth century counterpart Further investigations lead Nino deeper into the depraved world of Angelico Vespucci the original Skin Hunter Then after the deaths and mutilation of three women on the anniversaries of Vespucci s crimes Nino realizes that the date for the fourth killing is due He has to find the last victim and save her And he has only ten days to do it **Histories of Transnational Crime** Gerben Bruinsma, 2015-05-13 Histories of Transnational Crime provides a broad historical framework for understanding the developments in research of transnational crime over the centuries This volume provides examples of transnational crime and places them in a broad historical context which has so far been missing from this field of study The contributions to this comprehensive volume explore the causes and historical precursors of six main types of transnational crime piracy human smuggling arms trafficking drug trafficking art and antique trafficking corporate crime The historical contributions demonstrate that transnational crime is not a novel phenomenon of recent globalization and that beyond

organized crime groups powerful individuals governments and business corporations have been heavily involved Through a systematic historical and contextual analysis of these types of transnational crime the contributions to this volume provide a fundamental understanding of why and how various forms of transnational crime are still present in the contemporary world In the past two decades the study of transnational crime has developed from a subset of the study of organized crime to its own recognized field of study covering distinct societal threats and requiring a particular approach Art Theory and Criticism Sally Everett,1995-01-15 Arranged chronologically the essays in this book each brilliantly introduced by the editor deal with the way art and culture interact in modern times Each author focuses on one aspect of modern art and its relation to culture by analyzing questioning or refuting the ideas about art that people just assume are true The essays are also grouped into one of four different models used by art theorists today the formalist in which the works of art describe the processes of making art the avant garde art that threatens the status quo the contextualist in which art can exist only in a specific situation or context and the post modernist stating that art is not completely detached from popular culture Instructors considering this book for use in a course may request an examination copy here
